Such credit risks imply that the Noteholders may lose all or part of their investment in the Notes in case the Issuer and the Guarantor become insolvent or are unable to fulfill their obligations under the Notes.

For a description of the risk factors, please revert to page 18 to 34 and the full Section 3 of this Base Prospectus.

B.2 Domicile, legal form, legislation and country of incorporation

BELFIUS BANK is a limited liability company of unlimited duration incorporated under Belgian law. Its registered office is at 1000 Brussels, boulevard Pachéco 44, Belgium, telephone +32 2 222 11 11.

B.4b Trends affecting the [Issuer/Guarantor] and its industry

1. Uncertain economic conditions

BELFIUS BANK's business activities are dependant on the level of banking, finance and financial services required by its customers. Also, the market for debt securities issued by banks is influenced by economic and market conditions and, to varying degrees, market conditions, interest rates, currency exchange rates and inflation rates in Europe and other countries. The profitability of BELFIUS BANK's businesses could, therefore, be adversely affected by a worsening of general economic conditions in its markets, as well as by foreign and domestic trading market conditions and/or related factors, including governmental policies and initiatives.

2. Global financial crisis and Eurozone debt crisis

The global financial system has suffered considerable turbulence and uncertainty in recent years and the outlook for the global economy over the near to medium term remains challenging. The default, or a significant decline in the credit rating, of one or more sovereigns or financial institutions could cause severe stress in the financial system generally and could adversely affect the markets in which BELFIUS BANK operates and the businesses and economic condition and prospects of BELFIUS BANK's counterparties, customers, suppliers or creditors, directly or indirectly.

3. Increased and changing regulation

Recent developments in the global markets have led to an increase in the involvement of various governmental and regulatory authorities in the financial sector and in the operations of financial institutions. In particular, governmental and regulatory authorities in Europe have already provided additional capital and funding requirements and or may in the future be introducing a significantly more restrictive regulatory environment.

B.5 Position of the [Issuer/Guarantor] in its group

Since 20 October 2011, the Federal Holding and Investment Company ("FHIC"), acting on behalf of the Belgian Federal State, holds 100% of the shares of BELFIUS BANK.

B.9 Profit forecast or estimate

BELFIUS BANK does not disclose any forecast of its future results.

Risk factors

D.2 Key risk specific to the Issuer [and to the Guarantor]

Like all other financial institutions, BELFIUS BANK faces financial risk in the conduct of its business, such as credit risk, operational risk and market risk (including liquidity risk).

General credit risks are inherent in a wide range of BELFIUS BANK's businesses. These include risks arising from changes in the credit quality of its borrowers and counterparties and the inability to recover loans and any amounts due. Being a universal commercial credit institution, BELFIUS BANK is financing (local) public and social sector, the historical and still predominant segment, and corporates through its Public and Wholesale Banking business unit as well as households, self-employed persons and small businesses through its Retail and Commercial Banking business unit.

Market risks are all the risks linked to the fluctuations of market prices, including, principally, exposure to loss arising from adverse movements in interest rates, and, to a lesser extent, foreign exchange rates and equity prices, stemming from BELFIUS BANK's activities. Due to the nature of its activity, BELFIUS BANK is prevented from assuming significant exposure to market risk.

Operational risk is the risk of financial or non-financial impact resulting from inadequate or failed internal processes, people and systems, or from external events. The definition includes legal and reputation risk but excludes strategic risk and expenses from commercial decisions. Although BELFIUS BANK has implemented risk controls and loss mitigation actions, and has resources devoted to developing efficient procedures and staff awareness, 100 per cent coverage of operational risks can never be attained, due to the very nature of these risks.

Liquidity risk at BELFIUS BANK is affected mainly by:

- the amounts of commercial funding collected from retail and private clients, small, medium-sized and large companies and similar clients and the way these funds are allocated to clients through commercial loans;
- the volatility of the collateral that is placed with counterparties as part of the framework of derivative and repo transactions (so called cash & securities collateral);
- the value of the liquid reserves by virtue of which BELFIUS BANK can collect funding on the repo market or from the ECB;
- the capacity to obtain interbank funding.

As at 30 June 2013 BELFIUS BANK complies with all NBB's regulatory liquidity stress tests.

3. RISK FACTORS

(Annex V.2, IV. And XI.3 of Regulation (EC) 809/2004)

The following sets out certain aspects of the offering of the Notes of which prospective investors should be aware of.

An investment in the Notes involves a degree of risk. Prospective investors should carefully consider the risks set forth below and the other information contained in this Prospectus (including information incorporated by reference) before making any investment decision in respect of the Notes. The risks described below are risks which the Issuers believe may have a material adverse effect on the relevant Issuer's financial condition and the results of its operations, the value of the Notes or the relevant Issuer's ability to fulfil its obligations under the Notes. All of these factors are contingencies which may or may not occur and neither BELFIUS BANK nor BELFIUS FUNDING nor BELFIUS FINANCING COMPANY is in a position to express a view on the likelihood of all or any of such contingencies occurring. Additional risk and uncertainties, including those of which the Issuers are not currently aware or deems immaterial, may also potentially have an adverse effect on the relevant Issuer's business, results of operations, financial condition or future prospectus or may result in other events that could cause investors to lose all or part of their investment.

Factors which the Issuers believe may be material for the purpose of assessing the market risks associated with the Notes issued under the Programme are also described below.

The Issuers believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the relevant Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons which are not known to the Issuers or which the Issuers deem immaterial at this time.

Prospective investors should also read the detailed information set out elsewhere in the Base Prospectus (including any documents deemed to be incorporated in it by reference) and reach their own views prior to making any investment decision.

In case of doubt in respect of the risks associated with the Notes and in order to assess their adequacy with their personal risk profile, investors should consult their own financial, legal, accounting and tax experts about the risks associated with an investment in these Notes, the appropriate tools to analyse that investment, and the suitability of that investment in each investor's particular circumstances. No investor should purchase the Notes described in the Base Prospectus unless that investor understands and has sufficient financial resources to bear the price, market, liquidity, structure, redemption and other risks associated with an investment in these Notes. The market value can be expected to fluctuate significantly and investors should be prepared to assume the market risks associated with these Notes.

Factors that may affect BELFIUS BANK's ability to fulfill its obligations under the Notes.

Like other banks, BELFIUS BANK faces financial risk in the conduct of its business, such as credit risk, operational risk and market risk (including liquidity risk).

3.1. Risks related to the business of banks in general, including BELFIUS BANK

3.1.1. Credit Risk

General credit risks are inherent in a wide range of BELFIUS BANK's businesses. These include risks arising from changes in the credit quality of its borrowers and counterparties and the inability to recover loans and any amounts due. BELFIUS BANK is subject to the credit risk that third parties such as trading counterparties, counterparties under swaps and credit and other derivative contracts, borrowers of loans made available by BELFIUS BANK, the issuers of securities which BELFIUS BANK holds, customers, clearing agents and clearing houses, exchanges, guarantors, (re-)insurers and other financial intermediaries owing BELFIUS BANK money, securities or other assets do not pay or perform under their obligations. Bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failure or other reasons may cause them to default on their obligations towards BELFIUS BANK.

Being a universal commercial credit institution, BELFIUS BANK is financing clients from the public and social sector and corporates through its Public and Wholesale Banking business unit as well as households, self-employed persons and small businesses through its Retail and Commercial Banking business unit.

Risk management at BELFIUS BANK is responsible for, inter alia, setting and managing the risk surveillance function and decision processes and implementing risk assessment methods for each of BELFIUS BANK's activities and operational entities.

Credit risk measurements rely principally on internal rating systems put in place by BELFIUS BANK under Basel II. The risk approach of BELFIUS BANK is based on its decision to apply the IRBA II Advanced method. This choice has been acknowledged by the regulators. Each counterparty is rated by analysts in charge of credit risk or by dedicated scoring systems. This rating corresponds to a valuation of the counterparty's level of default risk, expressed on an internal rating scale, and is a key element in the loan granting process by the credit committee or by automated granting systems. Ratings are reviewed at least annually according to regulatory constraints, and this allows a proactive identification of counterparties requiring regular monitoring by the "watchlist" committee.

In order to control the general credit risk profile and to limit risk concentrations, credit risk limits are defined for each counterparty, fixing the maximum exposure to credit risk deemed acceptable for a given counterparty. Limits may also be imposed per economic sector and per product. The risk management department proactively monitors these limits, in relation to the evolution of the perception of risks run by BELFIUS BANK. In order to take more recent events into consideration, specific limits may be frozen at any time by the risk management department.

3.1.2. Credit Risk with regard to Dexia Group

As at 30 September 2013, total funding granted to Dexia was fully secured and amounted to EUR 14.4 billion, of which EUR 13.4 billion government guaranteed bonds issued by Dexia Crédit Local (DCL) and guaranteed by the Belgian, French and Luxembourg governments. The remaining EUR 1 billion is composed of EUR 0.3 billion covered bonds issued by Dexia LGD Banque and of EUR 0.7 billion "multi-party" repo's .

It is to be remembered that, at 30 September 2011 (when Belfius was separated from the Dexia Group), funding granted by Belfius to Dexia amounted to EUR 56 billion, of which EUR 23 billion unsecured.

3.1.3. Concentration Ratio

Because Belfius Bank has ceased to be part of the Dexia Group since October 2011, its former sister companies became external counterparties. As a result, the bank became subject to the regulatory limitation standards for risks on the same counterparty. At the end of 2011, Belfius Bank provided significant funding to the Dexia Group, as a result of which the concentration risk - which had previously been "acceptable" according to the regulations, because it was within the same group - then became far too high.

In consultation with the National Bank of Belgium (NBB) and the Dexia Group, Belfius Bank drew up an action plan designed to reduce this concentration risk. Based on this plan, the NBB allowed for an exemption for non-compliance with this concentration risk limit until 31 December 2012 and then until 30 June 2013.

In the first half of 2013, Belfius Bank was able to reduce its concentration risk on Dexia further, thanks to liquidity gains at Dexia consecutive to the sale of Dexia Municipal Agency and which were allocated to a further reduction of the funding granted by Belfius (for an amount of approximately EUR 5.5 billion) and thanks to a further decrease of the (undrawn) liquidity lines granted by Belfius Bank to Assured Guaranty in the Dexia period. As a result, Belfius Bank complies with the regulatory concentration ratio as from 30 June 2013.

3.1.4. Market Risk

The businesses and earnings of BELFIUS BANK and of its individual business segments are affected by market conditions. Market risks are all the risks linked to the fluctuations of market prices, including, principally, exposure to loss arising from adverse movements in interest rates, and, to a lesser extent, foreign exchange rates and equity prices, stemming from BELFIUS BANK's activities. Due to the nature of its activity, BELFIUS BANK is prevented from assuming significant exposure to market risk. Market risks generated by the capital markets activities stem mainly from short-term cash management and a portfolio of derivative products with customers that is managed on a market value basis. Market risks generated by the commercial businesses are generally hedged and residual risks are handled by the asset and liability management function.

3.1.5. Operational Risk

BELFIUS BANK defines “operational risk” as the risk of financial or non-financial impact resulting from inadequate or failed internal processes, people and systems, or from external events. The definition includes legal and reputational risk but excludes strategic risk and expenses from commercial decisions.

A new framework on the management of operational risk at BELFIUS BANK is currently in development and will be based on the principles mentioned in the “principles for the sound management of operational risk” (Bank for International Settlements, June 2011).

Awaiting this new framework, the current policy and guidelines still apply in order to ensure the continuation of the operational risk management in the company. The governance structure is based on a first line responsibility by the business management and a second line responsibility by the operational risk management department, who defines the methodological principles. There is a clear separation of duties between both lines. An operational risk committee (the operational risk acceptance committee) is installed at senior management level.

The operational risk management includes the collection of operational events (loss data), the organisation of yearly risk and control self-assessments (“RCSA”), as well as the performance of scenario analysis, the collection of insurance claims and the yearly review of the insurance policies, the development and testing of business continuity plans and performance of business impact analysis, a crisis management programme, the management of outsourcing arrangements and of information risk. All activities of BELFIUS BANK are covered by the current framework.

Although BELFIUS BANK has implemented risk controls and loss mitigation actions and has also devoted resources to developing efficient procedures and staff awareness, a 100 per cent. coverage of operational risks can never be attained due to the very nature of these risks.

In October 2011, a little more than 250 activities performed by BELFIUS BANK in favour of the Dexia Group or vice versa were identified for restructuring so that BELFIUS BANK and the Dexia entities could operate autonomously. Functions and processes were thus transferred and/or recreated in order to guarantee the autonomous operation of the institutions, whilst guaranteeing operational continuity at all times, at Dexia and at BELFIUS BANK.

In view of the extent of these developments and the scheduled completion date for unwinding the applications, this package of projects was monitored closely by management. The operational risk inherent to this operation was significant but was mitigated amongst others to the transfer of Dexia staff to BELFIUS BANK.

By the end of June 2013, the operational unwind can be considered as closed not taking into account a very limited number of small issues which will be solved by year end.

One final part of the unwinding concerned the future of Associated Dexia Technology Services (“ADTS”), the Dexia Group’s IT infrastructure company which still provides services to Belfius Bank. On 6 December 2013, Dexia announced that it has signed an agreement with IBM. As a result of this agreement, IBM takes a controlling share in ADTS establishing an IBM company, renamed as Innovative Solutions for Finance (ISFF). With this agreement, IBM will implement a cloud infrastructure to expand ISFF services and will offer the best guarantee for the continuity of the services it provides to its current clients, principally BELFIUS BANK and its subsidiaries..

3.1.6. Liquidity Risk

Liquidity management framework

The Liquidity and Capital Management (“LCM”) department was established in 2012 as part of the finance department of BELFIUS BANK. The LCM is the front-line manager for the liquidity and capital requirements of BELFIUS BANK. This means that it identifies, analyses and reports on current and future liquidity positions and risk, and then defines and coordinates the action needed to keep them in the right direction. Hence the ultimate responsibility for managing liquidity comes under the responsibility of the Chief Financial Officer (“CFO”). The CFO also bears final responsibility for managing the interest rate risk contained in the balance sheet via the ALM department and the Asset and Liability Committee (the “ALCO”), meaning that total balance sheet management comes under its responsibility.

LCM holds committee meetings each week attended by the CFO, Risk Management and the Treasury department, which implements the decisions taken by LCM in relation to obtaining short-term and long-term funding on the institutional market.

LCM also monitors the funding plan to guarantee for the years ahead that BELFIUS BANK will remain to comply with its internal and regulatory liquidity ratios.

LCM reports on a daily and weekly basis to the Management Board about BELFIUS BANK's liquidity situation.

Second-line controls for monitoring the liquidity risk are performed by the Risk Management department, which ensures that the reports published are accurate and oversees compliance with limits, as laid down in the Liquidity Guideline.

The liquidity management of BELFIUS BANK is guided by internal and regulatory liquidity ratios. In addition, there are also strict limits regarding the part that can be financed short-term and the part that has to be obtained on the interbank market. Central to this are the available reserves: at any time BELFIUS BANK is required to have sufficient quality assets available that can be used to accommodate any temporary liquidity needs, both in day-to-day management and in stress scenarios.

Exposure to liquidity risk

The liquidity risk of BELFIUS BANK is affected mainly by:

- the amounts of commercial funding collected from retail and private clients, small, medium-sized and large companies and similar clients and the way these funds are allocated to clients through commercial loans;
- the volatility of the guarantee that is frozen with counterparties as part of the framework of derivative and repo transactions (so called cash & securities collateral);
- the value of the liquid reserves by virtue of which BELFIUS BANK can collect funding on the repo market or from the ECB; and
- the capacity to obtain interbank funding.

Significant improvement in the liquidity profile in 2012

The crisis around the Dexia Group at the end of 2011 also placed the liquidity of BELFIUS BANK under pressure. As a result, it was no longer able to comply with the NBB's regulatory one-month liquidity ratio. The main reason for this was the sharp increase in the Dexia Group's need for liquidity, which meant that a call was made on the available funding capability of BELFIUS BANK, which was the liquidity competence centre for the whole Dexia Group. BELFIUS BANK provided substantial secured and unsecured funding to the other entities in the Dexia Group. Significant falls in interest rates also generated additional requirements for collateral linked to historical derivative contracts.

During the crisis, BELFIUS BANK obtained a temporary exemption from the NBB (until September 2012). This exemption was coupled with an action plan requiring the funding granted to the Dexia Group to be reduced significantly and quickly.

During the first three quarters of 2012, BELFIUS BANK made liquidity the organisation's greatest priority by:

- introducing a robust liquidity framework with centralised liquidity management;
- reducing the credit risk vis-à-vis the Dexia Group;
- converting parts of its loans to small and medium-sized companies into liquid reserves: the bonds issued by the securitisation vehicle Mercurius can be used as collateral in money market transactions in repo or with the ECB;
- converting deposits from public and corporate clients with uncertain stability into deposits with maturities of more than one month;
- selling its Elantis portfolio of mortgage loans to Belfius Insurance;
- collecting medium and long-term funding by issuing Belgian covered bonds backed by quality residential mortgage loans: the Belgian Mortgage Pandbrieven of BELFIUS BANK; and
- attracting medium-term deposits from institutional clients.

As a result of the implementation of its action plan and other ongoing efforts, BELFIUS BANK has again complied with the NBB's regulatory liquidity stress test as of 30 September 2012.

At the end of 2011 and the beginning of 2012, BELFIUS BANK also took part in the European Central Bank's 3-year Longer-Term Refinancing Operation ("LTRO") for a total amount of EUR 25 billion. BELFIUS BANK's financial plan provides for a structural improvement in the independence of funding from the ECB. At the end of June 2013, this LTRO funding amounted to EUR 13.5 billion.

3.1.7. Competition

BELFIUS BANK faces strong competition across all its markets from local and international financial institutions including banks, building societies, life insurance companies and mutual insurance organisations. While BELFIUS BANK believes it is positioned to compete effectively with these competitors, there can be no assurance that increased competition will not adversely affect BELFIUS BANK's pricing policy and lead to losing market share in one or more markets in which it operates.

Competition is also affected by other factors such as consumer demand, technological changes and regulatory actions.

3.1.8. Regulatory Risk

As is the case for all credit institutions, BELFIUS BANK's business activities are subject to substantial regulation and regulatory oversight in the jurisdictions in which it operates, mainly Belgium. Current and future regulatory developments, including changes to accounting standards and to the amount of regulatory capital required to support the risk, could have an adverse effect on BELFIUS BANK conducting business and on the results of its operations. BELFIUS BANK's business and earnings are also affected by fiscal and other policies that are adopted by the various regulatory authorities of the European Union, foreign governments and international agencies. The nature and impact of future changes in such policies are not predictable and are beyond BELFIUS BANK's control.

3.1.9. Risks linked to derivatives transactions

BELFIUS BANK often acts as a party to derivative transactions, including credit derivatives. Individually negotiated and non-standardised derivative instruments can make it difficult to transfer or settle the position. Many credit derivatives require delivery to the counterparty of the underlying security, loan or other obligation in order to receive payment. However, BELFIUS BANK may not hold, and may not be able to obtain, the underlying security, loan or other obligation. This may lead to BELFIUS BANK forfeiting the payments due under these contracts or result in settlement delays with the attendant credit and operational risk, as well as increased costs.

Counterparties do not always confirm derivative contracts and other transactions entered into with third parties on a timely basis. BELFIUS BANK is subject to an increased credit and operational risk while transactions remain unconfirmed. Also, in case of default, BELFIUS BANK may find it more difficult to enforce the contract.

Through the admission of **EMIR** (Regulation (EU) No 648/2012 of the European Parliament and the Council on "OTC derivatives, central counterparties and trade repositories" (EMIR) of **4 July 2012**, which entered into force on 16 August 2012,) the environment and infrastructure in which derivatives are traded, will drastically change.

The main objectives of EMIR are to increase market transparency, reduce counterparty credit risk and to reduce operational risk.

In addition to increased market transparency through mandatory reporting, EMIR aims to reduce the counterparty credit risk through the imposition of a central clearing obligation. All derivative contracts that are deemed eligible for clearing and for which an appropriate central counterparty (CCP) can be found will have to be cleared. Central clearing will increase the need for sufficient highly liquid and high quality assets to fulfil the margin calls..

For OTC contracts that fall outside the scope of the clearing obligation, EMIR imposes a sharpened collateral and risk management. First, depending on the characteristics of the contract, the trade will have to be confirmed within a shorter time frame. Second, EMIR obliges market participants to mark all non-cleared derivative contracts to the corresponding market price, and if unavailable, appropriate economic models may be used. Third, higher capital requirements are imposed for non-cleared bilateral trades.

3.2. Investment considerations relating to the business of BELFIUS BANK

3.2.1. Uncertain economic conditions

BELFIUS BANK's business activities are dependent on the level of banking, finance and financial services required by its customers. In particular, levels of borrowing are heavily dependent on customer confidence; the state of the economies BELFIUS BANK does business in, market interest rates and other factors that affect the economy. Also, the market for debt securities issued by banks is influenced by economic and market conditions and, to varying degrees, market conditions, interest rates, currency exchange rates and inflation rates in other

European and other countries. There can be no assurance that current events in Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of the Notes or that economic and market conditions will not have any other adverse effect. The profitability of BELFIUS BANK's businesses could, therefore, be adversely affected by a worsening of general economic conditions in its markets, as well as by foreign and domestic trading market conditions and/or related factors, including governmental policies and initiatives. An economic downturn or significantly higher interest rates could increase the risk that a greater number of BELFIUS BANK's customers would default on their loans or other obligations to BELFIUS BANK, or would refrain from seeking additional borrowing. As BELFIUS BANK currently conducts the majority of its business in Belgium, its performance is influenced by the level and cyclical nature of business activity in this country, which is in turn affected by both domestic and international economic and political events. There can be no assurance that a lasting weakening in the Belgian economy will not have a material adverse effect on BELFIUS BANK's future results.

3.2.2. Global financial crisis and Eurozone debt crisis

The global financial system has suffered considerable turbulence and uncertainty in recent years and the outlook for the global economy over the near to medium term remains challenging. In Europe, the ongoing economic deterioration of several countries, including Greece, Italy, Ireland, Spain, Portugal and Cyprus, together with the risk of contagion to other more stable countries, has further exacerbated the global economic crisis. The large sovereign debts and/or fiscal deficits of a number of European countries and the United States have raised concerns regarding the financial condition of financial institutions, insurers and other corporates (i) located in these countries, (ii) that have direct or indirect exposure to these countries, and/or (iii) whose banks, counterparties, custodians, customers, service providers, sources of funding and/or suppliers have direct or indirect exposure to these countries. BELFIUS BANK has exposure to corporates, financial institutions and securities which may have material direct and indirect exposures in these countries. As at 31 December 2012 and 30 June 2013, BELFIUS BANK's maximum credit risk exposure "MCRE" on those countries amounted to EUR 4.9 billion and EUR 4.7 billion, respectively. The MCRE as at 30 June 2013 (which constitutes 2.0 per cent. of the total assets) has been significantly decreased (by 28 per cent.) since December 2011, mainly driven by a 95 per cent. reduction of total exposure on Portugal, Ireland, Greece and Spain. Although the high quality of BELFIUS BANK's investment portfolio has been confirmed by an analysis carried out internally and by a third party, these exposures may, in the future, be affected by a restructuring of their terms, principal, interest and maturity.

Despite the various rescue packages and other stabilising measures adopted throughout Europe to deal with the worsening Eurozone sovereign debt crisis, global markets continue to record high levels of volatility and uncertainty. Uncertainty over the best way forward for the highly indebted Eurozone persists and poses a serious threat to the global economic recovery. Financial markets are expected to remain volatile, with the risk of contagion unlikely to dissipate in the near term, and this continues to place strains on funding markets.

The default, or a significant decline in the credit rating, of one or more sovereigns or financial institutions could cause severe stress in the financial system generally and could adversely affect the markets in which BELFIUS BANK operates and the businesses and economic condition and prospects of BELFIUS BANK's counterparties, customers, suppliers or creditors, directly or indirectly, in ways which are difficult to predict. The impact of the current conditions could thus be detrimental to BELFIUS BANK and could adversely affect its business, operations and profitability, its solvency and the solvency of its counterparties, custodians, customers and service providers, its credit rating, the value and liquidity of its assets and liabilities, the value and liquidity of the Notes and/or the ability of BELFIUS BANK to meet its obligations under the Notes and under its debt obligations more generally.

Prospective investors should ensure that they have sufficient knowledge and awareness of the Eurozone crisis, global financial crisis and the economic situation and outlook as they consider necessary to enable them to make their own evaluation of the risks and merits of an investment in the Notes. In particular, prospective investors should take into account the considerable uncertainty as to how the Eurozone crisis, the global financial crisis and the wider economic situation will develop over time.

3.2.3. Effective capital management and capital adequacy and liquidity requirements

Effective management of BELFIUS BANK's capital is critical to its ability to operate its businesses, to grow organically and to pursue its strategy of returning to standalone strength. BELFIUS BANK is required by regulators in Belgium and other jurisdictions in which it could undertake regulated activities to maintain adequate capital resources. The maintenance of adequate capital is also necessary for BELFIUS BANK's financial flexibility in the face of potential turbulence and uncertainty in the global economy. Accordingly, the

purpose of the issuance of the Subordinated Notes issued under the Programme is, amongst others, to allow BELFIUS BANK to strengthen its capital position.

The package of reforms to the regulatory capital framework published by the Basel Committee on Banking Supervision (the "**Basel Committee**") in December 2010 included materially increasing the minimum common equity requirement and the total Tier 1 capital requirement. In addition, banks will be required to maintain, in the form of common equity (after the application of deductions), a capital conservation buffer to withstand future periods of stress, bringing the total common equity requirements to 7 per cent. If there is excess credit growth in any given country resulting in a system-wide build-up of risk, a countercyclical buffer within a range of 0 per cent. to 2.5 per cent. of common equity is to be applied as an extension of the capital conservation buffer. In addition, a leverage ratio will be introduced, together with a liquidity coverage ratio and a net stable funding ratio. The Basel Committee conducted further work on systemically important financial institutions and contingent capital. Measures may include capital surcharges, contingent capital and bail-in debt (which could be introduced by statute, possibly impacting existing as well as future issues of debt and exposing them to the risk of conversion into equity and/or (partial or full) write-down (with or without subsequent potential write-up) of principal amount). Such measures would be in addition to proposals for the write-off of Tier 1 and Tier 2 debt (and its possible conversion into ordinary shares) if a bank becomes non-viable. On 25 June 2011, the Basel Committee proposed that global systemically important banks be subject to an additional common equity Tier 1 capital requirement ranging from 1 per cent. to 2.5 per cent. depending on a bank's systemic importance. To provide a disincentive for banks facing the highest charge to increase materially their global systemic importance in the future, an additional 1 per cent. surcharge would be applied in such circumstances.

The Basel III proposals were implemented in the European Union through the adoption on 26 June 2013 of the Regulation (EU) No. 575/2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No. 648/2012 (the "**Capital Requirements Regulation**" or "**CRR**") and the Directive 2013/36/EU of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the "**Capital Requirements Directive**" or "**CRD**", and together with the Capital Requirements Regulation, "**CRD IV**"). The Capital Requirements Regulation and the Capital Requirements Directive were published in the Official Journal of the European Union on 27 June 2013. CRR entered into force on 28 June 2013 and CRD on 17 July 2013. Member states must implement CRD into national law by no later than 31 December 2013, as it is to take effect as from 1 January 2014.

Even though CRD IV has now been adopted, there are still various measures which require further implementation. Accordingly, to the extent that BELFIUS BANK has estimated the impact of Basel III and CRD IV on its weighted risks and capital ratios, such estimates are preliminary and subject to uncertainties and future change. Moreover, the European Commission and the National Bank of Belgium may implement the package of reforms in a manner that is different from that which is currently envisaged, or may impose other and/or additional capital and liquidity requirements on Belgian banks.

The estimates of BELFIUS BANK assume further that mitigating actions will be taken (such as tactical derisking of legacy positions and securitisations, as well as other actions being taken to reduce the risk from market and counterparty exposures), which may not occur as anticipated, in a timely manner or at all.

The Basel III and CRD IV changes and other future changes to capital adequacy and liquidity requirements in Belgium and in other jurisdictions, including any application of increasingly stringent stress case scenarios by the regulators in Belgium, could require BELFIUS BANK to raise additional Tier 1 (including Core Tier 1) and Tier 2 capital by way of further issuances of securities, and will result in currently existing Tier 1 and Tier 2 securities of BELFIUS BANK ceasing to count towards BELFIUS BANK's regulatory capital, either at the same level as present or at all. The requirement to raise additional Core Tier 1 capital could have a number of negative consequences for BELFIUS BANK and its shareholders, including impairing BELFIUS BANK's ability to pay dividends. If BELFIUS BANK is unable to raise the required Tier 1 and Tier 2 capital, it may f.i. be required to further reduce the amount of its weighted risks.

As at 30 June 2013, BELFIUS BANK Tier 1 and Core Tier 1 capital ratios both amounted to 14.3 per cent. (calculated in accordance with Basel II requirements). On the same date, phased-in Basel III common equity ratio was estimated at 12.8 per cent. Any change that limits BELFIUS BANK's ability to manage effectively its balance sheet and capital resources going forward (including, for example, reductions in profits and retained earnings as a result of impairments, or increases in weighted risks) or to access funding sources could have a material adverse impact on its financial condition and regulatory capital position or result in a loss of value in the Notes.

3.2.4. Commitments towards the European Commission following the purchase of BELFIUS BANK by the Belgian Federal State

The acquisition of Belfius Bank by the Belgian Federal State is considered State aid by the European Commission. The bank had to demonstrate its long-term viability. Therefore the bank submitted its strategic plan 2013-2016 to the European Commission. On 28 December 2012, the European Commission approved BELFIUS BANK's 2013-2016 strategic plan. The Commission confirms a sustainable and autonomous future for BELFIUS BANK, insofar as the plan is implemented accordingly.

However, since the acquisition by the Belgian Federal State is considered as state aid, it has asked for certain restrictions which will apply in 2013 and 2014, particularly regarding proprietary trading, advertising, acquisitions, coupon payments, call exercises and dividend distributions, remuneration policy and operating costs. The production of new loans to the public and social sectors and the sale of life insurance products are restricted to a certain upper limit. However, such ceilings do not limit BELFIUS BANK in its role as financier to the public and social sectors as it does not constitute a brake on the commercial objectives of BELFIUS BANK and Belfius Insurance. These new conditions fully and with immediate effect replace the old limitations imposed in 2010 when BELFIUS BANK, at the time still Dexia Bank, was part of the Dexia Group.

This decision enables BELFIUS BANK to continue to dedicate itself fully to the implementation of its strategic plan, the principal lines of which are as follows:

- the continued refocusing of BELFIUS BANK on the Belgian economy, whilst promoting a modern bank and maintaining the market shares of BELFIUS BANK and Belfius Insurance in their different client and activity segments;
- a gradual growth and control of profits, allocated as a priority to strengthening BELFIUS BANK's capital base from the perspective of implementing the regulatory reforms associated with Basel III and Solvency II; and
- an ongoing effort to reduce recurrent costs by the end of 2016.

3.2.5. A downgrade in the credit rating

The rating agencies, Standard & Poor's, Moody's and Fitch, use ratings to assess whether a potential borrower will be able in the future to meet its credit commitments as agreed. A major element in the rating for this purpose is an appraisal of the company's net assets, financial position and earnings performance. In addition, BELFIUS BANK is wholly owned by the Belgian Federal State through the Federal Holding and Investment Company ("FHIC") and it is possible that, if the ratings assigned to the Kingdom of Belgium were to be downgraded, that could result in the ratings assigned to BELFIUS BANK being negatively affected. A bank's rating is an important comparative element in its competition with other banks. It also has a significant influence on the individual ratings of the most important subsidiaries. A downgrading or the mere possibility of a downgrading of the rating of BELFIUS BANK or one of its subsidiaries might have adverse effects on the relationship with customers and on the sales of the products and services of the company in question. In this way, new business could suffer, BELFIUS BANK's competitiveness in the market might be reduced, and its funding costs would increase substantially. A downgrading of the rating would also have adverse effects on the costs to BELFIUS BANK of raising equity and borrowed funds and might lead to new liabilities arising or to existing liabilities being called that are dependent upon a given rating being maintained. It could also happen that, after a downgrading, BELFIUS BANK would have to provide additional collateral for derivative transactions in connection with rating-based collateral arrangements. If the rating of BELFIUS BANK were to fall within reach of the non-investment grade category, BELFIUS BANK would suffer considerably. In turn, this would have an adverse effect on BELFIUS BANK's ability to be active in certain business areas.

3.2.6. Catastrophic events, terrorist attacks and other acts of war

Catastrophic events, terrorist attacks, other acts of war or hostility, and responses to those acts may create economic and political uncertainties, which could have a negative impact on economic conditions in the regions in which BELFIUS BANK operates and, more specifically, on the business and results of operations of BELFIUS BANK in ways that cannot be predicted.

3.2.7. EU Crisis Management Framework and Bail-in Debt

On 6 June 2012, the European Commission published a proposal for a directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions. (the "draft RRD"). The stated aim of the draft RRD is to provide relevant authorities with common tools and powers to address banking crises

pre-emptively in order to safeguard financial stability and to minimise taxpayers' exposure to losses. The Draft RRD contains certain proposals in relation to early intervention and resolution of credit institutions as well as a debt write-down tool to be applied in certain circumstances. The resolution powers provide a means to restructure and wind down a failing credit institution, as an alternative to bankruptcy. In this respect, the draft RRD provides the resolution authorities with broad powers to implement resolution measures which may include (without limitation) the replacement or substitution of the bank as obligor in respect of debt instruments, modifications to the terms of debt instruments (including altering the maturity and /or the amount of interest payable and /or imposing a temporary suspension on payments). The debt write-down tool aims at maintaining a stressed bank as a going concern or sustaining a failing bank by granting the power to the regulators to write down debt of the bank (or to convert such debt into equity) so as to strengthen its capital basis (the so-called bail-in tool).

While there is no certainty as to the final content or timing for implementation of the draft RRD, it is currently contemplated that the draft RRD will have to be implemented by Member States by 31 December 2014, except for the bail-in tool which would have to be implemented by 1 January 2018 .

Following the agreement reached at the level of the Council of the European Union in June 2013, a further revised draft of the EU proposal was published. Such revised proposal further clarified the types of liabilities which would not be subject to the bail-in tool. Under the current proposal, secured liabilities as well as covered bonds would be excluded from the bail-in powers. There can however be no assurance to that effect as the proposal may be subject to further change during the legislative process.

3.2.8. A substantial part of BELFIUS BANK's assets are collateralized

As at 30 June 2013, the sum of covered bonds issued, pledged assets and guarantees given by BELFIUS BANK was estimated at EUR 78,924 million for EUR 193,578 million total assets .

The amount of assets pledged is linked to the funding granted by external parties who demand collateral to mitigate the potential risk on BELFIUS BANK. During the year 2012 and the first half of 2013, the amount of assets pledged has significantly decreased.

In addition, BELFIUS BANK established in November 2012 a Belgian Mortgage Pandbrieven Programme, licensed by the NBB, for a maximum amount of EUR 10,000,000,000. On 30 June 2013 EUR 2,590,000,000 mortgage pandbrieven are outstanding. In accordance with the law of 3 August 2012 establishing a legal regime for Belgian covered bonds, the investors of mortgage pandbrieven benefit from a dual recourse, being an unsecured claim against the general estate of BELFIUS BANK and an exclusive claim against the special estate of BELFIUS BANK.

3.3. Risks relating to the business of BELFIUS FUNDING or of BELFIUS FINANCING COMPANY.

Considering the close relationship with, and the guarantee of the obligations of BELFIUS FUNDING or of BELFIUS FINANCING COMPANY by BELFIUS BANK, the risk factors as set out above in respect of BELFIUS BANK may also apply, directly and/or indirectly, to BELFIUS FUNDING or to BELFIUS FINANCING COMPANY.

BELFIUS FUNDING and BELFIUS FINANCING COMPANY are fully owned subsidiaries of BELFIUS BANK, which means, for Notes issued by BELFIUS FUNDING or by BELFIUS FINANCING COMPANY, that the credit risks on the Issuer(s) and the Guarantor are closely linked. The risk factors as set out above in respect of BELFIUS BANK may therefore also apply, directly and/or indirectly, to BELFIUS FUNDING or to BELFIUS FINANCING COMPANY. The credit risks on the Issuer(s) and the Guarantor imply that the Noteholders may lose all or part of their investment in the Notes in case the Issuer and the Guarantor become insolvent or are unable to fulfill their obligations under the Notes.

Factors which are material for the purpose of assessing the market risks associated with the Notes

Each of the factors described above may also have an impact on the risks associated with the Notes. Prospective investors should carefully read the information set out below in conjunction with the risk factors related to the businesses of the Issuers.

3.4. Risks related to the Notes generally.

3.4.1. Warning: Notes may not be a suitable investment for all investors

Each potential investor in any Notes must determine the suitability of that investment in light of its own circumstances.

Each of the Issuers believes that the factors described below represent the principal risks inherent in investing in the Notes issued under the Programme, but the Issuers may be unable to pay or deliver amounts on or in connection with any Notes for other reasons and the Issuers do not represent that the risks of holding any Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Prospectus (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making any investment decision.

In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to the overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

3.4.2. Warning: Modification, waivers and substitution

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally, including modifications to the Terms and Conditions and/or a programme document and/or the substitution of an Issuer. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

3.4.3. Warning: EU Savings Directive

Under EC Council Directive 2003/48/EC on taxation of savings income (the "Savings Directive"), Member States are required, from 1 July 2005, to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident or to certain other persons established in that other Member State. However, for a transitional period, Luxembourg and Austria may instead (unless during that period they elect otherwise) operate a withholding system in relation to such payments subject to a procedure whereby, on meeting certain conditions, the beneficial owner of the interest or other income may request that no tax be withheld (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories, including Switzerland, have adopted similar measures (a withholding system in the case of Switzerland).

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer, any Paying

Agent, nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax.

The Issuers are required to maintain a Paying Agent in a Member State that will not be obliged to withhold or deduct tax pursuant to the Savings Directive.

The European Commission has proposed certain amendments to the Savings Directive which may, if implemented, amend or broaden the scope of the requirements described above. Investors who are in any doubt as to their position should consult their professional advisers.

3.4.4. Change of law

The Terms and Conditions of the Notes are, save to the extent referred to therein, based on Belgian law in effect as at the date of issue of the relevant Notes. No assurance can be given as to the impact of any possible judicial decision or change to Belgian law or administrative practice after the date of issue of the relevant Notes.

In addition, any relevant tax law or practice applicable as at the date of this Prospectus and/or the date of purchase or subscription of the Notes may change at any time (including during any subscription period or the term of the Notes). Any such change may have an adverse effect on a Noteholder, including that the Notes may be redeemed before their due date, their liquidity may decrease and/or the tax treatment of amounts payable or receivable by or to an affected Noteholder may be less than otherwise expected by such Noteholder.

3.4.5. The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and a higher price volatility than conventional debt securities, liquidity may have a material adverse effect on the market value of Notes.

3.4.6. Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to an issue of Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). Certain information with respect to the credit rating agencies and ratings will be disclosed in the applicable Final Terms.

3.4.7. Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent Notes are legal investments for it.

3.4.8. Reliance on the procedures of the X/N System, Euroclear and Clearstream, Luxembourg for transfer, payment and communication with the Issuer

The Notes may be issued in dematerialised form under the Belgian Companies Code and cannot be physically delivered. The Notes will be represented exclusively by book entries in the records of the X/N System. Access to the X/N System is available through the X/N System participants whose membership extends to securities such as the Notes. The X/N System participants include certain banks, stockbrokers ("*beursvennootschappen*" / "*sociétés de bourse*"), and Euroclear and Clearstream, Luxembourg.

Transfers of interests in the Notes will be effected between the X/N System participants in accordance with the rules and operating procedures of the X/N System. Transfers between investors will be effected in accordance with the respective rules and operating procedures of the X/N System participants through which they hold their Notes.

Neither the Issuer, nor any Agent will have any responsibility for the proper performance by the X/N System or the X/N System participants of their obligations under their respective rules and operating procedures.

A Noteholder must rely on the procedures of the X/N System, Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer nor any Agent will have no responsibility or liability for the records relating to, or payments made in respect of, the Notes within the X/N System, Euroclear or Clearstream, Luxembourg.

3.4.9. No Agent is required to segregate amounts received by it in respect of Notes cleared through the X/N System, Euroclear and Clearstream Luxembourg

As applicable, the Agency Agreement (as defined in the Terms and Conditions) provides that an Agent will debit the relevant account of the Issuer and use such funds to make payment to the Noteholders.

As applicable, the Agency Agreement also provides that an Agent will, simultaneously with the receipt by it of the relevant amounts, pay to the Noteholder, directly or through the relevant clearing system, any amounts due in respect of the relevant Notes. However, no Agent is required to segregate any such amounts received by it in respect of the Notes, and in the event that such Agent were subject to insolvency proceedings at any time when it held any such amounts, Noteholders would not have any further claim against the Issuer in respect of such amounts, and would be required to claim such amounts from such Agent in accordance with applicable insolvency laws.

3.4.10. No Agent assumes any fiduciary or other obligations to the Noteholders

Each Agent appointed in respect of Notes will act in its respective capacity in accordance with the Terms and Conditions and the Agency Agreement in good faith. However, Noteholders should be aware that the Agent assumes no fiduciary or other obligations to the Noteholders and, in particular, is not obliged to make determinations which protect or further the interests of the Noteholders.

The Agent may rely on any information to which it should properly have regard that is reasonably believed by it to be genuine and to have been originated by the proper parties.

3.4.11. Potential Conflicts of Interest

Potential conflicts of interest may exist between the Issuer, the Agents, the Calculation Agent and the Noteholders. The Calculation Agent in respect of any Series of Notes shall be the Issuer or the Guarantor, and this gives rise to potential conflicts including (but not limited to) with respect to certain determinations and judgements that the Calculation Agent may make pursuant to the Conditions that may influence any interest amount due on, and for the amount receivable upon redemption of, the Notes. Belfius Bank and its affiliates may engage in trading activities (including hedging activities) related to any Notes, for its proprietary accounts or for other accounts under their management.

3.5. Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of certain such features:

3.5.1. Risks that are applicable for Debt Securities as well as for Derivatives Securities

3.5.1.1. Notes subject to optional redemption by the Issuer

An optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. Investors that choose to reinvest moneys they receive through an optional early redemption may be able to do so only in securities with a lower yield than the redeemed Notes. Potential investors should consider reinvestment risk in light of other investments available at that time.

3.5.1.2. Index Linked Notes or other variable-linked Notes and Dual Currency Notes

Each Issuer may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each, a “Relevant Factor”) (“*Index Linked Notes*”). An investment in Index Linked Notes entails significant risks that are not associated with similar investments in a conventional fixed or floating rate debt security. Each Issuer believes that Index Linked Notes should only be purchased by investors who are, or who are purchasing under the guidance of, financial institutions or other professional investors that are in a position to understand the special risks that an investment in these instruments involves. Potential investors should be aware that:

- the market price of such Notes may be volatile;
- such index or indices may be subject to significant changes, whether due to the composition of the index itself, or because of fluctuations in value of the indexed assets;
- the resulting interest rate may be less (or may be more) than that payable on a conventional debt security issued by each Issuer at the same time;
- payment of principal or interest may occur at a different time or in a different currency than expected;
- the holder of a non capital guaranteed Index Linked Note could lose all or a substantial portion of the principal of such Note (whether payable at maturity or upon redemption or repayment), and, if the principal is lost, interest may cease to be payable on the Index Linked Note (only applicable for Derivatives Securities);
- a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable will likely be magnified;
- the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield;
- the risks of investing in an Index Linked Note encompass both risks relating to the underlying indexed securities and risks that are linked to the Note itself;
- any Index Linked Note that is indexed to more than one type of underlying asset, or on formulas that encompass the risks associated with more than one type of asset, may carry levels of risk that are greater than Notes that are indexed to one type of asset only;
- it may not be possible for investors to hedge their exposure to these various risks relating to Index Linked Notes;
- a significant market disruption could mean that the index on which the Index Linked Notes are based ceases to exist; and
- the index may cease to be published, in which case it may be replaced by an index which does not reflect the exact Relevant Factor, or, in the case where no replacement index exists, the cessation of publication of the index may lead to the early redemption of the Notes.

In addition, the value of Index Linked Notes on the secondary market is subject to greater levels of risk than is the value of other Notes. The secondary market, if any, for Index Linked Notes will be affected by a number of factors, independent of the creditworthiness of each Issuer and the value of the applicable currency, stock, interest rate or other index, including the volatility of the applicable currency, stock, interest rate or other index, the time remaining to the maturity of such Notes, the amount outstanding of such Notes and market interest rates. The value of the applicable currency, stock, interest rate or other index depends on a number of interrelated factors, including economic, financial and political events, over which each Issuer has no control. Additionally, if the formula used to determine the amount of principal, premium and/or interest payable with respect to Index Linked Notes contains a multiplier or leverage factor, the effect of any change in the applicable currency, stock, interest rate or other index will be increased. The historical experience of the relevant currencies, commodities, stocks, interest rates or other indices should not be taken as an indication of future performance of such currencies, stocks, interest rates or other indices during the term of any Index Linked Note. Additionally, there may be regulatory and other ramifications associated with the ownership by certain investors of certain Index Linked Notes.

Transactions between BELFIUS BANK and third parties could impact the performance of any Index Linked Notes, which could lead to conflicts of interest between BELFIUS BANK and the holders of its Index Linked Notes.

BELFIUS BANK is active in the international securities and currency markets on a daily basis. It may thus, for its own account or for the account of customers, engage in transactions directly or indirectly involving assets that

are “reference assets” under Index Linked Notes and may make decisions regarding these transactions in the same manner as it would if the Index Linked Notes had not been issued. Each Issuer and its affiliates may on the issue date of the Index Linked Notes or at any time thereafter be in possession of information in relation to any reference assets that may be material to holders of any Index Linked Notes and that may not be publicly available or known to the Noteholders. There is no obligation on the part of each Issuer to disclose any such business or information to the Noteholders.

3.5.1.3. Partly paid Notes

Each Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing some or all of its investment.

3.5.1.4. Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include such features.

3.5.1.5. Notes issued at a substantial discount or premium

The market values of Notes issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

3.5.1.6. Foreign currency Notes expose investors to foreign-exchange risk as well as to Issuer risk

As purchasers of foreign currency Notes, investors are exposed to the risk of changing foreign exchange rates. This risk is in addition to any performance risk that relates to each Issuer or the type of Note being issued.

3.5.1.7. Specified Denomination of €100,000 plus integral multiples of a smaller amount

In relation to any issue of Notes which have a denomination consisting of the minimum Specified Denomination of €100,000 plus a higher integral multiple of another smaller amount, it is possible that the Notes may be traded in **amounts** in excess of €100,000 (or its equivalent) that are not integral multiples of €100,000 (or its equivalent). In such a case a Noteholder who, as a result of trading such amounts, holds a principal amount of less than the minimum Specified Denomination will not receive a Definitive Note in respect of such holding (should Definitive Notes be printed) and would need to purchase a principal amount of Notes such that it holds an amount equal to one or more Specified Denominations.

3.5.1.8. A Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes

Payments of interest on the Notes, or profits realised by the Noteholder upon the sale or repayment of the Notes, may be subject to taxation in its home jurisdiction or in other jurisdictions in which it is required to pay taxes. This Prospectus includes general summaries of certain Belgian tax considerations relating to an investment in the Notes issued by each of the Issuers (see the section headed "Belgian Taxation on the Notes"). Such summaries may not apply to a particular holder of Notes or to a particular issue and do not cover all possible tax considerations. In addition, the tax treatment may change before the maturity, redemption or termination date of Notes. The Issuers advise all investors to contact their own tax advisers for advice on the tax impact of an investment in the Notes.

3.5.2. Risks that are specific to Debt Securities

3.5.2.1. Risks relating to Fixed to Floating Rate Notes or Floating to Fixed Rate Notes

Notes which are "Fixed to Floating Rate Notes" or "Floating to Fixed Rate Notes" may bear interest at a rate that each Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Each Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes, since each Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If each Issuer converts from a fixed rate to a floating rate, the spread on the Fixed to Floating Rate Notes may be less favourable than the prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If each Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than the then prevailing rates on its Notes.

3.5.2.2. Investors will not be able to calculate in advance their rate of return on Floating Rate Notes and Variable Linked Rate Notes

A key difference between Floating Rate Notes and Variable Linked Rate Notes, on the one hand, and Fixed Rate Notes, on the other hand, is that interest income on Floating Rate Notes and Variable Linked Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes and Variable Linked Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having fixed interest periods. If the Terms and Conditions of the Notes provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline, because investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing.

3.5.2.3. Zero Coupon Notes are subject to higher price fluctuations than non-discounted notes

Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon Notes than on the prices of ordinary notes because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other notes having the same maturity and credit rating. Due to their leverage effect, Zero Coupon Notes are a type of investment associated with a particularly high price risk.

3.5.3. Risks that are specific to Derivatives Securities

The holder of a non capital guaranteed Note could lose all or a substantial portion of the principal of such Note (whether payable at maturity or upon redemption or repayment), and, if the principal is lost, interest may cease to be payable on such Note.

3.5.4. Risks related to Subordinated Notes

3.5.4.1. Issuer's obligations under Subordinated Notes

Each Issuer's obligations under Subordinated Notes will be unsecured and subordinated and will rank junior to the claims of creditors in respect of unsubordinated obligations (as described in "Terms and Conditions of the Notes"). Although Subordinated Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is an increased risk that an investor in Subordinated Notes will lose all or some of his investment should the relevant Issuer become insolvent.

Any obligation of the Issuer to pay principal and interest on Subordinated Notes may be deferred in certain circumstances.

3.5.4.2. Impact of Basel Committee reforms on subordinated debt

On 6 June 2012, the European Commission published a proposal for a directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions (the "draft RRD"). The stated aim of the draft RRD is to provide relevant authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and to minimise taxpayers' exposure to losses. The Draft RRD contains certain proposals in relation to early intervention and resolution of credit institutions as well as a debt write-down tool to be applied in certain circumstances. The debt write-down tool aims at maintaining a stressed bank as a going concern or sustaining a failing bank by granting the power to the regulators to write down debt of the bank (or to convert such debt into equity) so as to strengthen its capital basis (the so-called bail-in tool). The powers provided to "resolution authorities in the draft RRD include write down/conversion powers to ensure that eligible liabilities and capital instruments (including Tier 2 capital instruments such as the Notes) fully absorb losses at the point of non-viability of the issuing institution (herein further referred to as the "Bail-In Tool"). Accordingly, the draft RRD contemplates that resolution authorities may require the write down of such capital instruments in full on a permanent basis, or convert them in full into common equity tier 1 instruments ("draft RRD Non-Viability Loss Absorption), before any resolution action is taken (see below). The draft RRD provides, inter alia, that resolution authorities shall exercise the write down power in a way that results in (i) common equity tier 1 instruments being written down first in proportion to the relevant losses and (ii) thereafter, the principal amount of other capital instruments (including Tier 2 capital instruments such as the Notes) being reduced to zero on a permanent basis. Common Equity Tier 1 instruments may be issued to holders of other capital instruments that are written down.

The point of non-viability under the draft RRD is the point at which the national authority determines if the institution meets the condition for resolution, defined as:

- (a) the institution is failing or is likely to fail, which means:
 - (i) the institution has incurred/will incur in a near future losses depleting all or substantially all of its own funds, and/or
 - (ii) the assets are/will be in a near future less than its liabilities, and/or
 - (iii) the institution is/will be in a near future unable to pay its obligations, and/or
 - (iv) the institution requires public financial support.
- (b) there is no reasonable prospect that a private action would prevent the failure;
- (c) a resolution action is necessary in the public interest.

Except for the Bail-In Tool with respect to eligible liabilities, which is currently expected to be implemented by 1 January 2018, it is currently contemplated that the measures set out in the EU Proposal will be implemented with effect from 1 January 2015.

The draft RRD currently represents the only official proposal at the EU level for the implementation in the European Economic Area of the non-viability requirements set out in the press release dated 13 January 2011 issued by the Basel Committee on Banking Supervision (the Basel Committee) entitled “Minimum requirements to ensure loss absorbency at the point of non-viability” (the Basel III Non-Viability Requirements). The Basel III Non-Viability Requirements form part of the broader Basel III package of new capital and liquidity requirements intended to reinforce capital standards and to establish minimum liquidity standards for credit institutions.

The Basel III proposals were implemented in the European Union through the adoption on 26 June 2013 of the Regulation (EU) No. 648/2012 (the “Capital Requirements Regulation” or “CRR”) and the Directive 2013/36/EU of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the “Capital Requirements Directive” or “CRD”, and together with the Capital Requirements Regulation, “CRD IV”). The Capital Requirements Regulation and the Capital Requirements Directive were published in the Official Journal of the European Union on 27 June 2013. CRR entered into force on 28 June 2013 and CRD on 17 July 2013.

CRR contemplates that the Basel III Non-Viability Requirements will be implemented in the European Economic Area by way of the draft RRD and draft RRD Non-Viability Loss Absorption. If such statutory loss absorption at the point of non-viability is not implemented by 31 December 2015 then CRR indicates that the European Commission shall review and report on whether provision for such a requirement should be contained in CRR and, in light of that review, come forward with appropriate legislative proposals.

It is currently unclear whether draft RRD Non-Viability Loss Absorption, when implemented, will apply to capital instruments (such as the Notes) that are already in issue at that time or whether certain grandfathering rules will apply. If and to the extent that such provisions, when implemented, apply to the Notes, and/or if the Basel III Non-Viability Requirements become applicable to the Notes at any time, the Notes may be subject to write down or conversion to common equity tier 1 instruments upon the occurrence of the relevant trigger event, which may result in Noteholders losing some or all investment in the Notes, including the principal amount plus any accrued interest, if such loss absorption measures would be activated. The exercise of any such power or any suggestion or anticipation of such exercise could, therefore, materially adversely affect the value of the Notes.

If Notes become subject to the draft RRD Non-Viability Loss Absorption requirement, and consequent changes are made to their terms, such changes (including any delayed payments of interest and /or redemption amounts) would not constitute an Event of Default under the Terms and Conditions of the Notes. Any indication that the Notes will become subject to changes pursuant to the draft RRD Non-Viability Loss Absorption requirement could have an adverse effect on the market price of the Notes.

Until fully implemented, the Issuer cannot predict the precise effects of the changes that result from any proposed Basel III reforms on either its own financial performance or the price of Notes, particularly Subordinated Notes or any new notes which are issued in substitution for such Notes (“Substitute Notes”) in accordance with the “Terms and Conditions” section of this Base Prospectus.

3.5.4.3. Substitution and Redemption

If specified as being applicable in the relevant Final Terms, Subordinated Notes may contain provisions which permit the relevant Issuer to substitute the relevant Subordinated Notes for new Notes, so that the new Notes replacing the substituted Subordinated Notes, subject to certain restrictions listed under section 11.9.4, are eligible for Tier 2 capital under the at any moment applicable regulatory capital rules. In certain circumstances where the relevant Issuer is unable to achieve the Tier 2 capital recognition of the Notes in full through such a substitution of the Subordinated Notes for new Notes (if specified as being applicable in the relevant Final Terms), the relevant Subordinated Notes may be redeemed early, subject to prior approval of the Lead Regulator applicable to BELFIUS BANK. The exercise of these rights by the Issuer may have an adverse effect on the position of holders of the Subordinated Notes. In addition, the tax and stamp duty consequences of holding any such substituted Notes could be different for some categories of Noteholders from the tax and stamp duty consequences for them of holding Subordinated Notes prior to such substitution.

3.6. Risk Indicator

In order to increase the transparency of the risks involved in investment products, BELFIUS BANK has developed a synthetic risk indicator for any investment product (including the Notes) through a scale going from 0 (lowest risk) to 6 (highest risk). The exact risk level for any investment product is determined in function of the following criteria: the degree to which capital will be refunded at maturity, the term of the relevant investment product, the type of return, the credit risk and complexity (Underlying and strategy). Other important criteria, such as the liquidity risk of BELFIUS BANK and the market risk, are not taken into account. The risk level as determined by this risk indicator for any Tranche of Notes will be indicated in the relevant Final Terms. All related information can be found on the BELFIUS BANK's internet site:

An Investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to an investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price, allocation and settlement arrangements (the "Terms and Conditions of the Public Offer"). The Issuer will not be a party to any such arrangements with Investors in connection with the offer or sale of the Notes and, accordingly, this Base Prospectus and any Final Terms will not contain such information. The Terms and Conditions of the Public Offer shall be published by that Authorised Offeror on its website at the relevant time. 9. BELFIUS BANK SA/NV

(Annex XI of Regulation (EC) 809/2004)

9.1. Belfius Bank profile

Belfius Bank SA/NV (previously Dexia Bank Belgium SA/NV) is a public limited company (naamloze vennootschap/société anonyme) of unlimited duration incorporated under Belgian law on 23 October 1962 which collects savings from the public. It is registered with the Crossroads Bank for Enterprises under business identification number 0403.201.185 and has its registered office at 1000 Brussels, Boulevard Pachéco 44, Belgium, telephone +32 22 22 11 11.

BELFIUS BANK is wholly owned by the Belgian Federal State through the Federal Holding and Investment Company (FHIC). BELFIUS BANK shares are not listed.

Simplified Group structure (as at the date of the Base Prospectus)

9.2. Mission

BELFIUS BANK is above all a locally focussed autonomous banking and insurance group serving individuals, professionals, companies, social profit institutions, and public authorities in Belgium.

With a mainly Belgian balance sheet in its commercial businesses and customers from all segments, BELFIUS BANK can present itself as a universal bank “of and for the Belgian society”. BELFIUS BANK is committed to maximizing its clients’ satisfaction and contributing to society by delivering value-added products and services through a modern proximity model. It aims at a healthy financial profile, reflected in a prudent investment strategy and a carefully managed risk profile, resulting into sound liquidity and solvency positions.

9.3. Activities

Commercial activities are essentially organised around three business lines: Retail and Commercial Banking, Public and Wholesale Banking, and Insurance.

9.3.1. Retail and Commercial Banking

The Retail and Commercial Banking business line offers a complete range of retail, commercial and private bank products, as well as insurance services to some four million clients divided into two categories:

- 3.8 million individual clients;
- 193,000 “business” clients, that segment including the self-employed, liberal professions and small and medium-sized enterprises with a turnover or balance sheet total lower than EUR 10 million.

At the end of 2012, the BELFIUS BANK distribution network consisted of 796 branches, mostly managed by independent agents. More than a half of them operate on the open branch concept, which places the emphasis on client advice. Open branches are laid out in three areas: self-service, information and services as well as advice. A key feature of this innovative concept is the absence of counters. The majority of cash transactions are completed in the automated self-service area.

In 2012, BELFIUS BANK passed another milestone, adapting the “open branch” concept to respond to the specific needs and characteristics of smaller branches.

BELFIUS BANK ATMs attract some 1.5 million active users a month, with 9 million interactions monthly. The proportion of transactions made via ATMs is high: 93per cent. of all deposits and 99per cent. of all withdrawals are made at an ATM.

Direct telephone communications are another major point of contact with clients, and the contact centre records some 30,000 incoming calls a month.

BELFIUS BANK is also entirely accessible via digital channels, the popularity of which is growing among clients. Belfius Direct Net, BELFIUS BANK's internet portal, attracts almost 957,000 active users, involving some 6.7 million interactions every month. Available since March 2011, Belfius Direct Mobile has attracted some 42,000 active clients, and that number is increasing.

In terms of products, the business line offers a complete range to its clients: means of payment, loans, saving and investment products and so on.

Payment products take the form of packages for current accounts associated with a debit card, or a credit card and additional insurances depending on the level of service chosen: blue, red, gold, platinum and recently white. The grant of a credit card is subject to acceptance by a standard risk management process. In addition, clients can also create their own tailored package. In its range of loan products, BELFIUS BANK principally offers fixed or variable rate mortgages generally for 10 to 20 years. The bank also markets consumer loan products in the form of car loans, personal loans and green loans.

Tailored business loans are offered to the business segment, including tax funding, working capital facilities and investment loans.

Savings and investment products are divided into two categories: balance sheet products (financing BELFIUS BANK's assets) and off-balance sheet products. Balance sheet products include classic and online savings accounts, current and term accounts, savings certificates and bonds issued by BELFIUS BANK (Belfius Funding Notes) and placed with individual clients. Off-balance sheet products consist of investment funds, equities, (euro-)bonds issued by third parties and Branch 21 and Branch 23 insurance products.

With an estimated market share of 13 per cent. both for savings accounts and for mortgage loans, BELFIUS BANK retains a stable market share overall.

The symbolic event of 2012 was undoubtedly the introduction of the Belfius brand in March 2012, followed by the legal name change in June 2012. The bank's new commercial positioning was accompanied by a new graphic image and a new communication style. All visible brand supports were adapted in record time, with some exceptions deemed too costly. A majority of branches have already undergone complete re-branding and the logos of the other branches have been removed and replaced by temporary BELFIUS BANK logos. The re-branding of all branches will be completed by mid-2013. These measures rapidly generated positive results: from June 2012, the brand was well established and enjoyed an assisted recognition rate of 91 per cent..

The positive commercial dynamic enabled BELFIUS BANK to attract deposits again in 2012, after a difficult 2011, marked by the financial crisis. Total deposit collection recorded growth of 3per cent. compared to 2011, to reach EUR 61.9 billion. The low level of long-term rates and changes to the taxation of savings introduced by the government at the beginning of 2012 made savings accounts and their tax-exempt aspect even more attractive, and this generated an increase in all types of savings accounts of 9 per cent., to EUR 31.9 billion. Similarly, the volumes of bonds issued by BELFIUS BANK rose sharply by 13per cent., to EUR 13.6 billion. Outstanding savings certificates fell to EUR 9.4 billion.

Off-balance sheet assets fell by EUR 0.2 billion, with mutual funds most severely affected.

Technical life insurance reserves (outstanding in Branch 21 and Branch 23 insurances) remained practically stable at EUR 11 billion.

Despite the slowdown of the economy, loans granted to clients increased by more than 2per cent. to reach EUR 33.4 billion. Both mortgage loans, representing almost two thirds of the total loans granted, and business loans rose by 3per cent. to reach EUR 21.2 billion and EUR 9.7 billion respectively. On the other hand, consumer loans fell slightly to EUR 1.6 billion.

Total assets under management continued to grow in the first half 2013 at EUR 93.0 billion (up EUR 1.3 billion on December 2012). Outstanding loans remained roughly stable, both for business and mortgage loans, and amounted to EUR 33.2 billion at the end of June 2013.

9.3.2. Public and Wholesale Banking

The Public and Wholesale Banking activity offers a complete range of banking products and services essentially to two complimentary groups of clients: public and social sector entities (public and social banking), and medium and large companies (corporate banking).

The public and social banking segment, with a total of 12,000 clients, serves local public bodies (communes, provinces, police areas and so on), supra-local public entities (municipalities and so on), dependent entities at a municipal, regional or federal level, and a wide range of other public sector organisations. This segment also includes entities associated with healthcare (hospitals, care homes), clients in the field of education (universities, schools), the housing sector and also clients like foundations, social secretariats and pension funds.

The second segment, the corporate banking division, serves some 6,000 medium and large companies with an annual turnover of over EUR 10 million.

The public and social banking commercial network has some 40 relationship managers located in three regions. Smaller clients (approximately 6,000) are serviced by the branch network of the Retail and Commercial Banking business line. The corporate banking commercial network has 49 relationship managers, located in six regions.

Within the two segments, the relationship manager is the reference person, or “hub”, of the commercial relationship with the client. He is the only contact person, enjoying a relationship of trust with the client over time. The relationship manager may at any time, whenever it proves necessary, call on experts, the so-called “spokes”, for the different product lines, whether insurance, leasing, electronic banking or cash management. This “hub and spoke” model is at the heart of the commercial dynamic of the business line.

The product range consists firstly of classic banking products such as short and long-term loans, cash-flow management, investment management, electronic banking services or trading room products.

Clients in the public and social banking segment also have the benefit of a range of very specific products and services such as social accounts, advanced cash-flow solutions and long-term funding solutions in phase with their own needs.

For corporate banking clients, the particular features are to be found in specific solutions associated with the public authority debt funding publics (Business-to-Government - B2G), international cash management options, “asset finance” types of solution (leasing, factoring) and expertise in terms of project finance and structured finance.

Eager to provide its clients with true added value, BELFIUS BANK endeavours constantly to adapt the range of products and services it offers so as to respond precisely and in real terms to the evolution of their needs and the specific aspects associated with them.

BELFIUS BANK remains the reference banker for public and social banking segment clients and occupies the position of challenger on the corporate market.

In 2012, BELFIUS BANK remained loyal to its primary mission as a bank “of society and for the Belgian society” and continued more than ever to play its role as financier of the Belgian economy. This commercial dynamic was reflected in 2012 by the grant of new long-term finance to the public and social sectors as well as to companies, in amounts of EUR 3.3 billion and EUR 1.2 billion respectively, as well as the realisation of numerous local initiatives.

Despite a particularly difficult economic context, BELFIUS BANK succeeded in meeting its commitments, responding systematically to tender calls from local authorities and enabling the local public sector to guarantee its finance.

In 2012, targeted commercial actions enabled BELFIUS BANK to retain or to regain client confidence, after the year 2011 was marked by the crisis affecting the Dexia Group, and particular emphasis was placed on the opportunities for cross-selling, particularly the collection of deposits from a clientele which was traditionally one rather demanding credit. These actions met with great success. As at 31 December 2012, deposits were higher than their pre-crisis level and posted annual growth of 15.7 per cent., or EUR 2.7 billion, to reach EUR 19.9 billion.

The business line is particularly concerned to attract stable funding, enabling BELFIUS BANK to strengthen its current and future liquidity position (Basel III). Total outstanding on loans were down 4.6per cent., at EUR 43.6 billion. This fall is associated with weak global demand and increased competition encountered on the corporate banking market. Outstanding loans to the public and social banking segment remained stable, at EUR 34.4 billion at the end of December 2012.

Off-balance sheet commitments were down EUR 5.7 billion over the year, at EUR 19.5 billion at the end of December 2012, reflecting the active management, with the client, of unused credit lines. With the introduction of the new Basel III regulation, banks will be subject to very much more severe regulatory ratios, regarding both capital and liquidity. Within the Public and Wholesale Banking business line, active collaboration with clients enables the management of credit lines to be optimised, particularly off-balance sheet, making the real financing needs of the client correspond better to the amount of lines necessary for their development.

Deposits remained almost stable compared to December 2012 and reached EUR 19.6 billion at the end of June 2013. On-balance-sheet commitments amounted to EUR 44.8 billion as at 30 June 2013, reflecting an increase in public and social banking and a slight decrease in corporate banking due to lower market demand. Off-balance-sheet commitments further decreased (down EUR 2.3 billion at the end of June 2013) and amounted to EUR 17.2 billion after further clean up of – for client and bank – non-valuable (unused) off-balance-sheet commitments.

9.3.3. Insurance

Belfius Insurance, a subsidiary of BELFIUS BANK, offer clients of the Retail and Commercial Banking (individuals, the self-employed, small and medium-sized enterprises) and Public and Wholesale Banking (public and social sector entities, medium and large enterprises) business lines a varied range of life and non-life insurance products.

Belfius Insurance holds fifth position on the Belgian insurance market and is also active in Luxembourg.

In order to offer an optimum response to the specific needs of different client segments, Belfius Insurance relies on several brands and distribution channels.

In Belgium, for Retail clients, Belfius Insurance combines the advantages of the exclusive agents network of DVV Insurance with those of the BELFIUS BANK branch network, whilst also relying on Corona Direct, a direct insurer active via the internet and “affinity partners”.

Through BELFIUS BANK's branch network, Belfius Insurance addresses individuals, the self-employed and SME in search of solutions (for life and for non-life insurance products). In the future, Belfius Insurance aims to make even more of the growth potential of BELFIUS BANK's distribution network and to work more through the concept of “one stop shopping”.

DVV Insurance have been a benchmark for more than 80 years, both for life and for non-life insurance. Through their 335 points of sale, each with exclusive advisers, they offer 400,000 households - individuals, the self-employed and small enterprises - a complete range of insurances, mortgage loans and a widely renowned and first-class tailored service.

Corona Direct has operated as a direct insurer since 1974. It offers its 160,000 clients family, car, home, funeral and other insurances either directly (by internet, telephone or mailing) or via its “affinity partners”. The strength of Corona Direct rests in its ability to innovate, for instance with its kilometre-linked vehicle insurance.

For Public and Wholesale Banking clients, Belfius Insurance also collaborates with BELFIUS BANK and specialist brokers. By virtue of its unique experience in the field of insurances for the public and non-profit sectors, Belfius Insurance has become a benchmark in those sectors, for which over the years it has developed a complete range of very specific life and non-life insurance products.

Since 2012, this multi-channel approach has also involved the Elantis brand, which offers mortgage loans through independent brokers. Purchased from BELFIUS BANK by Belfius Insurance in 2012, Elantis aims to position itself as a new and important distribution channel for the insurer and to strengthen the position of Belfius Insurance on the mortgage market.

In Luxembourg, Belfius Insurance offers its insurance products through the subsidiary International Wealth Insurer (IWI).

The range of products for Retail clients includes classic non-life insurance: car insurance (third party and comprehensive), third party civil liability insurance, fire insurance, family insurance, hospitalisation insurance, and miscellaneous risks insurance. In addition, life insurances such as pension savings, mixed life insurances, savings insurances, guaranteed income cover, death insurances, credit balance insurance linked to mortgage loans and Branch 23 investment products are also offered. By virtue of this complete range, Belfius Insurance plays its role as a locally anchored aiming at protecting Belgian families, maintaining their income levels and increasing their assets.

Public and Wholesale Banking clients have a wide choice of professional insurances, fire insurance, guaranteed income cover, group hospitalisation insurance, group insurance, company executive insurance, Invest products and specific tailored solutions.

Belfius Insurance has a market share of 8per cent. on the Belgian market (9.8per cent. in the Life segment and 4.8per cent. in the Non-Life segment). Belfius Insurance attaches great importance to client satisfaction: the insurer endeavours to be close to its clients, offering them professional and personalised advice and aiming always for optimum efficiency in this regard.

In 2012, total gross written premiums were EUR 2,484 million, against EUR 2,661 million in 2011.

Life insurance premiums were EUR 1,953 million, against EUR 2,152 million in 2011. This fall arose mainly in Luxembourg (-49 per cent.) as a consequence of the general economic situation and the Dexia image crisis, so that the sales by the banking channel of the Banque Internationale à Luxembourg, a former Dexia subsidiary, came to a halt.

Life insurance reserves amounted to EUR 19.9 billion, against EUR 19.1 billion in 2011. This appreciable rise is due to the success of the new Branch 23 product (Belfius Invest), whilst Branch 21 reserves remained stable.

Non-Life insurance premiums were EUR 531 million, up 4.4 per cent. on 2011. All channels contributed to this rise.

Belgian distribution channels posted a status quo, with gross written premiums at EUR 2,304 million (EUR 1,773 million for life insurance and EUR 531 million for non-life insurance), against EUR 2,307 million in 2011.

In the first half of 2013, total written premiums amounted to EUR 1,004 million. Life insurance written premiums, at EUR 707 million, were under pressure in line with general market trend due to low interest rate environment and tax increase on new premiums since 1 January 2013. Non-life written premiums amounted to EUR 297 million at the end of June 2013, up 2 per cent. compared to the first half of 2012.

Life insurance reserves remained stable, at EUR 19.8 billion as at 30 June 2013.

9.4. 1H 2013 Results

1H 2013 income amounted to EUR 1,050 million, as a result of contrasting elements:

- net interest income was under pressure and came out to EUR 953 million in 1H 2013 due to the balance sheet decrease under the tactical de-risking, the improved liquidity profile and the low interest rate environment;
- net fee income increased by 14.1%, at EUR 186 million as a result of higher off-balance-sheet investments by clients; and
- net income on investments was positive at EUR 102 million due to the repurchase of profit-sharing certificates (capital gain of EUR 61 million). It was however down EUR 275 million on 1H 2012, which was notably boosted by capital gains on the buyback of hybrid debt.

1H 2013 expenses remained well under control and continued to decrease, to reach EUR 751 million.

Cost of risk was positive at EUR 30 million in 1H 2013, due to low impairment charges in the business lines and reversals of historical provisions.

As a result, 1H 2013 consolidated net income group share amounted to EUR 255 million.

9.5. Ratings

9.6. Other information

* The unaudited figures of 2012 were restated for IAS19 Revised, applicable as of 1 January 2013.

** Until 2011, the interest results of all derivatives – both trading and hedging – were presented using the following method: the interest received was mentioned under “interest income” while interest paid was mentioned under “interest expense”. However, a large proportion of ALM derivatives are considered as trading derivatives under IFRS, even though they hedge, from an economic point of view, an underlying asset. Given the restrictive nature of hedge accounting under IFRS, these transactions cannot be considered as hedging derivatives even though, economically speaking, they hedge a position. In 2012, it was decided to recognise all interest results from derivative for which there is no link from an economic point of view with a related balance-sheet item in “net income from financial instruments at fair value through profit or loss”. The interest results of derivatives for which there is a link with a related balance-sheet item are recognised in “interest result” as before. Following this new presentation, a coherent reporting of the interest results of both economic hedges and the related balance-sheet items is achieved. This new presentation has no impact on the net result. A pro forma has been made 2011 with the impact of the new presentation.

10. MERGER OF BELFIUS FUNDING N.V. AND BELFIUS FINANCING COMPANY SA

BELFIUS FUNDING is contemplating a cross border legal merger based on the Tenth EG-Directive, with BELFIUS FINANCING COMPANY (Merger). In this merger, BELFIUS FUNDING shall act as the company ceasing to exist and the Luxembourg company shall be the acquiring company (by way of absorption of BELFIUS FUNDING by BELFIUS FINANCING COMPANY). The shares in the capital of both BELFIUS FUNDING and BELFIUS FINANCING COMPANY are held by the same (sole) shareholder, BELFIUS BANK.

The economic rationale of this merger is to combine the activities of these entities in one company on one location. Before the merger, BELFIUS FINANCING COMPANY was a long term issuing vehicle in run-off in which a new activity of short term issuance was developed in January 2013 (Euro Commercial Paper Programme). The goal of the merger is to keep only one vehicle for both the long term and short term activities, and Belfius decided to concentrate these activities at BELFIUS FINANCING COMPANY.

The timing of the merger takes into account the necessary continuity of the monthly issue of obligations sold in the retail network of BELFIUS BANK under this Notes Issuance Program.

The following main steps of the merger hereafter mentioned are only for information :

4 th quarter 2013	Decision by both the Boards of Managing Directors of BELFIUS FUNDING and Board of Directors of BELFIUS FINANCING COMPANY about the principle of the merger
1 st quarter 2014	Draw up, by the management board of both companies, of the draft terms of the merger (including the determination of the exchange rate of shares)
1 st quarter 2014	Statement of the auditor (amongst other about the determination of the exchange rate of shares)
1 st quarter 2014	Board of Directors of BELFIUS FINANCING COMPANY and Board of Managing Directors of BELFIUS FUNDING to approve the draft terms of the merger
1 st quarter 2014	Filing of the draft terms of the merger with the Trade Register Publication of the draft terms of the merger in official Government Gazette in the Netherland and in Luxembourg Publication of the draft terms of the merger in national newspaper in the Netherlands and in Luxembourg
2 nd quarter 2014	Legally required information at disposal of any interested party at the offices of both merging companies (draft terms of the merger, 3 most recently adopted annual accounts, annual reports over the 3 most recently ended financial years, auditor statement, ...)
2 nd quarter 2014	Legal date of the merger (with accounting retroactivity on 1 may 2014)
2 nd quarter 2014	Unformal communication to the investors (via notification in clearingsystems and publication on the website) Deregistering of BELFIUS FUNDING with the Trade Register

After the merger, BELFIUS FINANCING COMPANY (as this was the case for BELFIUS FUNDING before) shall and will respect all the Luxembourg rules and regulations applicable to companies issuing non convertible debt securities having no voting rights on the regulated market of the Luxembourg Stock Exchange. This means that BELFIUS FINANCING COMPANY (as this was the case for BELFIUS FUNDING before) shall and will respect, amongst others, the obligations of the Transparency Act (periodic disclosure of annual and half-yearly financial reports within a specific period of time). As the case may be, the Articles of Associations of BELFIUS FINANCING COMPANY will be adapted accordingly to these requirements.

11. TERMS AND CONDITIONS OF THE NOTES

(Annex V.4 of Regulation (EC) 809/2004)

The following is the text of the terms and conditions (the “Terms and Conditions”, each chapter or subchapter individually referred to as “Condition”) of the Notes, subject to completion and amendment and as supplemented or varied in accordance with the relevant provisions of the Final Terms. In the event of any inconsistency between the provisions of the Final Terms and the other provisions of this Programme, the Final Terms will prevail. All capitalised terms that are not defined in these Terms and Conditions will have the meanings given to them in the relevant Final Terms.

References in the Terms and Conditions to the Notes are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

The Notes are issued under an agency agreement dated 18 December 2013 (as amended or supplemented as at the date of issue of the Notes (the “Issue Date”), referred to as the “Agency Agreement”), between as the relevant Issuer, BELFIUS BANK and Banque Internationale à Luxembourg.

The Notes will be issued in series (each a “Series”) having one or more issue dates and on terms otherwise identical (or identical other than in respect of the first payment of interest), the Notes of each Series being intended to be interchangeable with all other Notes of that Series. Each Series may be issued in tranches (each a “Tranche”) on the same or different issue dates. The specific terms of each Tranche (which will be supplemented, where necessary, with supplemental terms and conditions and, save in respect of the issue date, issue price, first payment of interest and principal amount of the Tranche will be identical to the terms of other Tranche of the same Series) will be set out in the Final Terms.

11.1. Form, Denomination and Title

The Denomination of the Notes will be at least EUR 1,000. The BELFIUS FUNDING Notes and certain BELFIUS FINANCING COMPANY Notes are issued in bearer form (“Bearer Notes”)² in the Denominations specified in the relevant Final Terms. The BELFIUS FUNDING Notes and certain BELFIUS FINANCING COMPANY Notes will be represented by a permanent global note, deposited with BIL as common depositary for Euroclear and Clearstream Luxembourg and will not be exchangeable for definitive notes, unless specified otherwise in the relevant Final Terms.

The BELFIUS BANK Notes and certain BELFIUS FINANCING COMPANY Notes are issued in dematerialised form (“Dematerialised Notes”) in the Denomination(s) specified in the relevant Final Terms.

Dematerialised Notes are issued in dematerialised form via a book-entry system maintained in the records of the National Bank of Belgium (“BNB”) as operator of the BNB System in accordance with Article 468 and following of the Belgian Code of Companies and will be credited to the accounts held with the BNB System by BELFIUS BANK, Euroclear Bank SA/NV (“Euroclear”), Clearstream Banking SA (“Clearstream, Luxembourg”) or other BNB System participants for credit by BELFIUS BANK, Euroclear, Clearstream, Luxembourg or other BNB System participants to the securities accounts of their subscribers.

Transfer of Dematerialised Notes will be effected only through records maintained by the BNB System, BELFIUS BANK, Euroclear and Clearstream, Luxembourg or other BNB System participants and in accordance with the applicable procedures of the BNB System, Euroclear and Clearstream, Luxembourg or other BNB System participants.

The Notes will not be physically delivered. They will be held in a securities account.

Title to the BELFIUS FUNDING Notes and to BELFIUS FINANCING COMPANY Notes that are not issued in dematerialised form shall pass by transfer to or from the securities account. In these Terms and Conditions, the “Noteholder” means the person who has the Notes on his or her securities account.

² BELFIUS FINANCING COMPANY Notes may be issued in Bearer form or in Dematerialized form

11.2. Pay Offs

Introduction

The pay-offs allowed in the Note Issuance Program can be divided into 5 main categories in function of the calculation and payment of Interest (periodic or not), the calculation methodology of the amount paid at redemption of the Notes (the “Redemption Amount”) (one calculation and payment at maturity, or a sum of periodic calculation paid at maturity) and the settlement of the Redemption Amount (cash or physical). These categories are:

- A. Structures with a periodic payment;
- B. Structures with one payment at maturity with cap;
- C. Structures with one payment at maturity without cap;
- D. Structures with a sum of periodic calculations and payment at maturity;
- E. Structures with a periodic payment and physical settlement.

The formulas proposed below try to be general formulas meant to be used for a lot of different types of products. In accordance with the Prospectus Regulation, the Issuer can decide not to use some components of the formula by setting these components on 0 or 1. The Final Terms will specify which formula(s) will be used for a specific product issued and which specific parameters go into the formula. If a component of the formula is 0 or 1, and the respective component is not used for a specific issue of Notes, it is possible to render the formula in the Final Terms without the unapplied component(s).

A. Structures with a periodic payment

The first category includes the products generating a periodic payment of Interest (fixed or variable) (the “Periodic Payment”) and a Redemption Amount which can be equal or not to 100% of the capital invested less fees.

Definition

The Periodic Payments can be calculated applying the next formula(s) [for n periods]:

$$\text{Formula } i = (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)$$

The Redemption Amount at Maturity (period n) can be calculated applying the next formula:

$$\text{Formula } i = \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)]$$

The Final Terms will specify the parameters (Participation Rate, X%, Y%) of the specific issue (see introduction). The Final Terms will also specify if a combination of more than one of these formulas is used. The Final Terms will furthermore specify:

- 1) How many periods (n) will be used and what formula relates to what period.
- 2) Which underlying (the “Underlying”) will be used to calculate the Performance (Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds) (as defined in the Final Terms).
- 3) Which sub formula will apply to calculate the Performance. This Performance can be:
 - a) a single fixing
 - b) a difference between 2 Underlyings : $\text{Underlying}_1 - \text{Underlying}_2$
 - c) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - d) $\frac{\text{Initial Price}}{\text{Final Price} - \text{Initial Price}}$, with or without reset of the Initial Price
 - e) $\frac{\text{Initial Price}}{\text{Final Price} - \text{Initial Price}}$, with or without reset of Initial Price
 - f) $\frac{\text{Final Price}}{\text{Initial Price} - \text{Final Price}}$, with or without reset of Initial Price
 - g) $\frac{\text{Final Price}}{\text{Initial Price}}$
 - h) $\sum_{j=1}^y w_{i,j} \times \max\left(U\%, \min\left(\left(\frac{\text{Final Price}_j - \text{Initial Price}_j}{\text{Initial Price}_j}\right), Z\%\right)\right)$, with or without reset of the Initial Price.

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be 1 observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 4) If the structure can be called either by the Issuer at certain dates, or when the Underlying reaches a certain level at a certain date or during a certain period.
- 5) If the value of some parameters depends on the level of the Underlying at a certain date or during a certain period (=condition).
- 6) How the Bonus_i is defined. The Bonus_i can be
 - a. a fixed rate
 - b. a fixed rate subject to a condition on the Underlying
 - c. a rate which is the result of a formula such as the formulas above.
 - d. A rate which is the result of a sum of formulas such as the formulas above.
- 7) What the Participation Rate will be.
- 8) What the floor X% will be.
- 9) What the cap Y% will be.
- 10) What daycount convention has to be applied.

Examples

1. Collared Floater (5 years, payment every 3 months)

Definition:

In a Collared Floater, the Noteholder receives periodically a variable interest rate (linked to an Underlying). This rate is capped at a certain percentage (Y%) and floored at another level (X%). The Noteholder receives 100% of his invested capital at Maturity.

Product:

Periodic payments :

1. Periods: 20
2. Underlying: Euribor3months
3. Performance will be a single fixing (subformula 3.a) is applicable). Fixing in advance (2 Business Days before start of the Interest Period)
4. Not applicable
5. Not applicable
6. Bonus = 0%
7. Participation Rate = 100%
8. X% = 2.20% (annualized)
9. Y% = 5.00% (annualized)
10. Daycount: act/360, mod fol, adjusted

The formula for the Periodic Payments will be

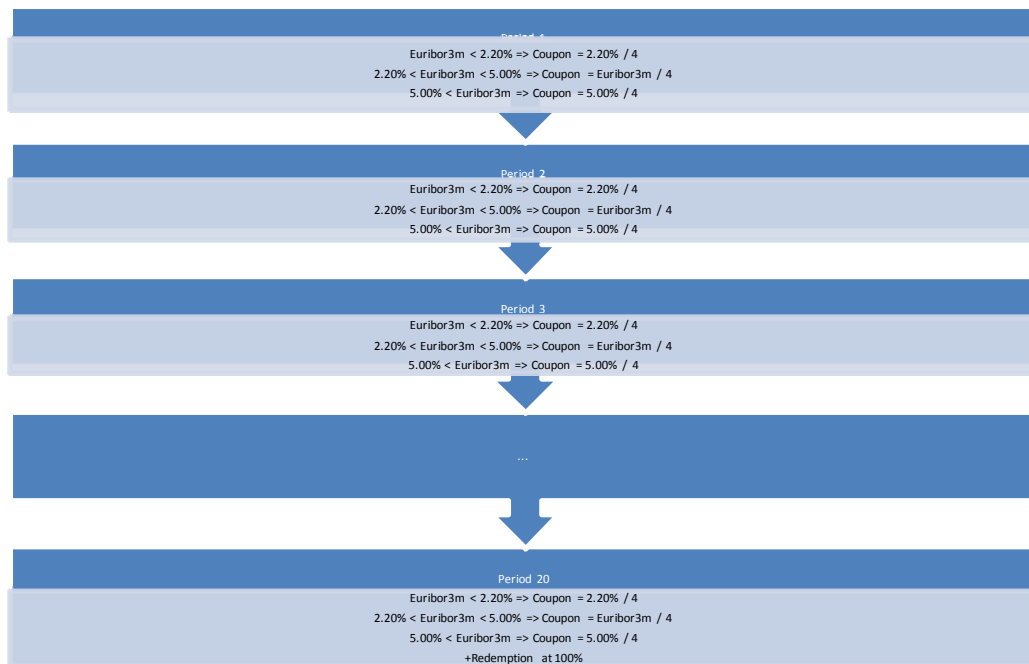

$$\begin{aligned} & (Participation Rate_i \times \max(X\%_i, \min(Performance_i, Y\%_i)) + Bonus_i) \\ & = (100\% \times \max(2.20\%, \min(Performance, 5.00\%)) + 0\%) \end{aligned}$$

Redemption Amount :

1. Not Applicable
2. Underlying: Euribor3months
3. Single fixing 2 Business Days before start of the Interest Period (subformula 3.a) is applicable).
4. Not applicable
5. Not applicable
6. Bonus = 0%
7. Participation Rate = 0%
8. X% = 0%
9. Y% = 0%
10. No Daycount

The formula for the Redemption Amount will be

$$\begin{aligned} & Denomination + [Denomination \times (Participation Rate_i \times \max(X\%_i, \min(Performance_i, Y\%_i)) + Bonus_i)] \\ & = Denomination + [Denomination \times (0\% \times \max(0\%, \min(Performance_i, 0\%)) + 0\%)] \\ & = Denomination \end{aligned}$$

2. Target Memory Autocall

Definition:

In a Target Memory Autocall, there is no right to receive 100% of the invested capital less fees at Maturity.

-> If, on an Interest Payment Date, the Underlying (typically an index) has lost more than a certain percentage of its initial value (for example -30%), no Interests are paid and the Interests (for example, 7.50%) are recorded in the Memory which starts at zero.

-> If the Underlying has not lost more than a certain percentage of its initial value (for example, -30%), the Interests and the memory are paid.

-> If the Underlying is above a predefined level (typically its initial value), the Interests and the memory are paid and the Note is redeemed at par (autocallable).

At Maturity, if the Underlying is below a third predefined level (for example, -50%), the Redemption Amount is linked to the evolution of the Underlying, which means that investors will receive less than the invested capital, less fees. Otherwise, the Note is redeemed at par

Product:

Periodic payments (i = 1 to 4) :

1. Periods: 5
2. Underlying: SX5E
3. Performance will be _____ (Subdivision 3.c) is applicable), no reset for the Initial Price
4. Callable is applicable (Subdivision 4) is applicable) if Performance: $\geq 0\%$
5. Condition is applicable (Subdivision 5))
6. Bonus: = _____ if Performance: $\geq -30\%$
= 0% if Performance: $< -30\%$
7. Participation Rate = period i (i = 1 to 4) if Performance: ≥ -30
= 0% if Performance: $< -30\%$

8. $X\% = 7.50\%$ if $\text{Performance}_i \geq -30\%$
 $= 0\%$ if $\text{Performance}_i < -30\%$
9. $Y\% = 7.50\%$ if $\text{Performance}_i \geq -30\%$
 $= 0\%$ if $\text{Performance}_i < -30\%$
10. Daycount: 30/360, following, unadjusted

→ If $\text{Performance}_i \geq -30\%$ and $< 0\%$

The formula for the Periodic Payments will be

$$\begin{aligned} & (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i) \\ & = (i \times \max(7.50\%, \min(\text{Performance}_i, 7.50\%))) - \sum_{w=1}^{i-1} \text{Formula}_w \end{aligned}$$

→ $= (i \times (7.50\%)) - \sum_{w=1}^{i-1} \text{Formula}_w$ If $\text{Performance}_i < -30\%$,

Formula for the Periodic Payments will be

$$\begin{aligned} & (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i) \\ & = (0\% \times \max(0\%, \min(\text{Performance}_i, 0\%))) + 0\% = 0 \end{aligned}$$

→ If $\text{Performance}_i \geq 0\%$, then the transaction terminates automatically (autocallable).

Formula for Redemption Amount will be:

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & = \text{Denomination} + \left[\text{Denomination} \times \left(i \times \max(7.50\%_i, \min(\text{Performance}_i, 7.50\%_i)) - \sum_{w=1}^{i-1} \text{Formula}_w \right) \right] \\ & = \text{Denomination} + \left[\text{Denomination} \times \left(i \times 7.50\% - \sum_{w=1}^{i-1} \text{Formula}_w \right) \right] \end{aligned}$$

Redemption Amount:

1. Periods: 5
2. Underlying: SX5E
3. Performance will be $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$ (Subdivision 3.c) is applicable, no reset for the Initial Price
4. Call is activated if $\text{Performance}_i \geq 0\%$
5. Conditions are activated
6. $\text{Bonus}_i = - \sum_{w=1}^{i-1} \text{Formula}_w$ if $\text{Performance}_i \geq -30\%$; $= 0\%$ if $\text{Performance}_i < -30\%$

3. Light Reverse

Definition:

In a Light Reverse, one single barrier needs to be observed at Maturity. There is no right to receive 100% of the invested capital less fees at maturity

The Noteholder receives periodically (typically every year) a fixed Interest rate (for example 5.50%).

At Maturity, the Noteholder receives 100% of its investment if the Underlying (typically an Index) has not lost more than a pre-defined percentage (for example -40%) of its initial value. Otherwise the index performance is paid and there is a loss of capital.

B. Structures with one payment at maturity with cap

The second category includes the products which do not generate any Periodic Payments but one global payment at Maturity. This last payment can be fixed (in a so-called “zero coupon product”) or variable. The formulas as stipulated below will specify if the Note have a Redemption Amount at 100% of the capital invested less fees or not.

Definition

The Variable Linked Redemption Amount can be constituted out of the next formula(s):

$$\text{Formula } i = \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)]$$

The Final Terms will specify the parameters (Participation Rate, X%, Y%) of the specific issue (see introduction). The Final Terms will also specify if a combination of more than one of these formulas is used. The Final Terms will furthermore specify:

- 1) Which Underlying will be used to calculate the Performance (Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds).
- 2) Which sub formula will apply to calculate the Performance. This Performance can be:
 - a) a single fixing
 - b) a difference between 2 Underlyings : $\text{Underlying}_1 - \text{Underlying}_2$
 - c) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - d) $\frac{\text{Initial Price}}{\text{Initial Price} - \text{Final Price}}$, with or without reset of the Initial Price
 - e) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price} - \text{Final Price}}$, with or without reset of Initial Price
 - f) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Final Price}}$, with or without reset of Initial Price
 - g) $\frac{\text{Final Price}}{\text{Initial Price}}$
 - h) $\sum_{j=1}^y w_{i,j} \times \max\left(U\%, \min\left(\left(\frac{\text{Final Price}_j - \text{Initial Price}_j}{\text{Initial Price}_j}\right), Z\%\right)\right)$, with or without reset of the Initial Price

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be 1 observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 3) If the structure can be called either by the Issuer at certain dates, or when the Underlying reaches a certain level at a certain date or during a certain period.
- 4) If the value of some parameters depends on the level of the underlying at a certain date or during a certain period (=condition).
- 5) How the Bonus_i is defined. The Bonus_i can be:
 - a. a fixed rate
 - b. a fixed rate subject to a condition on the Underlying
 - c. a rate which is the result of a formula such as the formulas above.
 - d. a rate which is the result of a sum of Formulas such as the Formulas above..
- 6) What the Participation Rate will be.
- 7) What the floor X% will be.
- 8) What the cap Y% will be.
- 9) What daycount convention has to be applied.

Examples

1. Call spread

Definition:

In a Call spread, there is no Periodic Payment. At Maturity, the Redemption Amount will be equal to 100% of the capital invested less fees plus any positive evolution of the Underlying capped at a defined level.

Product:

Redemption Amount :

1. Underlying : Eurostoxx 50 (SX5E)
2. Performance is $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$ (Subdivision 2.c) is applicable) where Initial Price is closing level of Index observed at 24/09/2012 and Final Price is arithmetic average of the closing levels observed at 10/09/2017, 11/09/2017 and 12/09/2017.
3. Not applicable
4. Not applicable
5. Bonus = 0%
6. Participation Rate = 100%
7. X% = 0%
8. Y% = 45%
9. No daycount

The formula for the Redemption Amount will be

$$\text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)]$$

$$\text{Denomination} + [\text{Denomination} \times (100\% \times \max(0\%, \min(\text{Performance}, 45\%)) + 0\%)] =$$

Optimistic Scenario

$$\text{Performance} = 30\% \Rightarrow \text{Denomination} + [\text{Denomination} \times (100\% \times \max(0\%, \min(30\%, 45\%)) + 0\%)] = 130\%$$

Pessimistic Scenario

$$\text{Performance} = -30\% \Rightarrow \text{Denomination} + [\text{Denomination} \times (100\% \times \max(0\%, \min(-30\%, 45\%)) + 0\%)] = 100\%$$

2. Digital on CMS

Definition:

The Digital on CMS product is the combination of a typical Zero Coupon bond (with a predefined interest payment at maturity) and a potential additional payment (the digital feature) if the Underlying (in this case the CMS rate) is above a certain level at maturity.

Product:

Redemption Amount:

1. Underlying : CMS10y
2. Performance is a single fixing ((Subdivision 2.a) is applicable)
3. Not applicable
4. Condition is applicable ((Subdivision 4) is applicable) -> at observation date, if CMS10y is at or above 2.10%
5. Bonus = 25.20 %
6. Participation Rate = $\begin{matrix} 0\% & \text{if CMS10y} < 2.10\% \\ 100\% & \text{if CMS10y} \geq 2.10\% \end{matrix}$
7. X% = $\begin{matrix} 0\% & \text{if CMS10y} < 2.10\% \\ 10.40\% & \text{if CMS10y} \geq 2.10\% \end{matrix}$
8. Y% = $\begin{matrix} 0\% & \text{if CMS10y} < 2.10\% \\ 10.40\% & \text{if CMS10y} \geq 2.10\% \end{matrix}$
9. No daycount

→ If CMS10y < 2.10%, then

Formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & \text{Denomination} + [\text{Denomination} \times (0\% \times \max(0\%, \min(\text{Performance}_i, 0\%)) + 25.20\%)] \\ & = \text{Denomination} + [\text{Denomination} \times (25.20\%)] \end{aligned}$$

→ If CMS10y ≥ 2.10%, then

Formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & \text{Denomination} + [\text{Denomination} \times (100\% \times \max(10.40\%, \min(10.40\%)) + 25.20\%)] \\ & = \text{Denomination} + [\text{Denomination} \times (10.40\% + 25.20\%)] \end{aligned}$$

Period 1

- CMS10y < 2.10% => Redemption Price = 100% + 25.20% + 0%
- CMS10y > 2.10% => 100% + 25.20% + 10.40%

C. Structures with one payment at maturity without cap

The third category includes the Notes which do not generate any Periodic Payments but one global payment at Maturity. This last payment can be fixed (in a so-called “zero coupon product”) or variable. The formulas as stipulated below will specify if the product is with redemption at 100% of the capital invested less fees or not.

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be 1 observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 3) If the structure can be called either by the Issuer at certain dates, or when the Underlying reaches a certain level at a certain date or during a certain period.

Examples

1. Optimal Performance

Definition:

In an Optimal Performance, there is no right to receive 100% of the invested capital less fees at Maturity. At Maturity, if the underlying (typically an equity index or equity share) is at or above its initial level, but below a defined treshold (for example 150%) investors receive 100 % of the invested capital plus a fixed amount (50% in this example).

If the Underlying is above this defined treshold of 150%, Noteholders will receive the performance of the Underlying.

If the Underlying is strictly below its initial level, Noteholders will receive 150 % of the performance. Below a certain level of the underlying, Noteholders will suffer a capital loss.

Product:

Redemption Amount :

1. Underlying: Eurostoxx 50 (SX5E)
2. Performance = $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$ if Final Price is \geq Initial Price (Subdivision 2.c) is applicable), no Reset for the Initial Price
 = $\frac{\text{Final Price}}{\text{Initial Price}}$ if Final Price is $<$ Initial Price (Subdivision 2.e) is applicable), no Reset for the Initial Price
3. Not applicable
4. Digitals are activated (Subdivision 4) is applicable)
5. Bonus = 0% if Final Price is \geq Initial Price
 - 100% if Final Price is $<$ Initial Price
6. Participation Rate = 100% if Final Price is \geq Initial Price
 150% if Final Price is $<$ Initial Price
7. X% = 50% if Final Price is \geq Initial Price
 Not applicable if Final Price is $<$ Initial Price
8. Y% = not applicable
9. No daycount

➡ If Final Price is \geq Initial Price

Formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & = \text{Denomination} + [\text{Denomination} \times (100\% \times \max(50\%, \min(\text{Performance})) + 0\%)] \end{aligned}$$

➡ If Final Price is $<$ Initial Price then

Formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & = \text{Denomination} + [\text{Denomination} \times (150\% \times \max(\min(\text{Performance})) - 100\%)] \end{aligned}$$

Optimistic Scenario

Final Price = 135% x Initial Price =>

$$\text{Denomination} + [\text{Denomination} \times (100\% \times \max(50\%, \min(35\%)))] + 0\% = 150\%$$

Pessimistic Scenario

Final Price = 40% x Initial Price =>

$$\text{Denomination} + [\text{Denomination} \times (150\% \times \max(\min(80\%)) - 100\%)] = 90\%$$

2. Digital on CMS

Definition:

The Digital on CMS product is the combination of a classical zero coupon bond (with a predefined interest payment at Maturity) and a potential additional payment (the digital feature) if the underlying (in this case the CMS rate) is above a certain level at Maturity.

Product:

Redemption Amount :

1. Underlying: CMS10y
2. Performance is a single fixing ((Subdivision 2.a) is applicable)
3. Not applicable
4. Condition is applicable ((Subdivision 4) is applicable) -> at observation date, if CMS10y is at or above 2.10%
5. Bonus = 25.20 %
6. Participation Rate = 0% if CMS10y < 2.10%
100% if CMS10y ≥ 2.10%
7. X% = 0% if CMS10y < 2.10%
10.40 % if CMS10y ≥ 2.10%
8. Y% = 0% if CMS10y < 2.10%
10.40 % if CMS10y ≥ 2.10%
9. No daycount

→ If CMS10y < 2.10%, then

The formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & \text{Denomination} + [\text{Denomination} \times (0\% \times \max(0\%, \min(\text{Performance}_i, 0\%)) + 25.20\%)] \\ & = \text{Denomination} + [\text{Denomination} \times (25.20\%)] \end{aligned}$$

→ If CMS10y ≥ 2.10%, then

The formula for the Redemption Amount will be

$$\begin{aligned} & \text{Denomination} + [\text{Denomination} \times (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)] \\ & \text{Denomination} + [\text{Denomination} \times (100\% \times \max(10.40\%, \min(10.40\%)) + 25.20\%)] \\ & = \text{Denomination} + [\text{Denomination} \times (10.40\% + 25.20\%)] \end{aligned}$$

Period 1

- CMS10y < 2.10% => Redemption Price = 100% + 25.20% + 0%
- CMS10y > 2.10% => 100% + 25.20% + 10.40%

D. Structures with a sum of periodic calculation and payment at maturity

The fourth category includes the products which does not generate any Periodic Payments but one global payment at Maturity. This last payment can be seen as the sum of different periodical components.

The formulas as stipulated below will specify if the Note will have a Redemption Amount of 100% of the capital invested less fees or not.

Definition

The Variable Linked Redemption Amount can be constituted out of the next formula(s):

$$\text{Formula } i = \text{Denomination} + \left[\text{Denomination} \times \max \left(V\%, \sum_{i=1}^n (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i))) + \text{Bonus}_i \right) \right]$$

The Final Terms will specify the parameters (Participation Rate, X%, Y%) of the specific issue (see introduction). The Final Terms will also specify if a combination of more than one of these formulas is used. The Final Terms will furthermore specify:

- 1) How many periods (n) will be used and what formula relates to what period
- 2) Which Underlying will be used to calculate the Performance (Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds).
- 3) Which sub formula will apply to calculate the Performance. This Performance can be:
 - a) a single fixing
 - b) a difference between 2 Underlyings: $\text{Underlying}_1 - \text{Underlying}_2$
 - c) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - d) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - e) $\frac{\text{Final Price}}{\text{Initial Price}}$, with or without reset of Initial Price
 - f) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Final Price}}$, with or without reset of Initial Price
 - g) $\frac{\text{Final Price}}{\text{Initial Price}}$
 - h) $\sum_{j=1}^y w_{i,j} \times \max \left(U\%, \min \left(\left(\frac{\text{Final Price}_j - \text{Initial Price}_j}{\text{Initial Price}_j} \right), Z\% \right) \right)$, with or without reset of the Initial Price

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be 1 observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 4) If the Note can be called either by the Issuer at certain dates, or when the Underlying reaches a certain level at a certain date or during a certain period.
- 5) If the value of some parameters depends on the level of the underlying at a certain date or during a certain period (=condition).
- 6) How the Bonus_i is defined. The Bonus_i can be:
 - a. a fixed rate
 - b. a fixed rate subject to a condition on the Underlying
 - c. a rate which is the result of a Formula such as the Formulas above.
 - d. A rate which is the result of a sum of Formulas such as the Formulas above.
- 7) What the Participation Rate will be.
- 8) What the floor X% will be.
- 9) What the cap Y% will be.
- 10) What the global floor of V% will be.
- 11) What daycount convention has to be applied.

Examples

1. Cliquet

Definition:

The Cliquet will pay at maturity the sum of the yearly performances of the Underlying, where yearly performances are floored at $X\%$ (for example, -3%) and capped at $Y\%$ (for example, 7%).

Global payout is floored at $V\%$ (for example, 0%) to have a right to receive 100% of the invested capital less fees at Maturity.

Product:

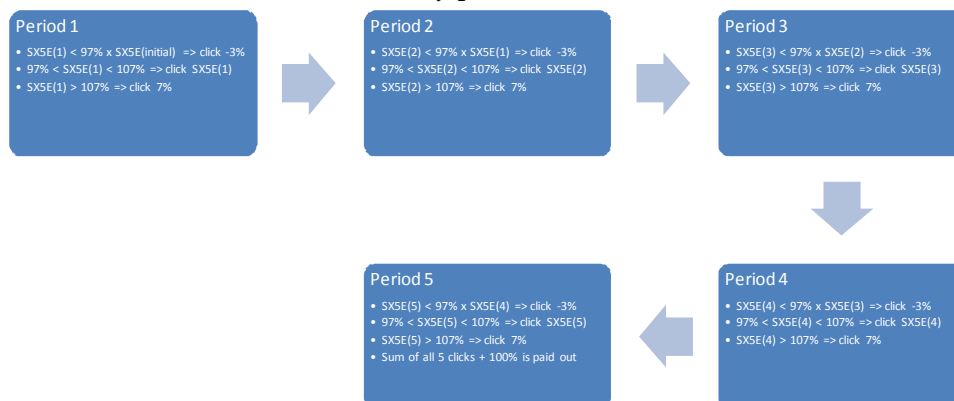

Redemption Amount :

1. Periods (n) : 5
2. Underlying : SX5E
3. Performance is $\frac{Final\ Price - Initial\ Price}{Initial\ Price}$ (subformula 3.c) with annual reset.
4. Not applicable
5. Not applicable
6. Bonus = 0 %
7. Participation Rate = 100%
8. $X\% = -3\%$
9. $Y\% = 7\%$
10. $V\% = 0\%$
11. No daycount

The Variable Linked Redemption Amount is equal to :

$$Denomination + \left[Denomination \times \max \left(V\%, \sum_{i=1}^n (Participation\ Rate_i \times \max(X\%_i, \min(Performance_i, Y\%_i))) + Bonus_i \right) \right]$$

$$= Denomination + \left[Denomination \times \max \left(0\%, \sum_{i=1}^5 (100\% \times \max(-3\%, \min(Performance_i, 7\%))) + 0\% \right) \right]$$

E. Structures with periodic payments and physical settlement

Typically, this category refers to Notes called reverse convertible for which the Redemption Amount is not equal to 100% of the capital invested less fees and can be done in physical instruments (shares for instance) depending on the final value of these shares instead of cash.

Definition

The Periodic Payments can be constituted out of the next formula(s) (for n periods):

$$\text{Formula } i = (\text{Participation Rate}_i \times \max(X\%_i, \min(\text{Performance}_i, Y\%_i)) + \text{Bonus}_i)$$

The Redemption Amount at the end of period n can be constituted out of the next formula's.

If the Performance is at or above a certain Barrier, the Redemption Amount is in cash at par.

If the Performance is below a certain Barrier, then physical settlement will apply.

Number of shares to be delivered

$$\frac{\text{Denomination}}{\text{Specified Denomination}} \times \left[\frac{\text{Specified Denomination}}{\text{Initial Price}} - \left(\text{Non - integer amount of } \frac{\text{Specified Denomination}}{\text{Initial Price}} \right) \right]$$

Fractional Share Amount

$$\frac{\text{Denomination}}{\text{Specified Denomination}} \times \text{Final Price} \times \left(\text{non - integer amount of } \frac{\text{Specified Denomination}}{\text{Initial Price}} \right)$$

These formulas stipulate how many shares will be delivered per Specified Denomination of the Notes. The number of shares has to be an integer amount. The non-integer amount will then be paid in cash (= Fractional Share Amount).

The Final Terms will specify the parameters (Participation Rate, X%, Y%) of the specific issue (see introduction). The Final Terms will also specify if a combination of more than one of these formulas is used. The Final Terms will furthermore specify:

- 1) How many periods (n) will be used and what formula relates to what period.
- 2) Which underlying will be used to calculate the Performance (Rate, Share or Basket of Shares, Share Index or Basket of Share Indexes, Commodity Index or Basket of Commodity Indexes, Inflation Index, Fund or Basket of Funds).
- 3) Which sub formula will apply to calculate the Performance. This Performance can be:
 - a) a single fixing
 - b) a difference between 2 Underlyings : $\text{Underlying}_1 - \text{Underlying}_2$
 - c) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - d) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Initial Price}}$, with or without reset of the Initial Price
 - e) $\frac{\text{Final Price} - \text{Initial Price}}{\text{Final Price}}$, with or without reset of Initial Price
 - f) $\frac{\text{Initial Price} - \text{Final Price}}{\text{Final Price}}$, with or without reset of Initial Price
 - g) $\frac{\text{Final Price}}{\text{Initial Price}}$
 - h) $\sum_{j=1}^y w_{i,j} \times \max \left(U\%, \min \left(\left(\frac{\text{Final Price}_j - \text{Initial Price}_j}{\text{Initial Price}_j} \right), Z\% \right) \right)$, with or without reset of the Initial Price

The Final Terms will also determine how the Final Price and Initial Price are defined. These can be 1 observation, an average of X observations, with a look-back feature (lowest/highest during a certain period).

- 4) If the structure can be called either by the Issuer at certain dates, or when the Underlying reaches a certain level at a certain date or during a certain period.
- 5) If the value of some parameters depends on the level of the underlying at a certain date or during a certain period (=condition).
- 6) How the Bonus_i is defined. The Bonus_i can be
 - a. a fixed rate
 - b. a fixed rate subject to a condition on the Underlying
 - c. a rate which is the result of a Formula such as the Formulas above.
 - d. a rate which is the result of a sum of Formulas such as the Formulas above.
- 7) What the Participation Rate will be.

- 8) What the floor X% will be.
- 9) What the cap Y% will be.
- 10) What daycount convention has to be applied.

Example

1. Reverse Convertible on Total shares

Definition:

The Reverse Convertible will pay a high fixed Interest Rate during the lifetime of the Note. The Redemption Amount will depend on the evolution of the Underlying. Is the Underlying at or above a certain barrier, the Redemption Amount will be at 100%. Is the Underlying below the barrier, the Redemption will be in a number of shares of the Underlying

11.3. Interest on the Notes

The interest to be paid on the Notes (the “Interest”) can be based on a fixed rate (“Fixed Rate”, such Notes to be referred to as “Fixed Rate Notes”), a floating rate (“Floating Rate”, such Notes referred to as “Floating Rate Notes”) or linked to any other variable, formula and/or underlying (“Variable Linked Rate”, such Notes to be referred to as “Variable Linked Rate Notes”) (Fixed Rate, Floating Rate and Variable Linked Rate are together referred to as “Interest Rate”). The Interest Rate is expressed as a percentage per annum.

The Notes can also be Zero Coupon Notes, in which case no Interest is paid periodically.

The Interest is calculated per Note for each Interest Period as the product of the Calculation Amount, the Interest Rate and the Day Count Fraction, unless an Interest Amount is specified in the relevant Final Terms, in which case the Interest payable in respect of such Note for such Interest Period shall equal such Interest Amount.

Interest shall cease to accrue on each Note from the due date for redemption thereof unless payment of the principal thereof or delivery of the Redemption Amount (as defined below) to be delivered in respect thereof is improperly withheld or refused or unless default is otherwise made in respect of such payment. In such event, interest shall only cease to accrue from the date on which payment of such Redemption Amount in respect thereof is made or, if earlier and if applicable, from the seventh day after notice is given to the Noteholders in accordance with these Terms and Conditions that payment of the Redemption Amount will be made, provided that, upon such presentation, payment is in fact made.

11.3.1. Fixed Rate Notes

Each Fixed Rate Note bears interest on its outstanding principal amount from and including the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Interest Rate specified in the relevant Final Terms, such interest being payable in arrears on each Interest Payment Date.

11.3.2. Floating Rate Notes

Floating Rate Notes bear Interest at the Floating Rate specified in the relevant Final Terms, as fixed on the Interest Determination Date applicable to the relevant Interest Payment Date and payable in arrears. The Floating Rate will be determined by the Calculation Agent as the sum of the rate published on the Publication Source for the specified Designated Maturity and the Spread, all as specified in the relevant Final Terms.

If however a Maximum Rate is specified in the Final Terms and the Floating Rate (determined as described above) is equal to or higher than the Maximum Rate, the Floating Rate will be such Maximum Rate.

If however a Minimum Rate is specified in the Final Terms and the Floating Rate (determined as described above) is equal to or lower than the Minimum Rate, the Floating Rate will be such Minimum Rate.

11.3.3. Variable Linked Rate Notes

Variable Linked Rate Notes bear Interest at the Variable Linked Rate specified in the relevant Final Terms, as fixed in the way specified in the Final Terms, and payable in arrears. The Variable Linked Provisions below will apply.

11.3.4. Zero Coupon Notes

Zero Coupon Notes may be issued at their principal amount or at a discount to it, applying an Amortisation Yield, and will not bear Interest. Zero Coupon Notes that are also Bearer Notes may be subject to certain formalities on transfer under the laws of the Netherlands.

11.3.5. Payment of the Interest

Interest on the Notes will be payable in arrears on the applicable Interest Payment Date. The first payment of Interest will be on the first Interest Payment Date following the Issue Date. The last payment will be on the Maturity Date.

11.4. Definitions

“Averaging Dates”:

Means the dates specified as such in the relevant Final Terms.

If an Averaging Date in respect of the Underlying is not a Scheduled Trading Day, then, the Averaging Date for such Underlying shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Initial Averaging Date or Disrupted Day, would have been the final Averaging Date in relation to the relevant Scheduled Valuation Date, then (1) that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of such Underlying and, (2) the Calculation Agent shall determine its good faith estimate of the value for the Underlying as of the Valuation Time on that Averaging Date

If an Averaging Date for the Underlying is affected by the occurrence of a Disrupted Day, then, the Averaging Date for such Underlying shall be the first succeeding Valid Date. If the first succeeding Valid Date in respect of such Underlying has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in relation to the relevant Scheduled Valuation Date, then (1) that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of such Underlying and, (2) the Calculation Agent shall determine its good faith estimate of the value for the Underlying as of the Valuation Time on that Averaging Date

“Business Day”:

limitation, errors or omissions due to events which are not under the direct control of the Calculation Agent) and determinations as provided in the Terms and Conditions, except for those resulting from the gross negligence or wilful misconduct of the Calculation Agent.  - (bb) if the Interest Period is longer than one Determination Period, the sum of:

The Notes may not be redeemed prior to that date, without prejudice to the other provisions of these Terms and Conditions.

The Redemption of the Notes can be Variable Linked ("Variable Linked Redemption Amount"), in which case the Variable Linked Provisions below will apply.

11.5.2. Redemption at the Option of the Issuer

If a Call Option is provided to be applicable in the relevant Final Terms, the Issuer may, on giving irrevocable notice to the Noteholders falling within the Issuer's Optional Redemption Period redeem all or, if so provided, some of the Notes in the principal amount or integral multiples thereof and on the date or dates so provided. Any such redemption of Notes shall be at their Redemption Amount together with interest accrued to the date fixed for redemption, unless otherwise specified in the relevant Final Terms. Any such redemption or exercise must relate to the Notes of a nominal amount at least equal to the Minimum Redemption Amount to be redeemed, as specified in the relevant Final Terms, and be no greater than the Maximum Redemption Amount to be redeemed, as specified in the relevant Final Terms.

All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice.

Early Redemption for any Dated Subordinated Notes can only occur at the option of the Issuer. In case of early redemption by the Issuer an approval must be obtained from the National Bank of Belgium.

11.5.3. Mandatory Early Redemption

If Mandatory Early Redemption is provided to be applicable in the relevant Final Terms and one or more Trigger Events (as defined in the Final Terms), the Issuer shall without giving notice to the Noteholders automatically redeem all or, if so provided, some of the Notes in the principal amount or integral multiples thereof on the Mandatory Early Redemption Date(s) so provided in the relevant Final Terms once the Calculation Agent determines that a Trigger Event has occurred. Any such redemption of Notes shall be at the Mandatory Early Redemption Amount specified in the relevant Final Terms.

The Trigger Events mentioned above can relate to the following (without however being exhaustive, these are merely examples):

- in case a Variable Linked Redemption Amount depends on the evolution of one or more Underlyings, a Trigger Event applies, for example, if the level of the relevant Underlying exceeds on a specified date a certain pre-defined value as specified in the relevant Final Terms;
- in case the relevant Notes bear interest, a Trigger Event applies, for example, if the sum of the Interest Amounts paid together with the Interest Amount payable on the next following Interest Payment Date exceeds an amount specified in the relevant Final Terms. As a consequence, the Interest Amount payable in respect of such Note for the relevant Interest Period may be capped in order not to exceed the amount specified in the relevant Final Terms.

11.5.4. Repurchase

The Issuer or, as applicable, the Guarantor and any of their subsidiaries may at any time purchase Notes in the open market or otherwise at any price.

11.5.5. Cancellation

All Notes purchased by or on behalf of the Issuer, as applicable, the Guarantor or any of their subsidiaries may thereafter be cancelled by the Fiscal Agent or by the Domiciliary Agent by a reduction of the principal amount of such notes. If this Condition is specified as being applicable in the relevant Final Terms, then, following the occurrence of a Capital Disqualification Event and, in relation to *Condition 11.9.2. Status of Dated Subordinated Notes*, in the event that the Issuer is not able to substitute such *Condition 11.9.2. Status of Dated Subordinated Notes* in accordance with *Condition 11.9.4. Subordinated Notes: Substitution* such that the Substitute Notes are eligible to be recognised in full (excluding for these purposes any non recognition as a result of the customary regulatory amortisation in the five years immediately preceding maturity or any non recognition due to any applicable limitations on the amount of such capital) as Tier 2 capital by the Lead Regulator applicable to BELFIUS BANK, the Issuer may, subject to the prior consent of the Lead Regulator applicable to BELFIUS BANK, within ninety days of the occurrence of the relevant Capital Disqualification Event and on giving not less than thirty nor more than sixty days' notice (ending, in the case of Floating Rate Notes, on an Interest Payment Date) to the Noteholders in accordance with *Condition 11.17. Notices* (with a copy to the Fiscal Agent or to the Domiciliary Agent, for Notes issued by BELFIUS FUNDING and BELFIUS FINANCING COMPANY), at its option, redeem all, but not some only, of the Dated Subordinated Notes (such option to redeem being referred to herein as a "**Capital Disqualification Event Early Redemption Option**") at the Capital Disqualification Event Early Redemption Price, together with interest accrued and unpaid, if any, to the date fixed for redemption.

The notice given to the Noteholders pursuant to this Condition 11.5.6 shall contain a confirmation by the Issuer stating that a Capital Disqualification Event has occurred and is continuing and, in relation to *Condition 11.9.2 Status of Subordinated Notes*, it is not able to substitute the Dated Subordinated Notes in accordance with *Condition 11.9.4. Subordinated Notes: Substitution* below such that the Substitute Notes are eligible to be recognised in full (excluding for these purposes any non recognition as a result of the customary regulatory amortisation in the five years immediately preceding maturity or any non recognition due to any applicable limitations on the amount of such capital) as Tier 2 capital by the Lead Regulator applicable to BELFIUS BANK, and such confirmation shall be conclusive and binding on the Noteholders.

In these Conditions:

a "**Capital Disqualification Event**" shall be deemed to have occurred if the Issuer determines, in good faith and after consultation with the Lead Regulator applicable to BELFIUS BANK, at any time after the Issue Date, that by reason of the non compliance with the applicable criteria for Tier 2 capital, the Dated Subordinated Notes are or will be fully or partially excluded from Tier 2 capital of BELFIUS BANK (excluding for these purposes any non recognition as a result of any non recognition due to any applicable limitations on the amount of such capital of BELFIUS BANK); and

"**Capital Disqualification Event Early Redemption Price**" means (i) if "**Specified Redemption Amount**" is specified in the relevant Final Terms, an amount per Calculation Amount being the product of the Specified Fixed Percentage Rate and the Calculation Amount **provided that** the Specified Fixed Percentage Rate will not, in any case, be less than 100 per cent. or (ii) if "**Par Redemption**" is specified in the relevant Final Terms, an amount per Calculation Amount equal to 100 per cent. per Calculation Amount.

11.6. Payment

Noteholders shall pay the Denominations on the subscribed Notes in cash at the time of subscription or by debit of the cash account linked to the securities account, in which Notes are to be held, on the Issue Date.

If the Issue Date is a day, which is not a Business Day in the place of payment of the Denominations, payment will be due on that day as adjusted by the Following Business Day Convention, unless otherwise specified in the relevant Final Terms.

Any amounts payable by the Issuer in respect of the Notes, be they Interests, Redemption Amounts or other, shall be made by transfer to the cash account linked to the securities account in which the Notes are held subject to all applicable laws and regulations.

If the date for payment of Interest, Redemption Amount or any other amount due to the Noteholders is a day, which is not a Business Day in the place of payment, the Noteholders shall not be entitled to payment until the day as adjusted by the Following Business Day Convention, unless otherwise specified in the relevant Final Terms.

11.7. Variable Linked Provisions

A Variable Linked Rate or a Variable Linked Redemption Amount can depend on the evolution of one or more Underlyings. If it is specified in the Final Terms that the Underlying is either (i) one or more Market Rates; (ii) a Share or a Basket of Shares, (iii) a Share Index or a Basket of Share Indices, (iv) a Fund or a Basket of Funds, (v) a Commodity or a Basket of Commodities, (vi) a Commodity Index or a Basket of Commodity Indices, or (vii) an Inflation Index, the applicable provisions below in relating to the respective Underlying will apply.

The Underlying can be a Market Rate, such as the EUR CMS Rate, as defined below, or any other Market Rate, as defined in the relevant Final Terms.

EUR CMS Rate: Means that the rate for the relevant Interest Determination Date will be the annual swap rate for euro swap transactions with a maturity of the Designated Maturity, expressed as a percentage, as of 11:00 a.m., Frankfurt time, on the day that is two TARGET Settlement Days preceding that Interest Determination Date, as determined by the Calculation Agent.

Related Exchange: Means, each exchange or quotation system specified as such for the relevant Share in the relevant Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Share has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Share on such temporary substitute exchange or quotation system as on the original Related Exchange), provided, however, that where “All Exchanges” is specified as the Related Exchange in the relevant Final Terms, “Related Exchange” shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Share.

Initial Price: Means the price specified as such or otherwise determined in the relevant Final Terms or, if no means for determining the Initial Price are so provided: in respect of the Initial Valuation Date, the Relevant Price of the relevant Share at the Valuation Time on the Initial Valuation Date, as determined by the Calculation Agent, and in respect of each subsequent Valuation Date, the Final Price for the Valuation Date immediately preceding such Valuation Date, or, if Initial Averaging is specified as applicable under the relevant Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Initial Valuation Date, of the prices of the relevant Share or Share Basket as of the Valuation Time on each Initial Averaging Date.

Final Price: Means the Relevant Price of the relevant Share on the relevant Valuation

Date, as determined by the Calculation Agent, or, if Averaging is specified as applicable under the relevant Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Valuation Date, of the prices of the relevant Share or Share Basket as of the Valuation Time on each Averaging Date.

- Initial Valuation Date:** Means the Issue Date or such other date as specified in the relevant Final Terms, and if such date is not a Scheduled Trading Day in respect of the relevant Share, the Initial Price of such Share shall be determined on the basis of the Relevant Price of such Share as calculated on the immediately following Scheduled Trading Day, subject to Market Disruption, or, if Initial Averaging is specified as applicable, means the final Initial Averaging Date.
- Valuation Date:** Means any date specified as such in the relevant Final Terms, and if such date is not a Scheduled Trading Day in respect of the relevant Share, the Final Price of such Share shall be determined on the basis of the Relevant Price of such Share as calculated on the immediately following Scheduled Trading Day, subject to Market Disruption, or, if Averaging is specified as applicable, means the final Averaging Date
- Relevant Price:** Means the price of the relevant Share determined by the Calculation Agent at the Valuation Time on the Exchange.
- Valuation Time:** Means the time on the relevant Valuation Date, specified as such in the related Final Terms or, if no such time is specified, the Scheduled Closing Time on the relevant Exchange on the relevant Valuation Date, in relation to each Share to be valued. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

In that respect, “**Trading Disruption**” means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (i) relating to the Share on the Exchange, or (ii) in futures or options contracts relating to the Share on any relevant Related Exchange.

In that respect, “**Exchange Disruption**” means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for, (i) the Shares on the Exchange, or (ii) in futures or options contracts relating to the Share on any relevant Related Exchange.

In that respect, “**Early Closure**” means the closure on any Exchange Business Day of the relevant Exchange or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or Related Exchange(s) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or Related Exchange(s) on such Exchange Business Day and (ii)

the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day.

In addition, in that respect “**Disrupted Day**” means any Scheduled Trading Day on which a relevant Exchange or any Related Exchange fails to open for trading during its regular trading session or on which a Market Disruption Event has occurred.

If any Valuation Date is a Disrupted Day, then:

- if the Underlying is a Share, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the scheduled Valuation Date is a Disrupted Day. In that case, (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day and (ii) the Calculation Agent shall determine its good faith estimate of the value of the Share as of the Valuation Time on that eighth Scheduled Trading Day; and
- if the Underlying is a Basket of Shares, the Valuation Date for each Share not affected by the occurrence of a Disrupted Day shall be the scheduled Valuation Date, and the Valuation Date for each Share affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to that Share, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Share. In that case, (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the relevant Share, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall determine its good faith estimate of the value for that Share as of the Valuation Time on that eighth Scheduled Trading Day.

11.7.2.3 Potential Adjustment Events

Upon the occurrence on or after the Issue Date up to and including the last Valuation Date of a Potential Adjustment Event (as defined below), the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares and if so will:

- make the corresponding adjustment(s), if any, to any relevant variable in the Variable Linked formulae of the Notes, which may include the Initial Price or the Final Price, used to calculate any Variable Linked Rate or Variable Linked Redemption Amount as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and
- determine the effective date(s) of the adjustment(s).

The Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Shares traded on such options exchange.

For the purpose hereof, “**Potential Adjustment Event**” shall mean any of the following:

- a subdivision, consolidation or reclassification of relevant Shares (unless resulting in a Merger Event), or, a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- a distribution, issue or dividend to existing holders of the relevant Shares of (a) such Shares, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of such Shares equally or proportionately with such payments to holders of such Shares, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the issuer of the Shares as a result of a spin-off or other similar transaction or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- an extraordinary dividend as determined by the Calculation Agent;
- a call by the issuer of the relevant Shares in respect of such Shares that are not fully paid;
- a repurchase by the issuer of the relevant Shares or any of its subsidiaries of such Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise; or
- in respect of the issuer of the relevant Shares, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the issuer of the relevant Shares pursuant to a shareholder rights plan or arrangement directed against

hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or

- any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares.

If the Calculation Agent determines that no adjustment that it could make would produce a commercially reasonable result, the Calculation Agent may notify the Noteholders, in accordance with the paragraph “Notices”, that the relevant consequence of the Potential Adjustment Event shall be the early redemption of the Notes. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of such Notes.

11.7.2.4 Extraordinary Events

“**Extraordinary Event**” means any of Merger Event, Tender Offer, Nationalisation, Insolvency, Delisting, De-merger Event, Change in Law or Insolvency Filing, as the case may be.

“**Merger Event**” means in respect of any relevant Shares:

- any reclassification or change of such Shares that results in a transfer of or an irrevocable commitment to transfer all of such Shares outstanding to another entity or person; or
- any consolidation, amalgamation, merger or binding share exchange of the issuer of the relevant Shares with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such issuer is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding);
- any takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100% of the outstanding Shares of the issuer of the relevant Shares that results in a transfer of or an irrevocable commitment to transfer all such Shares (other than such Shares owned or controlled by such other entity or person); or
- any consolidation, amalgamation, merger or binding share exchange of the issuer of the relevant Shares or its subsidiaries with or into another entity in which the issuer of the relevant Shares is the continuing entity and which does not result in a reclassification or change of all such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50% of the outstanding Shares immediately following such event (a “Reverse Merger”) in each case if the effective date of the Merger Event is on or before the final Valuation Date.

“**Tender Offer**” means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10% and less than 100% of the outstanding voting shares of the issuer of the relevant Shares, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

“**Nationalisation**” means that all the Shares or all the assets or substantially all the assets of the issuer of the relevant Shares are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

“**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting the issuer of the relevant Shares, (A) all the Shares of that issuer are required to be transferred to a trustee, liquidator or other similar official or (B) holders of the Shares of that issuer become legally prohibited from transferring them (each time as determined in good faith by the Calculation Agent).

“**Delisting**” means that the Exchange announces that pursuant to the rules of such Exchange, the Shares cease (or will cease) to be listed, traded or publicly quoted on the Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any member state of the European Union).

“**De-merger Event**” means that the issuer of the relevant Shares is affected by a de-merger (such as, but not limited to, spin off, scission or any operation of a similar nature) leading to the attribution of a basket comprising

New Shares and/ or Other Consideration and/ or the relevant Share affected by the de-merger (as the case may be), such basket resulting from such de-merger.

In that respect, “**New Shares**” means ordinary or common shares, whether of the entity or person involved or a third party, that are promptly scheduled to be (i) publicly quoted, traded or listed on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any member state of the European Union) and (ii) not subject to any currency exchange controls, trading restrictions or other trading limitations. Other Consideration means cash and/or any securities (other than New Shares) or assets whether of the entity or person involved or a third party.

“**Change in Law**” means that on or after the Issue Date of the Notes (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal to hold, acquire or dispose of Hedge Positions relating to the Notes.

“**Insolvency Filing**” means that the issuer of the relevant Shares institutes or has instituted against it by a regulator, supervisor, or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organization or the jurisdiction of its head or home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors’ rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the issuer of the relevant Shares shall not be deemed an Insolvency Filing.

Upon the occurrence on or after the Issue Date up to and including the last Valuation Date, in the determination of the Calculation Agent, of an Extraordinary Event in respect of any Share, the Calculation Agent, on or after the effective date of such Extraordinary Event, may make such adjustments as it, acting in good faith, deems appropriate (including substitution of any affected Share). Such adjustments to be effective as of the date determined by the Calculation Agent, to account for the effect of the relevant Extraordinary Event to protect the theoretical value of the Notes to the Noteholders immediately prior to such Extraordinary Event.

For the avoidance of doubt, if the Calculation Agent determines that no adjustment that it could make would produce a commercially reasonable result, the Calculation Agent will notify the Noteholders, in accordance with the paragraph “Notices”, that the relevant consequence of the Extraordinary Event shall be the early redemption of the Notes. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of such Notes.

11.7.3. Share Index or Basket of Share Indices

The terms applicable to an Index will differ, depending on whether the Index is specified in the relevant Final Terms to be Multiple Exchange or not. The applicable provisions below will apply.

11.7.3.1 Terms applicable irrespective of whether an Index is Multiple Exchange or not

Definitions

Index:	Means the index specified as such in the relevant Final Terms.
Index Basket:	Means a basket of indices as specified in the relevant Final Terms.
i:	The addition of the letter i in subscript to any term indicates that this term is meant to apply to each Index in the Index Basket separately.
w:	Means the weight of a certain Index in the Index Basket.
Index Sponsor:	Means the corporation or other entity that (a) is responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments, if any, related to the relevant Index and (b) announces (directly or through an agent) the level for the relevant Index on a regular basis during each Scheduled Trading Day.
Initial Price:	Means the price specified as such or otherwise determined in the relevant Final Terms or, if no means for determining the Initial Price are so provided: in respect of the Initial Valuation Date, the level of the relevant Index at the Valuation Time on the Initial Valuation Date, as determined by the Calculation Agent, and in respect of the each subsequent Valuation Date, the

Final Price for the Valuation Date immediately preceding such Valuation Date, or, if Initial Averaging is specified as applicable under the relevant Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Initial Valuation Date, of the levels of the relevant Index as of the Valuation Time on each Initial Averaging Date.

Final Price: Means the level of the relevant Index at the Valuation Time on the relevant Valuation Date, as determined by the Calculation Agent or, if Averaging is specified as applicable under the relevant Final Terms, means the arithmetic mean, as determined by the Calculation Agent on the Valuation Date, of the levels of the relevant Index as of the Valuation Time on each Averaging Date.

Initial Valuation Date: Means the Issue Date or such other date as specified in the relevant Final Terms, and if such date is not a Scheduled Trading Day in respect of the relevant Index, the Initial Price of such Index shall be determined on the basis of the level of such Index as calculated on the immediately following Scheduled Trading Day, subject to Market Disruption, or, if Initial Averaging is specified as applicable, means the final Initial Averaging Date.

Valuation Date: Means any date specified as such in the relevant Final Terms, and if such date is not a Scheduled Trading Day in respect of the relevant Index, the Final Price of such Index shall be determined on the basis of the level of such Index as calculated on the immediately following Scheduled Trading Day, subject to Market Disruption, or, if Averaging is specified as applicable, means the final Averaging Date

Relevant Price Means the level of the relevant Index determined by the Calculation Agent at the Valuation Time on the relevant Valuation Date.

Scheduled Closing Time: Means in respect of an Exchange or Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

Consequences of Disrupted Days

If any Valuation Date is a Disrupted Day, then:

- if the Underlying is an Index, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the scheduled Valuation Date is a Disrupted Day. In that case, (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day and (ii) the Calculation Agent shall determine the level of the Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on that eighth Scheduled Trading Day); and
- if the Underlying is a Basket of Indices, the Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the scheduled Valuation Date, and the Valuation Date for each Index affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to that Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Index. In that case, (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the relevant Index, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall determine the level of that Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled

Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on that eighth Scheduled Trading Day).

Adjustment to Indices

- If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then that index (the “**Successor Index**”) will be deemed to be the Index.
- If (i) on or prior to any Valuation Date in respect of an Index, the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalization and other routine events) (an “**Index Modification**”) or permanently cancels the Index and no Successor Index exists (an “**Index Cancellation**”) or (ii) on any Valuation Date, the Index Sponsor fails to calculate and announce a relevant Index (an “**Index Disruption**” and together with an Index Modification and an Index Cancellation, each an “**Index Adjustment Event**”), the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Notes and if so, shall calculate the level of the Index, using, in lieu of a published level for that Index, the level for that Index as at that Valuation Date as determined by the Calculation Agent in accordance with the formula for and the method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event.

For the purpose hereof “**Index Sponsor**” means the corporation or other entity that (a) is responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments, if any, related to the Index and (b) announces (directly or through an agent) the level of the Index on a regular basis during each Scheduled Trading Day.

Change in Law

Upon the occurrence on or after the Issue Date up to and including the last Valuation Date, in the determination of the Calculation Agent, of a Change in Law in respect of any Index, the Calculation Agent, on or after the effective date of such Change in Law, may make such adjustments as it, acting in good faith, deems appropriate. Such adjustments to be effective as of the date determined by the Calculation Agent, to account for the effect of the Change in Law to protect the theoretical value of the Notes to the Noteholders immediately prior to such Change in Law.

In that respect, “**Change in Law**” means that, on or after the Issue Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal to hold, acquire or dispose of Hedge Positions relating to the Notes.

For the avoidance of doubt, if the Calculation Agent determines that no adjustment that it could make would produce a commercially reasonable result, the Calculation Agent will notify the Noteholders, in accordance with the paragraph “Notices”, that the relevant consequence of the Index Adjustment Event or Change in Law shall be the early redemption of the Notes. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of such Notes.

11.7.3.2 Terms applicable to an Index that is not Multiple Exchange

Exchange: Means each exchange or quotation system specified as such for such Index in the relevant Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the Shares underlying such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to such Share on such temporary substitute exchange or quotation system as on the original Exchange).

Related Exchange:	Means, each exchange or quotation system specified as such for the relevant Index in the relevant Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange), provided, however, that where “All Exchanges” is specified as the Related Exchange in the relevant Final Terms, “Related Exchange” shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Index.
Valuation Time:	Means the time on the relevant Valuation Date, specified as such in the related Final Terms or, if no such time is specified, the Scheduled Closing Time on the relevant Exchange on the relevant Valuation Date, in relation to each Index to be valued. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
Scheduled Trading Day:	Means any day on which the Exchange and each Related Exchange are scheduled to be open for trading for their respective regular trading sessions.
Exchange Business Day:	Means any Scheduled Trading Day on which each Exchange and each Related Exchange are open for trading during their respective regular trading sessions, notwithstanding any such Exchange or Related Exchange closing prior to its Scheduled Closing Time.

Market Disruption

“**Market Disruption Event**” means in respect of an Index, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time or (iii) an Early Closure. For the purposes of determining whether a Market Disruption Event exists at any time, if a Market Disruption Event occurs in respect of a security included in the relevant Index at any time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security and (y) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event.

In that respect, “**Trading Disruption**” means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (i) relating to securities that comprise 20 percent or more of the level of the relevant Index, or (ii) in futures or options contracts relating to the relevant Index on any relevant Related Exchange.

In that respect, “**Exchange Disruption**” means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for, (i) securities that comprise 20 percent or more of the level of the relevant Index, or (ii) in futures or options contracts relating to the relevant Index on any relevant Related Exchange.

In that respect, “**Early Closure**” means the closure on any Exchange Business Day of any relevant Exchange(s) relating to securities that comprise 20 per cent or more of the level of the relevant Index or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or Related Exchange(s) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or Related Exchange(s) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day.

In addition, in that respect “**Disrupted Day**” means any Scheduled Trading Day on which a relevant Exchange or any Related Exchange fails to open for trading during its regular trading session or on which a Market Disruption Event has occurred.

Related Exchange:	Means, each exchange or quotation system specified as such for the relevant Index in the relevant Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange), provided, however, that where “All Exchanges” is specified as the Related Exchange in the relevant Final Terms, “Related Exchange” shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Index.
Valuation Time:	Means: (i) for the purposes of determining whether a Market Disruption Event has occurred: (a) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (b) in respect of any options contracts or future contracts on the Index, the close of trading on the Related Exchange; and (ii) in all other circumstances, the time at which the official level of the Index is calculated and published by the Index Sponsor.
Scheduled Trading Day:	Means any day on which: (i) the Index Sponsor is scheduled to publish the level of the Index and (ii) the Related Exchange is scheduled to be open for trading for its regular trading session.
Exchange Business Day:	Means any Scheduled Trading Day on which (i) the Index Sponsor publishes the level of the Index; and (ii) the Related Exchange is open for trading during its respective regular trading session, notwithstanding any Exchange or the Related Exchange closing prior to its Scheduled Closing Time.

Market Disruption

“**Market Disruption Event**” means either

- (i) (a) the occurrence or existence, in respect of any Component Security of:
 - (1) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;
 - (2) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; OR

- (ii) the occurrence or existence, in respect of futures or options contracts relating to the Index, of: (a) a Trading Disruption; (b) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Related Exchange; or (c) an Early Closure, in each case in respect of such futures or options contracts.

For the purposes of determining whether a Market Disruption Event in respect of any Index exists at any time, if a Market Disruption Event occurs in respect of a Component Security at any time, then the relevant percentage contribution of that Component Security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that Component Security and (y) the overall level of the Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market “opening data”.

In that respect, “**Trading Disruption**” means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (i) relating to any Component Security on the Exchange in respect of such Component Security; or (ii) in futures or options contracts relating to the Index on the Related Exchange.

In that respect, “**Exchange Disruption**” means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for: (i) any Component Security on the Exchange, in respect of such Component Security; or (ii) in futures or options contracts relating to the Index on the Related Exchange.

In that respect, “**Early Closure**” means the closure on any Exchange Business Day of the Exchange in respect of any Component Security or the Related Exchange prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

In addition, in that respect “**Disrupted Day**” means any Scheduled Trading Day on which: (i) the Index Sponsor fails to publish the level of the Index; (ii) the Related Exchange fails to open for trading during its regular trading session; or (iii) a Market Disruption Event has occurred.

Initial Valuation Date:	Means the Issue Date or such other date as specified in the relevant Final Terms, and if such date is not a Scheduled Fund Valuation Date in respect of the relevant Reference Fund, the Initial Price of a Fund Interest Unit in such Reference Fund shall be determined on the basis of the Relevant Price of such Fund Interest Unit as calculated on the immediately following Scheduled Fund Valuation Date, or, if Initial Averaging is specified as applicable, means the final Initial Averaging Date.

Valuation Date:	Means any date specified as such in the relevant Final Terms, and if such date is not a Scheduled Fund Valuation Date in respect of the relevant Reference Fund, the Final Price of a Fund Interest Unit in such Reference Fund shall be determined on the basis of the Relevant Price of such Fund Interest Unit as calculated on the immediately following Scheduled Fund Valuation Date, or, if Averaging is specified as applicable, means the final Averaging Date.

Fund Documents:	Means, with respect to any Fund Interest Unit, the constitutive and governing documents, subscription agreements and other agreements of the related Reference Fund specifying the terms and conditions relating to such Fund Interest Unit, as amended from time to time.

11.7.4.2 Potential Adjustment Events

Upon the occurrence on or after the Issue Date up to and including the last Valuation Date of a Potential Adjustment Event (as defined below), the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest Units and if so will:

- (i) make the corresponding adjustment(s), if any, to any relevant variable in the Variable Linked formulae of the Notes, which may include the Initial Price or the Final Price, used to calculate any Variable Linked Rate or Variable Linked Redemption Amount as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends or liquidity relative to the relevant Fund Interest Unit) and
- (ii) determine the effective date(s) of the adjustment(s).

For the purpose hereof, “**Potential Adjustment Event**” shall mean any of the following:

- a subdivision, consolidation or reclassification of the relevant Fund Interest Units or a free distribution or dividend of any such Fund Interest Units to existing holders by way of bonus, capitalisation or similar issue;
- a distribution, issue or dividend to existing holders of the relevant Fund Interest Units of (a) an additional amount of such Fund Interest Units, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Reference Fund equally or proportionately with such payments to holders of such Fund Interest Units, or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Reference Fund as a result of a spin-off or other similar transaction or (d) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- an extraordinary dividend as determined by the Calculation Agent;
- a repurchase by the Reference Fund of relevant Fund Interest Units whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption of Fund Interest Units initiated by a Noteholder in such Fund Interest Units initiated by a Noteholder in such Fund Interest Units that is consistent with the Fund Documents; or
- any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Interest Units.

If the Calculation Agent determines that no adjustment that it could make would produce a commercially reasonable result, the Calculation Agent may notify the Noteholders, in accordance with the paragraph “Notices”, that the relevant consequence of the Potential Adjustment Event shall be the early redemption of the Notes. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of such Notes.

Upon the occurrence on or after the Issue Date up to and including the last Valuation Date, in the determination of the Calculation Agent, of an Extraordinary Event in respect of any Reference Fund, the Calculation Agent, on or after the effective date of such Extraordinary Event, may make such adjustments as it, acting in good faith, deems appropriate (including substitution of any affected Reference Fund). Such adjustments to be effective as of the date determined by the Calculation Agent, to account for the effect of the relevant Extraordinary Event to protect the theoretical value of the Notes to the Noteholders immediately prior to such Extraordinary Event.

For the avoidance of doubt, if the Calculation Agent determines that no adjustment that it could make would produce a commercially reasonable result, the Calculation Agent will notify the Noteholders, in accordance with the paragraph “Notices”, that the relevant consequence of the Extraordinary Event shall be the early redemption of such Notes. For Nationalisation and Insolvency, the relevant consequence will always be the early redemption of the Notes. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of such Notes.

“Bullion” means Gold, Silver, Platinum or Palladium, as the case may be.

In case a Market Disruption Event occurs the Calculation Agent will determine in good faith and in a commercially reasonable manner the Final Price of the relevant Commodity (or a method for determining the Final Price of the relevant Commodity).

If, in the opinion of the Calculation Agent, any Commodity Index is modified by the Commodity Index Sponsor, cancelled by the Commodity Index Sponsor, replaced by a successor commodity index or remains unpublished by the Commodity Index Sponsor, or if, in the opinion of the Calculation Agent, a Commodity Index Market Disruption Event occurs (any of the above events, a “Commodity Index Event”), the Calculation Agent shall determine in its sole discretion, but in good faith and in a commercially reasonable manner, how such Commodity Index Event affects the Notes and what its consequences should be.

If the Calculation Agent determines that no adjustment that it could make would produce a commercially reasonable result, the Calculation Agent may notify the Noteholders, in accordance with the paragraph “Notices”, that the relevant consequence of the Commodity Index Event shall be the early redemption of the Notes. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of such Notes.

11.7.7.2. Events affecting the Index

(i) Delay of Publication

If any level of the Index for a Reference Month has not been published or announced by the day that is five Business Days prior to the next Interest Payment Date, the Calculation Agent may either determine the level of the Index based on its own calculations or make any adjustment to the Notes as it may deem appropriate.

If the Calculation Agent determines that no adjustment that it could make would produce a commercially reasonable result, the Calculation Agent may notify the Noteholders, in accordance with *Condition 11.17 Notices*, that the Notes will be redeemed early. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of the Notes.

(ii) Cessation of Publication

If a level for the Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index then the Calculation Agent may determine a successor Index or make any adjustment to the Notes as it may deem appropriate.

If the Calculation Agent determines that no appropriate successor Index exists, or that no adjustment that it could make would produce a commercially reasonable result, the Calculation Agent may notify the Noteholders, in accordance with *Condition 11.17 Notices*, that the Notes will be redeemed early. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of the Notes.

(iii) Rebasing of the Index

If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased will be used for purposes of determining the level of the Index from the date of such rebasing; provided, however, that the Calculation Agent may make such adjustments to the Notes as it may deem appropriate.

If the Calculation Agent determines that no adjustment that it could make would produce a commercially reasonable result, the Calculation Agent may notify the Noteholders, in accordance with *Condition 11.17 Notices*, that the Notes will be redeemed early. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of the Notes.

(iv) Material Modification

If the Calculation Agent determines that no adjustment that it could make would produce a commercially reasonable result, the Calculation Agent may notify the Noteholders, in accordance with *Condition 11.17 Notices*, that the Notes will be redeemed early. In case of such early redemption, the Calculation Agent shall give its good faith estimate of the value of the Notes.

11.8. Rounding

For the purposes of any calculations required pursuant to these Terms and Conditions (unless otherwise specified in the relevant Final Terms), (i) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), and (ii) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up). For these purposes “unit” means, the lowest amount of such currency that is available as legal tender in the country of such currency.

11.9. Status

11.9.1. Status of Senior Notes

The Notes that are specified in the Final Terms to be Senior Notes and the payments of principal and interest relating to them are direct, unconditional and unsecured obligations of the Issuer and rank at all times *pari passu*, without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of the relevant Issuer, present and future, but, in the event of insolvency, only to the extent permitted by laws relating to creditors' rights.

11.9.2. Status of Dated Subordinated Notes

The Notes that are specified in the Final Terms to be Dated Subordinated Notes and the payments of principal and interest relating to them are direct, unsecured and senior subordinated obligations of the Issuer and shall at all times rank *pari passu* and without any preference among themselves. The payment obligation of the Issuer under the Dated Subordinated Notes and the payments of principal and interest relating to them shall at all times rank equally with all other Dated Subordinated Obligations (as defined below).

Dated Subordinated Notes that constitute Tier II Capital will have a minimum maturity of five years.

Early Redemption of any Dated Subordinated Notes can only occur at the option of the relevant Issuer. Early redemption will be subject to the prior approval of the Lead Regulator applicable to BELFIUS BANK.

In the event of dissolution or liquidation of the Issuer (including the following events creating a "concurso de créanciers" or "samenloop", bankruptcy ("faillissement/faillite") and judicial liquidation ("gerechtelijke vereffening/liquidation forcée") or voluntary liquidation ("vrijwillige vereffening/liquidation volontaire")) (other than a voluntary liquidation in connection with a reconstruction, merger or amalgamation where the continuing corporation assumes all the liabilities of the Issuer), the rights of the holders of Dated Subordinated Notes:

(i) shall rank ahead of:

- those persons whose claims are in respect of any class of equity (including preference shares) of the Issuer; and
- creditors whose claims are in respect of any obligations of the Issuer that rank or are expressed to rank (whether only in the winding up of the Issuer or otherwise) junior to Dated Subordinated Obligations,

(ii) but shall be subordinated to the claims of all Senior Creditors of the Issuer.

In the event of dissolution or liquidation as defined above, the claims of holders of Dated Subordinated Notes and of the related receipts and coupons will rank *pari passu* with claims of other creditors in respect of Dated Subordinated Obligations whether their claims were due before or after the issue of the Dated Subordinated Notes.

“**Senior Creditors**” means all creditors who are depositors or other general, unsubordinated creditors; and

“**Dated Subordinated Obligations**” means all indebtedness and monetary obligations of the Issuer present and future, including any guarantee by the Issuer, that rank or are expressed to rank junior in right of payment (whether only in the event of the winding up of the Issuer or otherwise) to the claims of Senior Creditors but that are not subordinated so as to rank in point of subordination junior to any other obligations of the Issuer.

11.9.3. Subordinated Notes: Deferral of Payments

In the case of Subordinated Notes in relation to which this Condition 11.9.3. is specified in the relevant Final Terms as applying, the Issuer shall be entitled, by notice in writing to the Noteholders in accordance with *Condition 11.17. Notices* (a "Deferral Notice"), to defer the due date for payment of any repayment of principal or payment of interest in respect of such Notes, and, accordingly, on the giving of such Notice the due date for payment of the relevant repayment or payment (the "Deferred Payment") shall be so deferred and the Issuer shall not be obliged to make payment thereof on the date the same would otherwise have become due and payable, and such deferral of payment shall not constitute a default by the Issuer. The Issuer may only give a Deferral Notice in circumstances where if it were to make payment of the Deferred Payment, BELFIUS BANK would not be in compliance with the capital adequacy requirements applied to it by the Lead Regulator applicable to BELFIUS BANK or any other duly authorized authority. Interest will accrue on principal deferred as aforesaid in accordance with the provisions of these Conditions and the relevant Agency Agreement, save that such interest shall only become due and payable at such time as the principal in respect of which it has accrued becomes due and payable under the following sentence. No interest shall accrue on any interest deferred.

Promptly upon being satisfied that the Issuer may make payment of the Deferred Payment or a part of it and BELFIUS BANK being in compliance again with the capital adequacy requirements applied to it by the Lead Regulator applicable to BELFIUS BANK, the Issuer shall give to the Noteholders written notice thereof in accordance with *Condition 11.17. Notices* (the "Payment Notice") and the relevant Deferred Payment (or the appropriate part of it) and any accrued interest as aforesaid shall become due and payable on the seventh day after the date of such Payment Notice.

11.9.4. Subordinated Notes: Substitution

In the case of Subordinated Notes in relation to which this *Condition 11.9.4.* is specified in the relevant Final Terms as applying (such Subordinated Notes, the "*Condition 11.9.4. Subordinated Notes: Substitution*"), the Issuer may at its sole discretion and without the consent of the Noteholders by not less than thirty days' nor more than sixty days' notice to the Noteholders in accordance with *Condition 11.17. Notices* (with a copy to the Fiscal Agent or to the Domiciliary Agent for Notes issued by BELFIUS FUNDING and BELFIUS FINANCING COMPANY), designate a date (such date, the "Effective Date") on which all, but not some only, of the relevant Series of Dated Subordinated Notes then outstanding (such notes referred to herein as the "Existing Notes") shall be replaced with new notes (the "Substitute Notes") which are Qualifying Securities, provided that:

If the Issuer elects to substitute the Existing Notes for Substitute Notes in accordance with preceding paragraph, then no further amounts shall be payable in respect of the Existing Notes from the Effective Date but without prejudice to the rights of the holders of the Substitute Notes delivered in exchange therefor. The Issuer shall give, in the notice designating the Effective Date, details of the procedure that Noteholders must follow in order to exchange their Existing Notes for Substitute Notes. Any substitution under this *Condition 11.9.4.* shall be made in accordance with the Agency Agreement.

Such substitution of the Notes would imply the issue of new Notes under a new prospectus replacing this Base Prospectus, or under this Base Prospectus properly supplemented in order to include any relevant information relating to the Qualifying Resolution Regime

Notwithstanding anything to the contrary contained in these Conditions, the substitution referred to in this *Condition 11.9.4.* shall be effective without the consent of the Noteholders.

In these Conditions:

(a) such securities are (subject to sub paragraphs (b) to (d) below) securities which are eligible in full (excluding for these purposes any non recognition as a result of the customary regulatory amortisation in the five years immediately preceding maturity or any non recognition due to applicable limitations on the amount of such capital) as Tier 2 capital under the rules or guidelines of the Lead Regulator applicable to BELFIUS BANK, and will not, at the time of issuance, become subject to a Capital Disqualification Event;

(b) subject to the provisions of this sub paragraph (b) and sub paragraphs (c) to (d) below, the terms and conditions of such securities are identical to the terms and conditions of the Existing Notes (save for the Issue Date), including, for the avoidance of doubt, as to the status and subordination of the Notes, as to rates of interest and interest payment dates, as to rights to accrued interest in respect of the Existing Notes which has not been paid and as to rights to any other amounts which would have been payable in respect of the Existing Notes,

including any rights to receive additional amounts under *Condition 11.19 Taxation*, as to maturity date and as to redemption conditions, and further, the terms and conditions of such securities may not contain any contractual provision providing for loss absorption pursuant to which the principal amount in respect of the Substitute Notes may be written off and/or converted to the ordinary shares of the Issuer, or as applicable, the Guarantor of such securities, in the event of non viability of the Issuer or, as applicable, the Guarantor.

(c) such securities may contain information with respect to the Qualifying Resolution Regime or the rules or guidelines of the Lead Regulator in this regard to which such securities are subject, if such information is necessary for such securities to qualify as Tier 2 capital under the rules or guidelines of the Lead Regulator applicable to BELFIUS BANK provided that such securities may be subject to the provisions of a Qualifying Resolution Regime only to the extent that, immediately prior to such substitution, the Existing Notes were subject to such Qualifying Resolution Regime;

(d) the Issuer has received an opinion of a recognised independent tax counsel confirming no event specified in *Condition 11.19. Taxation* or is anticipated to occur as a result of the relevant substitution (taking into account any anticipated changes to the relevant guidelines of the Belgian tax authorities at such time).

11.10. Clearing Systems

The clearing systems operated by Euroclear Bank SA/NV (“Euroclear”), Clearstream Banking SA (“Clearstream, Luxembourg”), the BNB system, and such other clearing system as may be agreed between the Issuer and the Fiscal Agent or Domiciliary Agent and as specified in the relevant Final Terms.

11.11. Events of Default

In any of the following events (“Events of Default”) any Noteholder may by written notice to the Issuer and, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor at its or their specified office declare his Note or Notes immediately due and payable, and thereupon an early redemption shall occur, unless, prior to the giving of such notice, all Events of Default shall have been cured:

- (a) if default is made by the Issuer for a period of 30 calendar days or more in the payment of the final Redemption Amount, or interest on the Notes when and as the same shall become due and payable; or
- (b) in the event of default by the Issuer or, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor, as the case may be, in the due performance of any other obligation under the terms and conditions of the Notes, unless remedied within 45 days after receipt of a written notice thereof given by any Noteholder; or

- (d) in the event that the Issuer or, as applicable, the Guarantor is adjudicated bankrupt or insolvent, or admits in writing its inability to pay its debts as they mature, or makes an assignment for the benefit of its creditors, or enters into a composition with its creditors, or applies for a moratorium, or institutes or has instituted any proceedings under any applicable bankruptcy law, insolvency law, composition law or any law governing the appointment of a receiver, administrator, trustee or other similar official for the whole or any substantial part of its assets or property or any other similar law, or in the event that any such proceedings are instituted against the Issuer or, as applicable, the Guarantor and remain undismissed for a period of 30 days, or
- (e) if, for any reason, the relevant Guarantee ceases to be in full force and effect.

Notice of any Event of Default shall be given to the Noteholders in accordance with *Condition 11.17. Notices*.

11.12. Modifications of the Agency Agreement

The Issuer and, as applicable, the Guarantor shall only permit any modification of, or any waiver or authorisation of any breach or proposed breach of or any failure to comply with, the Agency Agreement, if to do so could not reasonably be expected to be prejudicial to the interests of the Noteholders.

11.13. Responsibility of the Calculation Agent

All calculations shall be made in a commercially reasonable manner. The Calculation Agent shall have no responsibility to Noteholders for good faith errors or omissions in its calculations (without limitation, errors or omissions due to events which are not under the direct control of the Calculation Agent) and determinations as provided in the Terms and Conditions, except for those resulting from the gross negligence or wilful misconduct of the Calculation Agent. The calculations and determinations of the Calculation Agent shall be made in accordance with the Terms and Conditions (having regard in each case to the criteria stipulated herein and where relevant on the basis of information provided to or obtained by employees or officers of the Calculation Agent responsible for making the relevant calculation or determination) and shall, in the absence of manifest error, be final, conclusive and binding on the Issuer and the Noteholders. The Calculation Agent acts solely as agent of the Issuer and does not assume any obligations or duty to, or any relationship of agency or trust for or with, the Noteholders.

11.14. Prescription

Claims against the Issuer or, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor for payment in respect of any Note shall be prescribed and become void unless made within five years from the date on which such payment first becomes due.

11.15. Currency Indemnity

Any amount received or recovered in a currency other than the currency in which payment under the relevant Note is due (whether as a result of, or the enforcement of, a judgment or order of a court of any jurisdiction, in the winding-up or dissolution of the Issuer or, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor or otherwise) by any Noteholder in respect of any sum expressed to be due to it from the Issuer or, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor shall only constitute a discharge to the Issuer or, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor, as the case may be, to the extent of the amount in the currency of payment under the relevant Note that the recipient is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so). If the amount received or recovered is less than the amount expressed to be due to the recipient under any Note, the Issuer, failing whom, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor, shall indemnify it against any loss sustained by it as a result. In any event, the Issuer, failing whom, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor, shall indemnify the recipient against the cost of making any such purchase. For the purposes of this Condition, it shall be sufficient for the Noteholder, as the case may be, to demonstrate that it would have suffered a loss had an actual purchase been made. These indemnities constitute a separate and independent obligation from the Issuer's and, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor's other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Noteholder and shall continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Note or any other judgment or order.

11.16. Substitution

- (i) The Issuer and, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor may, without any further consent or co-operation from the Noteholders, at any time, procure that any affiliated or associated corporation of the Issuer or, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor is substituted for the Issuer as the debtor under the Terms and Conditions to be offered by assigning all its rights and obligations to such other corporation (the "Substituted Issuer"), provided that the Substituted Issuer has a long-term debt rating of at least the same level as the one of the Issuer at the time of substitution, if any, and provided that:

- (a) no payment of any Redemption Amount or of interest on any Note is overdue and no other circumstances exist capable of causing the acceleration or redemption of the Notes;
 - (b) the Substituted Issuer shall agree to indemnify the holders of each Note against: all tax, duty, fee or governmental charge which is imposed on such holder by the jurisdiction of the country of the Substituted Issuer's residence for tax purposes and, if different, of its incorporation or any political subdivision or taxing authority thereof or therein with respect to such Note and which would not have been so imposed had such substitution not been made; and any costs or expenses incurred in connection with any such substitution; and
 - (c) in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, the Guarantor agrees on the provisions of such substitution as described herein, undertakes that the provisions in the Senior Guarantee (in the case of Senior Notes) and the Dated Subordinated Guarantee (in the case of Dated Subordinated Notes) with respect to the relevant Issuer will apply to the Substituted Issuer in the event of such substitution and shall be bound by all the obligations to be fulfilled by it under the relevant Senior Guarantee (in the case of Senior Notes) and the Dated Subordinated Guarantee (in the case of Dated Subordinated Notes) and the Terms and Conditions of the Notes as a result of such substitution and such obligations shall be legal, valid and enforceable; if the Issuer is substituted by the Guarantor, there is no requirement for an additional and separate guarantee of the obligations under the Notes.
- (ii) The Issuer hereby irrevocably and unconditionally guarantees that the Substituted Issuer shall pay all amounts of Redemption Amount of and interest on the Notes when due. In the event of substitution, this guarantee ceasing to be the valid and binding obligation of the Issuer, enforceable against the Issuer in accordance with its terms, shall constitute an Event of Default.
 - (iii) In the event of substitution all references in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the Substituted Issuer and the references in *Condition 11.19. Taxation* to the Netherlands shall be deemed to be to the country where the Substituted Debtor has its domicile or tax residence.
 - (iv) The Substituted Issuer obtains all necessary governmental and regulatory approvals and consents
- Notice of any substitution shall be given to the Noteholders in accordance with *Condition 11.17. Notices*.

11.17. Notices

All notices to holders of Notes (including notices to convene a meeting of Noteholders) will be deemed to have been validly given if given through the X/N Clearing System (in case of BELFIUS BANK Notes and certain BELFIUS FINANCING COMPANY Notes) or the systems of Euroclear and Clearstream Luxembourg in accordance with the procedures of the relevant clearing system.

The Notes being held in a securities account, all notices to the Noteholders shall be validly given by a direct notification, in the case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes from the Paying Agent to the Noteholders and, in the case of BELFIUS BANK Notes from BELFIUS BANK to the Noteholders, each time as the Issuer in his discretionary opinion shall deem necessary to give fair and reasonable notice to the Noteholders.

Any such notice shall be deemed to have been given on the date immediately following the date of notification from the Paying Agent in case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, and from BELFIUS BANK in case of BELFIUS BANK Notes.

11.18.1. Definitions:

1. references to a meeting are to a meeting of Noteholders of a single Series of Notes and include, unless the context otherwise requires, any adjournment

3. “agent” means a holder of a voting certificate or a proxy for, or representative of, a Noteholder
4. “block voting instruction” means an instruction issued in accordance with clause 11.18.4 paragraphs 4 to 8

8. provided that the special quorum provisions in clause 11.18.7 paragraph 4 shall apply to any Extraordinary Resolution (a “special quorum resolution”) for the purpose of sub-paragraph 2.2 or 2.7.

11.18.3. Convening a meeting

1. The relevant Issuer or the Guarantor may at any time convene a meeting. If it receives a written request by Noteholders holding at least 10 per cent in principal amount of the Notes of any Series for the time being outstanding and is indemnified to its satisfaction against all costs and expenses, the Issuer shall convene a meeting of the Noteholders of that Series. The meeting shall be held at a time and place as determined by the Issuer or, where applicable, the Guarantor, subject to, in the case of BELFIUS FUNDING Notes and BELFIUS FINANCING COMPANY Notes, approval by the Fiscal Agent or the Domiciliary Agent.

2. At least 21 days’ notice (exclusive of the day on which the notice is given and of the day of the meeting) shall be given to the Noteholders. A copy of the notice shall be given by the party convening the meeting to the other parties. The notice shall specify the day, time and place of meeting and the nature of the resolutions to be proposed and shall explain how Noteholders may appoint proxies or representatives, obtain voting certificates and use block voting instructions and the details of the time limits applicable.

11.18.4. Arrangements for voting

1. If a Noteholder Note wishes to obtain a voting certificate in respect of it for a meeting, he must notify the Paying Agent at least 48 hours before the time fixed for the meeting. The Paying Agent shall then issue a voting certificate in respect of it.

2. A voting certificate shall:

be a document in the English language;

be dated;

specify the meeting concerned and the serial numbers of the Notes and

entitle, and state that it entitles, its bearer to attend and vote at that meeting in respect of those Notes.

2. Once a Paying Agent has issued a voting certificate for a meeting in respect of a Note, it shall not release the Note until either:

the meeting has been concluded or

the voting certificate has been surrendered to the Paying Agent.

3. If a Noteholder wishes the votes attributable to it to be included in a block voting instruction for a meeting, then, at least 48 hours before the time fixed for the meeting, (i) he must notify for that purpose the Paying Agent and (ii) he or a duly authorised person on his behalf must direct the Paying Agent how those votes are to be cast. The Paying Agent shall issue a block voting instruction in respect of the votes attributable to all Notes for which it has received such notification.

4. A block voting instruction shall:

be a document in the English language

be dated

specify the meeting concerned

list the total number and serial numbers of the Notes, distinguishing with regard to each resolution between those voting for and those voting against it

certify that such list is in accordance with directions received as provided in paragraphs 8, 10 and 13 and

appoint a named person (a “proxy”) to vote at that meeting in respect of those Notes and in accordance with that list. A proxy need not be a Noteholder.

5. Once a Paying Agent has issued a block voting instruction for a meeting in respect of the votes attributable to any Notes the directions to which it gives effect may not be revoked or altered during the 48 hours before the time fixed for the meeting.

6. Each block voting instruction shall be deposited at least 24 hours before the time fixed for the meeting at the specified office of the relevant Issuer or the Guarantor or such other place as the Issuer shall designate or approve, and in default it shall not be valid unless the chairman of the meeting decides otherwise before the meeting proceeds to business. If the Issuer requires, a notarial certified copy of each block voting instruction shall be produced by the proxy at the meeting but the Issuer need not investigate or be concerned with the validity of the proxy’s appointment.

7. A vote cast in accordance with a block voting instruction shall be valid even if it or any of the Noteholders’ instructions pursuant to which it was executed has previously been revoked or amended, unless written intimation of such revocation or amendment is received from the relevant Issuer by the chairman of the meeting in each case at least 24 hours before the time fixed for the meeting.

8. No instructions may be giving by the Noteholder to the Paying Agent at the same time for the purposes of both paragraph 5 and paragraph 8 for the same meeting.

11.18.5. Chairman

The chairman of a meeting shall be such person as the Issuer may nominate in writing, but if no such nomination is made or if the person nominated is not present within 15 minutes after the time fixed for the meeting the Noteholders or agents present shall choose one of their number to be chairman, failing which the Issuer may appoint a chairman. The chairman need not be a Noteholder or agent. The chairman of an adjourned meeting need not be the same person as the chairman of the original meeting.

11.18.6. Attendance

The following may attend and speak at a meeting:

1. Noteholders and agents

2. the chairman

3. the Issuer, the Guarantor and the Fiscal Agent or Domiciliary Agent as applicable (through their respective representatives) and their respective financial and legal advisers.

11.18.7. Quorum and Adjournment

1. No business (except choosing a chairman) shall be transacted at a meeting unless a quorum is present at the commencement of business. If a quorum is not present within 15 minutes from the time initially fixed for the meeting, it shall, if convened on the requisition of Noteholders, be dissolved. In any other case it shall be adjourned until such date, not less than 14 nor more than 42 days later, and time and place as the chairman may decide. If a quorum is not present within 15 minutes from the time fixed for a meeting so adjourned, it shall be adjourned until such date, not less than 14 nor more than 42 days later, and time and place as the chairman may decide. If a quorum is not present within 15 minutes from the time fixed for a meeting so adjourned, the meeting shall be dissolved.

2. Two or more Noteholders or agents present in person shall be a quorum :

(i) in the cases marked “No minimum proportion” in the table below, whatever the proportion of the Notes which they represent.

(ii) in any other case, only if they represent the proportion of the Notes shown by the table below.

COLUMN 1	COLUMN 2	COLUMN 3	COLUMN 4
Purpose of Meeting	Any meeting except one referred to in column 3	Meeting previously once adjourned through want of a quorum	Meeting previously twice adjourned through want of a quorum
	Required proportion	Required Proportion	Required Proportion
To pass a special quorum resolution	two thirds	one third	No minimum proportion
To pass any other Extraordinary Resolution	A clear majority	No minimum proportion	No minimum proportion
Any other purpose	10 per cent	No minimum proportion	No minimum proportion

3. The chairman may (and shall if directed by a meeting) adjourn the meeting “from time to time and from place to place”. Only business which could have been transacted at the original meeting may be transacted at a meeting adjourned in accordance with this clause.

4. At least 10 days’ notice of a meeting adjourned for want of a quorum shall be given in the same manner as for an original meeting and that notice shall state the quorum required at the adjourned meeting. No notice need, however, otherwise be given of an adjourned meeting.

11.18.8. Voting

1. Each question submitted to a meeting shall be decided by a show of hands unless a poll is (before, or on the declaration of the result of, the show of hands) demanded by the chairman, the Issuer, the Guarantor or one or more persons representing 2 per cent. of the Notes.

2. Unless a poll is demanded a declaration by the chairman that a resolution has or has not been passed shall be conclusive evidence of the fact without proof of the number or proportion of the votes cast in favour of or against it.

3. If a poll is demanded, it shall be taken in such manner and (subject as provided below) either at once or after such adjournment as the chairman directs. The result of the poll shall be deemed to be the resolution of the meeting at which it was demanded as at the date it was taken. A demand for a poll shall not prevent the meeting continuing for the transaction of business other than the question on which it has been demanded.

4. A poll demanded on the election of a chairman or on a question of adjournment shall be taken at once.

5. On a show of hands every person who is present in person and who produces a voting certificate or is a proxy or representative has one vote. On a poll every such person has one vote in respect of each principal amount equal to the minimum denomination of such Series of Notes so produced or represented by the voting certificate so produced or for which he is a proxy or representative. Without prejudice to the obligations of proxies, a person entitled to more than one vote need not use them all or cast them all in the same way.

6. In case of equality of votes the chairman shall both on a show of hands and on a poll have a casting vote in addition to any other votes which he may have.

11.18.9. Effect and Publication of an Extraordinary Resolution

An Extraordinary Resolution shall be binding on all the Noteholders, whether or not present at the meeting and each of them shall be bound to give effect to it accordingly. The passing of such a resolution shall be conclusive evidence that the circumstances justify its being passed. The Issuer shall give notice of the passing of an Extraordinary Resolution to Noteholders within 14 days but failure to do so shall not invalidate the resolution.

11.18.10. Minutes

Minutes shall be made of all resolutions and proceedings at every meeting and, if purporting to be signed by the chairman of that meeting or of the next succeeding meeting, shall be conclusive evidence of the matters in them. Until the contrary is proved every meeting for which minutes have been so made and signed shall be deemed to have been duly convened and held and all resolutions passed or proceedings transacted at it to have been duly passed and transacted.

11.19. Taxation

BELGIAN TAXATION ON THE NOTES

The following is a general description of the principal Belgian tax consequences for investors receiving interest in respect of or disposing of, the Notes issued by BELFIUS BANK, the Notes issued by BELFIUS FUNDING and the Notes issued by BELFIUS FINANCING COMPANY and is of a general nature based on the issuers' understanding of current law and practice. This general description is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date (for example the rate of the withholding tax). Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding, selling or converting the Notes issued by BELFIUS BANK, BELFIUS FUNDING and/or BELFIUS FINANCING COMPANY under the laws of their countries of citizenship, residence, ordinary residence or domicile.

11.19.1. Specific tax regime for notes issued within the x/n System (x/n notes)

Certain Notes (hereafter "X/N notes") will be issued through the X/N Clearing System ("X/N System") of the National Bank of Belgium (the "NBB"). In such a case, the following specific tax regime is applicable, as governed by the Law of 6 August 1993 relating to transactions with certain securities (*Wet van 6 augustus 1993 betreffende de transacties met bepaalde effecten*) and the Royal Decree of 26 May 1994 on the deduction of withholding tax (*Koninklijk Besluit van 26 mei 1994 over de inhouding en de vergoeding van de roerende voorheffing overeenkomstig Hoofdstuk I van de wet van 6 augustus 1993 betreffende de transacties met bepaalde effecten*):

Payments of interest and principal under the Notes by or on behalf of the Issuer may be made without deduction of withholding tax in respect of the Notes if and as long as at the moment of payment or attribution of interest they are held by certain eligible investors (the "Eligible Investors", see hereinafter) in an exempt securities account (an "X Account") that has been opened with a financial institution that is a direct or indirect participant (a "Participant") in the X/N System operated by the NBB. Euroclear and Clearstream, Luxembourg are directly or indirectly Participants for this purpose.

Holding the Notes through the X/N System enables Eligible Investors to receive the gross interest income on their Notes and to transfer the Notes on a gross basis.

Participants to the X/N system must enter the Notes which they hold on behalf of Eligible Investors in an X Account.

Eligible Investors are those entities referred to in article 4 of the abovementioned Belgian Royal Decree of 26 May 1994, which include, *inter alia*:

- (i) Belgian corporations subject to Belgian corporate income tax;
- (ii) institutions, associations or companies specified in article 2, §3 of the law of 9 July 1975 on the control of insurance companies other than those referred to in 1° and 3° subject to the application of article 262, 1° and 5° of the Income Tax Code of 1992;
- (iii) state regulated institutions ("*institutions parastatales*", "*parastatalen*") for social security, or institutions which are assimilated therewith, provided for in article 105, 2° of the Royal Decree implementing the Income Tax Code 1992;

- (iv) non-resident investors provided for in article 105, 5° of the same decree;
- (v) investment funds, recognised in the framework of pension savings, provided for in article 115 of the same decree;
- (vi) tax payers provided for in article 227, 2° of the Income Tax Code 1992 which have used the income generating capital for the exercise of their professional activities in Belgium and which are subject to non-resident income tax pursuant to article 233 of the same code;
- (vii) the Belgian State in respect of investments which are exempt from withholding tax in accordance with a article 265 of the Income Tax Code 1992;
- (viii) investment funds governed by foreign law which are an indivisible estate managed by a management company for the account of the participants, provided the fund units are not offered publicly in Belgium or traded in Belgium; and,
- (ix) Belgian resident corporations, not provided for under (i), when their activities exclusively or principally consist of the granting of credits and loans.

Eligible Investors do not include, *inter alia*, Belgian resident investors who are individuals or non-profit making organisations, other than those mentioned under (ii) and (iii) above.

Participants to the X/N System must keep the Notes which they hold on behalf of the non-Eligible Investors in a non-exempt securities account (an “N Account”). In such instance all payments of interest are subject to the 25 per cent. withholding tax. This withholding tax is withheld by the NBB and paid to the Belgian Treasury.

Transfers of Notes between an X Account and an N Account give rise to certain adjustment payments on account of withholding tax:

A transfer from an N Account (to an X Account or N Account) gives rise to the payment by the transferor non-Eligible Investor to the NBB of withholding tax on the pro rata of accrued interest calculated from the last interest payment date up to the transfer date.

A transfer (from an X Account or N Account) to an N Account gives rise to the refund by the NBB to the transferee non-Eligible Investor of withholding tax on the pro rata of accrued interest calculated from the last interest payment date up to the transfer date.

Transfers of Notes between two X Accounts do not give rise to any adjustment on account of withholding tax.

The pro rata of accrued interest referred to above is equal to the pro rata of accrued interest corresponding to the detention period for non-structured notes. For structured notes issued in the X/N System, the Royal Decree of 1 July 2013 amending the Royal Decree of 26 May 1994 on the deduction of withholding tax (Belgian Official Gazette of 9 August 2013), stipulates that the pro rata of accrued interest should be determined on the basis of the value of the parameter(s) of the structured note on issue date and their respective value(s) on the transfer date. The taxable amount so determined constitutes a lump sum basis which will be different, and possibly higher, than the interest income realised on the next interest date and/or maturity date.

Upon opening of an X Account for the holding of Notes, the Eligible Investor is required to provide the Participant with a statement of its eligible status on a form approved by the Minister of Finance. There is no on going declaration requirement to the X/N System as to the eligible status.

An Exempt Account may be opened with a Participant by an intermediary (an “Intermediary”) in respect of Notes that the Intermediary holds for the account of its clients (the “Beneficial Owners”), provided that each Beneficial Owner is an Eligible Investor. In such a case, the Intermediary must deliver to the Participant a statement on a form approved by the Minister of Finance confirming that (i) the Intermediary is itself an Eligible Investor, and (ii) the Beneficial Owners holding their Notes through it are also Eligible Investors. A Beneficial Owner is also required to deliver a statement of its eligible status to the intermediary.

These identification requirements do not apply to Notes held in Euroclear or Clearstream, Luxembourg as Participants to the X/N Clearing System, provided that Euroclear or Clearstream only hold X Accounts and that they are able to identify the holders for whom they hold Notes in such account.

11.19.2. Notes issued by BELFIUS BANK

All of the Notes issued by BELFIUS BANK will be “X/N Notes”.

11.19.2.1. Belgian withholding tax and income tax.

11.19.2.1.1. Belgian resident individuals

Natural persons who are Belgian residents for tax purposes, i.e., who are subject to the Belgian personal income tax (“*Personenbelasting*”/“*Impôt des personnes physiques*”) and who hold the Notes as a private investment, are subject to the following tax treatment with respect to the Notes. Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

Natural persons who are Belgian residents for tax purposes, are non-Eligible Investors (N-account holders). All payments of interest on the X/N Notes, as defined below under (i), (ii) and (iii) will therefore be subject to a 25 per cent. withholding tax in Belgium. Belgian natural persons do not have to declare the interest on the Notes in their personal income tax return.

In accordance with Belgian tax law, the following amounts are qualified and taxable as “interest”:

- (i) periodic interest income,
- (ii) amounts paid by the issuer in excess of the issue price (whether or not on the maturity date), and
- (iii) in case of a transfer of the X/N Notes between two interest payment dates, the pro rata of accrued interest (as defined in *condition 11.19.1.* above).

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the capital gains are realised outside the scope of the management of one’s private estate or unless the capital gains qualify as interest (as defined in (iii) above). Capital losses are in principle not tax deductible.

Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

11.19.2.1.2. Belgian resident companies

Belgian resident companies do qualify as Eligible Investors and will not be subject to Belgian withholding tax provided they hold the Notes on an X Account.

Interest attributed or paid to corporations Noteholders who are Belgian residents for tax purposes, i.e. who are subject to the Belgian Corporate Income Tax (“*vennootschapsbelasting*”/“*impôt des sociétés*”), as well as capital gains realized upon the sale of the Notes are taxable at the ordinary corporate income tax rate of in principle 33.99 per cent. Capital losses realised upon the sale of the Notes are in principle tax deductible.

11.19.2.1.3. Belgian legal entities

Belgian legal entities subject to the Belgian legal entities tax (“*rechtspersonenbelasting*”, “*impôts des personnes morales*”) which do not qualify as Eligible Investors are subject to a withholding tax of 25 per cent on interest payments as defined under 11.19.2.1.1, 2nd § (i) (ii) and (iii). The withholding tax constitutes the final taxation.

Certain Belgian legal entities which qualify as Eligible Investors (see *Condition 11.19.1.*) and which consequently have received gross interest income, are required to declare and pay the 25 per cent. withholding tax to the Belgian tax authorities.

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the capital gains qualify as interest (as defined as defined under 11.19.2.1.1, 3rd § (iii)). Capital losses are in principle not tax deductible.

11.19.2.1.4. Organization for Financing Pensions

Belgian Organizations for Financing Pensions in the meaning of the Law of 27 October 2006 on the activities and supervision of institutions for occupational retirement provision (“OFP”), do qualify as Eligible Investors and will not be subject to Belgian withholding tax provided they hold the Notes on an X Account.

Interest and capital gains derived by OFP’s, are in principle exempt from Belgian Corporate Income Tax. Capital losses are in principle not tax deductible. Subject to certain conditions, the Belgian withholding tax that has been levied can be credited against any corporate income tax due and any excess amount is in principle refundable.

11.19.2.1.5. Belgian non-residents

Noteholders who are not residents of Belgium for Belgian tax purposes and who are not holding the Notes through their permanent establishment in Belgium, will not become liable for any Belgian tax on income or capital gains by reason only of the acquisition or disposal of the Notes provided that they qualify as Eligible Investors and that they hold their Notes on an X Account.

11.19.2.2 Other taxes

11.19.2.2.1. European Directive on taxation of savings income in the form of interest payments

The EU has adopted a directive (European Council Directive 2003/48/EC) regarding the taxation of savings income (hereinafter “Savings Directive”). The Savings Directive requires Member States to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person to an individual or to certain other persons resident in another Member State (hereinafter “Disclosure of Information Method”), except that Austria and Luxembourg may instead impose a withholding system (hereinafter “Source Tax”) for a transitional period (subject to a procedure whereby, on meeting certain conditions, the beneficial owner of the interest or other income may request that no tax be withheld), unless during such period they elect otherwise. A number of third countries and territories have adopted similar measures to the Savings Directive.

Individuals not resident in Belgium

Interest paid or collected through Belgium on the Notes and falling under the scope of application of the Savings Directive will be subject to the Disclosure of Information Method.

Individuals resident in Belgium

An individual resident in Belgium will be subject to the provisions of the Savings Directive, if he receives interest payments from a paying agent (within the meaning of the Savings Directive) established in another EU Member State, Switzerland, Liechtenstein, Andorra, Monaco, San Marino, Curaçao, Bonaire, Saba, Sint Maarten, Sint Eustatius (formerly the Netherlands Antilles), Aruba, Guernsey, Jersey, the Isle of Man, Montserrat, the British Virgin Islands, Anguilla, the Cayman Islands or the Turks and Caicos Islands.

If the interest received by an individual resident in Belgium has been subject to a Source Tax, such Source Tax does not liberate the Belgian individual from declaring the interest income in the personal income tax declaration. The Source Tax will be credited against the personal income tax. If the Source Tax withheld exceeds the personal income tax due, the excessive amount will be reimbursed, provided it reaches a minimum of Euro 2.50.

11.19.2.2.2. Tax on stock exchange transactions

A taxe sur les opérations de bourse (tax on stock exchange transactions) will be levied on the purchase and sale in Belgium of the Notes on a secondary market through a professional intermediary. The rate applicable for secondary sales and purchases in Belgium through a professional intermediary is, for capital guaranteed Notes, 0.09 per cent. with a maximum amount of Euro 650 per transaction and per party, and for non capital guaranteed Notes, 0.25 per cent for with a maximum amount of Euro 740 per transaction and per party. The tax is due separately from each party to any such transaction, i.e. the seller (transferor) and the purchaser (transferee), both collected by the professional intermediary.

However none of the taxes referred to above will be payable by exempt persons acting for their own account including investors who are not Belgian residents provided they deliver an affidavit to the financial intermediary in Belgium confirming their non-resident status and certain Belgian institutional investors as defined in Article 126.1 2° of the *Code des droits et taxes divers* (Code of various duties and taxes) for the *taxe sur les opérations de bourse* and Article 139, second paragraph, of the same code for the *taxe sur les reports*.

11.19.3. Notes issued by BELFIUS FUNDING and BELFIUS FINANCING COMPANY

11.19.3.1. Belgian withholding tax and income tax.

11.19.3.1.1. “X/N” Notes

11.19.3.1.1.1. Belgian resident individuals

Natural persons who are Belgian residents for tax purposes, i.e., who are subject to the Belgian personal income tax (“*Personenbelasting*”/“*Impôt des personnes physiques*”) and who hold the Notes as a private investment, are subject to the following tax treatment with respect to the Notes. Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

Natural persons who are Belgian residents for tax purposes, are non-Eligible Investors (N-account holders). All payments of interest on the X/N Notes, as defined below under (i), (ii) and (iii) will therefore be subject to a 25 per cent. withholding tax in Belgium. Belgian natural persons do not have to declare the interest on the Notes in their personal income tax return.

In accordance with Belgian tax law, the following amounts are qualified and taxable as “interest”:

- (i) periodic interest income,
- (ii) amounts paid by the issuer in excess of the issue price (whether or not on the maturity date), and
- (iii) in case of a transfer of the X/N Notes between two interest payment dates, the pro rata of accrued interest (as defined in *Condition 11.19.1.* above).

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the capital gains are realised outside the scope of the management of one’s private estate or unless the capital gains qualify as interest (as defined in (iii) above). Capital losses are in principle not tax deductible.

Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

11.19.3.1.1.2. Belgian resident companies

Belgian resident companies do qualify as Eligible Investors and will not be subject to Belgian withholding tax provided they hold the Notes on an X Account.

Interest attributed or paid to corporations Noteholders who are Belgian residents for tax purposes, i.e. who are subject to the Belgian Corporate Income Tax (“*vennootschapsbelasting*”/“*impôt des sociétés*”), as well as capital gains realized upon the sale of the Notes are taxable at the ordinary corporate income tax rate of in principle 33.99 per cent. Capital losses realised upon the sale of the Notes are in principle tax deductible.

11.19.3.1.1.3. Belgian legal entities

Belgian legal entities subject to the Belgian legal entities tax (“*rechtspersonenbelasting*”, “*impôts des personnes morales*”) which do not qualify as Eligible Investors are subject to a withholding tax of 25 per cent. on interest payments as defined under 11.19.3.1.1.1, 3rd § (i), (ii) and (iii). The withholding tax constitutes the final taxation.

Certain Belgian legal entities which qualify as Eligible Investors (see Section “X/N Notes”) and which consequently have received gross interest income are required to declare and pay the 25 per cent. withholding tax to the Belgian tax authorities.

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the capital gains qualify as interest (as defined as defined under 11.19.3.1.1.1., 3rd § (iii)). Capital losses are in principle not tax deductible.

11.19.3.1.1.4. Organization for Financing Pensions

Belgian Organizations for Financing Pensions in the meaning of the Law of 27 October 2006 on the activities and supervision of institutions for occupational retirement provision (“OFP”), do qualify as Eligible Investors and will not be subject to Belgian withholding tax provided they hold the Notes on an X Account.

Interest and capital gains derived by OFP’s, are in principle exempt from Belgian Corporate Income Tax. Capital losses are in principle not tax deductible. Subject to certain conditions, the Belgian withholding tax that has been levied can be credited against any corporate income tax due and any excess amount is in principle refundable.

11.19.3.1.1.5. Belgian non-residents

Noteholders who are not residents of Belgium for Belgian tax purposes and who are not holding the Notes through their permanent establishment in Belgium, will not become liable for any Belgian tax on income or capital gains by reason only of the acquisition or disposal of the Notes provided that they qualify as Eligible Investors and that they hold their Notes on an X Account.

11.19.3.1.2. Notes issued outside the X/N System

Withholding Tax and Income Tax (for other taxes, reference is made to 11.19.4)

11.19.3.1.2.1. Tax rules applicable to natural persons resident in Belgium

Natural persons who are Belgian residents for tax purposes, i.e., who are subject to the Belgian personal income tax (“*Personenbelasting*”/“*Impôt des personnes physiques*”) and who hold the Notes as a private investment, are in Belgium subject to the following tax treatment with respect to the Notes. Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

In accordance with Belgian tax law, the following amounts are qualified and taxable as “interest”:

- (i) periodic interest income
- (ii) amounts paid by the issuer in excess of the issue price (whether or not on the maturity date)
- (iii) if the Notes qualify as “fixed income securities” (in the meaning of article 2, §1, 8° Belgian Income Tax Code), in case of a transfer of the Notes between two interest payment dates, the pro rata of accrued interest corresponding to the detention period. “Fixed income securities” are defined as bonds, specific debt certificates issued by banks (*kasbon*’/’*bon de caisse*’) and other similar securities, including securities where income is capitalised or securities which do not generate a periodic payment of income but are issued with a discount corresponding to the capitalised interest up to the maturity date of the security. In a circular letter of 25 January 2013, the central tax administration takes the position that certain structured notes also qualify as “fixed income securities” if they are characterized by one or more of the following terms: (a) a (conditional) minimum return; (b) capital protection; (c) a periodical coupon and/or (d) the determination of income during an intermediate period via a system of “clicks”. Upon a transfer of such structured notes, the taxable (accrued) interest amount should be determined on the basis of the value of the parameter(s) of the structured note on issue date and their respective value(s) on the transfer date. The taxable amount so determined constitutes a lump sum basis which will be different, and possibly higher, than the interest income realised on the next interest date and/or maturity date.

Payments of interest on the Notes as defined under (i) and (ii) made through a paying agent in Belgium will in principle be subject to a 25 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). If such Belgian withholding tax was levied, then Belgian natural persons do not have to declare the interest on the Notes in their personal income tax return.

Interest amounts on Notes as defined under (iii) made through a paying agent in Belgium are not subject to Belgian withholding tax. The transferor will be required to declare this (accrued) interest amount in his/her personal income tax return.

If the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return and will be taxed at a flat rate of 25.

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the capital gains are realised outside the scope of the management of one’s private estate or unless the capital gains qualify as interest (as defined above). Capital losses are in principle not tax deductible.

11.19.3.1.2.2. Belgian resident companies

Corporations who are Belgian residents for tax purposes, i.e. who are subject to Belgian Corporate Income Tax (“*Vennootschapsbelasting*”/“*Impôt des sociétés*”) are in Belgium subject to the following tax treatment with respect to the Notes.

Interest derived by Belgian corporate investors on the Notes and capital gains realised on the Notes will be subject to Belgian corporate income tax of 33.99 per cent. Capital losses are in principle deductible.

Interest payments on the Notes made through a paying agent in Belgium can under certain circumstances be exempt from withholding tax, provided a special certificate is delivered. Subject to certain conditions, any Belgian withholding tax that would be levied is creditable in accordance with the applicable legal provisions.

11.19.3.1.2.3. Belgian legal entities

Legal entities who are Belgian residents for tax purposes, i.e. who are subject to Belgian tax on legal entities (“*Rechtspersonenbelasting*”/“*impôt des personnes morales*”) are in Belgium subject to the following tax treatment with respect to the Notes.

Payments of interest, as defined under 11.19.3.1.2.1, 2nd § (i) and (ii), on the Notes made through a paying agent in Belgium will in principle be subject to a 25 withholding tax in Belgium and no further tax on legal entities will be due on the interest.

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent and without the deduction of Belgian withholding tax, the legal entity itself is required to declare and pay the 25 per cent. withholding tax to the Belgian tax authorities.

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the capital gain qualifies as interest (as defined under (iii) above). Capital losses are in principle not tax deductible.

11.19.3.1.2.4. Organization for Financing Pensions

Belgian pension fund entities that have the form of an Organization for Financing Pensions (OFP) are subject to Belgian Corporate Income Tax (“*Vennootschapsbelasting*”/“*Impôt des sociétés*”). OFPs are in Belgium subject to the following tax treatment with respect to the Notes.

Interest derived by OFP Noteholders on the Notes and capital gains realised on the Notes will be exempt from Belgian Corporate Income Tax. Capital losses are in principle not tax deductible.

The Belgian withholding tax that has been levied is creditable in accordance with the applicable legal provisions.

11.19.3.1.2.5. Belgian non-residents

The interest income as defined under 11.19.3.1.2.1, 2nd § (i) and (ii) on the Notes paid through a professional intermediary in Belgium will, in principle, be subject to a 25 withholding tax, unless the Noteholder is resident in a country with which Belgium has concluded a double taxation agreement and delivers the requested affidavit. If the income is not collected through a financial institution or other intermediary established in Belgium, no Belgian withholding tax is due.

Non-resident investors can also obtain an exemption of Belgian withholding tax on interest from the Notes if they are the owners or *usufructors* of the Notes and they deliver an affidavit confirming that they have not allocated the Notes to business activities in Belgium and that they are non-residents, provided that (i) the interest is paid through a Belgian credit institution, stock market company or clearing or settlement institution and that (ii) the Notes are not used by the Issuer for carrying on a business in Belgium.

The non-residents who use the Notes to exercise a professional activity in Belgium through a permanent establishment are subject to the same tax rules as the Belgian resident companies (see 11.19.3.1.2.2 above). Non-resident Noteholders who do not allocate the Notes to a professional activity in Belgium are not subject to Belgian income tax, save, as the case may be, in the form of withholding tax.

11.19.3.2 Other taxes

11.19.3.2.1. European Directive on taxation of savings income in the form of interest payments

The EU has adopted a directive (European Council Directive 2003/48/EC) regarding the taxation of savings income (hereinafter “Savings Directive”). The Savings Directive requires Member States to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person to an individual or to certain other persons resident in another Member State (hereinafter “Disclosure of Information Method”), except that Austria and Luxembourg may instead impose a withholding system (hereinafter “Source Tax”) for a transitional period (subject to a procedure whereby, on meeting certain conditions, the beneficial owner of the interest or other income may request that no tax be withheld), unless during such period they elect otherwise. A number of third countries and territories have adopted similar measures to the Savings Directive.

Individuals not resident in Belgium

Interest paid or collected through Belgium on the Notes and falling under the scope of application of the Savings Directive will be subject to the Disclosure of Information Method.

Individuals resident in Belgium

An individual resident in Belgium will be subject to the provisions of the Savings Directive, if he receives interest payments from a paying agent (within the meaning of the Savings Directive) established in another EU Member State, Switzerland, Liechtenstein, Andorra, Monaco, San Marino, Curaçao, Bonaire, Saba, Sint Maarten, Sint Eustatius (formerly the Netherlands Antilles), Aruba, Guernsey, Jersey, the Isle of Man, Montserrat, the British Virgin Islands, Anguilla, the Cayman Islands or the Turks and Caicos Islands.

If the interest received by an individual resident in Belgium has been subject to a Source Tax, such Source Tax does not liberate the Belgian individual from declaring the interest income in the personal income tax declaration. The Source Tax will be credited against the personal income tax. If the Source Tax withheld exceeds the personal income tax due, the excessive amount will be reimbursed, provided it reaches a minimum of Euro 2.50.

11.19.3.2.2 Tax on stock exchange transactions

A *taxe sur les opérations de bourse* (tax on stock exchange transactions) will be levied on the purchase and sale in Belgium of the Notes on a secondary market through a professional intermediary. The rate applicable for secondary sales and purchases in Belgium through a professional intermediary is, for capital guaranteed Notes, 0.09 per cent. with a maximum amount of Euro 650 per transaction and per party, and for non capital guaranteed Notes, 0.25 per cent for with a maximum amount of Euro 740 per transaction and per party. The tax is due separately from each party to any such transaction, i.e. the seller (transferor) and the purchaser (transferee), both collected by the professional intermediary.

However none of the taxes referred to above will be payable by exempt persons acting for their own account including investors who are not Belgian residents provided they deliver an affidavit to the financial intermediary in Belgium confirming their non-resident status and certain Belgian institutional investors as defined in Article 126.1 2° of the *Code des droits et taxes divers* (Code of various duties and taxes) for the *taxe sur les opérations de bourse* and Article 139, second paragraph, of the same code for the *taxe sur les reports*.

11.20. Governing Law and Jurisdiction

The Notes and the Guarantee are governed by Belgian law.

All disputes arising out of or in connection with the Notes or the Guarantees shall be submitted to the jurisdiction of the competent courts in Belgium.

The Agency Agreement is governed by Luxembourg law with respect of Bearer Notes and by Belgian law with respect of Dematerialized Notes.

11.21. Financial Service

The financial service will be performed by BELFIUS BANK (in Belgium) and BIL (in Luxembourg).

11.22. Representation of Noteholders

There is no representation of the holders of the Notes in relation to any offer of Notes.

11.23. Guarantee

Sections 11.23.1 and 11.23.2 below only apply to BELFIUS FUNDING Notes and BELFIUS FINANCING COMPANY Notes.

11.23.1 Senior Guarantee

The Guarantor has, by a Senior Guarantee, unconditionally and irrevocably guaranteed on an unsubordinated basis the due and punctual payment of the principal of and interest on the Senior Notes as well as of any additional amounts which may be required to be paid by BELFIUS FUNDING or BELFIUS FINANCING COMPANY (as described under *Condition 11.19. Taxation*) (the “Senior Guarantee” and a “Guarantee”, see Annex 2).

The obligations of the Guarantor under the Senior Guarantee are direct, unconditional and unsecured obligations of the Guarantor and rank *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Guarantor, present and future, but, in the event of insolvency, only to the extent permitted by laws relating to creditors' rights.

11.23.2 Dated Subordinated Guarantee

The Guarantor has, by a subordinated guarantee, unconditionally and irrevocably guaranteed on a senior subordinated basis, the due and punctual payment of the principal of and interest on the Dated Subordinated Notes, as well as of any additional amounts which may be required to be paid by BELFIUS FUNDING or BELFIUS FINANCING COMPANY (as described under *Condition 11.19. Taxation*) (the "Dated Subordinated Guarantee" and a "Guarantee", see Annex 3).

In the event of a dissolution or liquidation of the Guarantor (including the following events creating a "*concours de créanciers/samenloop van schuldeisers*": bankruptcy ("*faillite/faillissement*"); judicial composition ("*concordat judiciaire/gerechtigd akkoord*") and judicial or voluntary liquidation ("*liquidation volontaire ou force/vrijwillige of gedwongen liquidatie*") (other than a voluntary liquidation in connection with a reconstruction, merger or amalgamation where the continuing corporation assumes all the liabilities of the Guarantor)), the Holders of Dated Subordinated Notes irrevocably waive their rights to equal treatment with other unsecured creditors ("*créanciers chirographaires/chirografaire schuldeisers*"). Consequently, the Holders of Dated Subordinated Notes agree that upon the occurrence of any of the events described in the preceding sentence, the Guarantor will have no obligation to pay any principal or interest due to them until all Senior Creditors of the Guarantor have been paid, or the funds necessary to satisfy the Senior Creditors (as defined under the Subordinated Guarantee) have been put in escrow ("*en consignation/in consignatie*").

On demand, the Noteholders can have access to a copy of the Guarantee by contacting one of the Paying Agents during normal business hours.

12. TERMS AND CONDITIONS OF THE OFFER

The Notes will be offered for subscription during the Offering Period (specified in the relevant Final Terms) at the relevant Issue Price. Any applicable fees or commissions will be specified in the relevant Final Terms. The Issuer has the right to cancel any issue of Notes under the Programme during their Offering Period until the fifth Business Day before their Issue Date, either (i) when it reasonably believes that investors will not subscribe to the offer for an amount of at least the Minimum Amount specified in the relevant Final Terms or (ii) in case it considers there is a material adverse change in market conditions. Investors that have subscribed to these Notes will be notified pursuant to Condition 11.16. of such cancellation. The Issuer has the right to anticipatively terminate the Offering Period if the Maximum Amount of the relevant Notes issue has been reached or if the market conditions adversely affect the interest or the redemption amounts to be paid by the Issuer.

The cash account of the Noteholder will be debited on the Issue Date. At the same date, the Notes will be transferred on the securities accounts of the Noteholders.

If Notes are deposited in a securities account with BELFIUS BANK, BELFIUS BANK will not charge any fees for this service, nor for the opening of such securities account. If a Noteholder chooses to deposit his or her securities with another financial institution, he or she must inquire the fees charged by this institution.

The Notes have not been offered or sold and will not be offered or sold directly or indirectly and the Prospectus has not been distributed and will not be distributed, except in such circumstances that will result in compliance with all applicable laws and regulations.

13. ADMISSION TO TRADING AND DEALING ARRANGEMENTS

(Annex V.6 of Regulation (EC) 809/2004)

RISK INDICATOR

In order to increase the transparency of the risks involved in investment products, Belfius Bank SA/NV has developed a synthetic risk indicator through a scale going from 0 (lowest risk) to 6 (highest risk). The exact risk level for any investment product is determined in function of following criteria: the degree to which capital will be refunded at maturity, term of the relevant Note, type of return (distribution or capitalisation), credit risk and complexity (Underlying and strategy). Other important criteria, such as the liquidity risk of Belfius Bank SA/NV and the market risk, are not taken into account.

IT HAS BEEN AGREED AS FOLLOWS:

Article 1

Both issuers hereby warrant as follows:

- (i) That it is duly incorporated and validly existing under the laws of its country of incorporation and that it has corporate power and authority to conduct its business and to execute, deliver and comply with the provisions of this Agreement and the Notes, as the case may be;
- (ii) that all necessary consents, authorizations, notifications, registrations and filings have been obtained or made (and are in full force and effect) in connection with the compliance by the relevant Issuer with the respective terms of this Agreement and the Notes including all payments to be made by the relevant Issuer thereunder or in connection therewith;
- (iii) that this Agreement constitutes, and upon due execution, issue and/or delivery as aforesaid the Notes will constitute, valid and legally binding obligations of the relevant Issuer in accordance with their respective terms;
- (iv) that the prospectus for the Programme (the “Prospectus”) is accurate in all material respects and does not contain any untrue statement of a material fact or omit to state any material fact necessary to make the statements contained therein, in the light of the circumstances under which they were made, not misleading;
- (v) that the financial statements and other financial information in the Programme present fairly its financial position and since the date of the most recent financial statements therein contained there has been no material adverse change, financial or otherwise in the condition, general affairs, results of operation or prospects other than as referred to in the Prospectus;
- (vi) that no events exist which, had any Notes been issued, would (or, with the giving of notice or lapse of time or both, could) constitute an event of default under the Notes;
- (vii) that no litigation, arbitration or administrative proceedings are presently current or pending or, to the knowledge of the relevant Issuer threatening which would or might have a material adverse effect on the relevant Issuer or on the ability of the relevant Issuer to perform its obligations under this Agreement and the Notes;
- (viii) that under presently applicable rules, all payments to be made by the relevant Issuer under this Agreement and the Notes are exempt from any taxes, by way of deduction or withholding, and the relevant Issuer is not required by law to make any deduction or withholding therefrom;
- (ix) that the relevant Issuer will pay all and any stamp and other similar taxes and duties payable in its country of incorporation in connection with the authorization, execution and delivery of the Notes, the initial delivery of the Notes and the execution and delivery of this Agreement.

Article 2

The Notes are issued in bearer form in the Denominations specified in the relevant Final Terms. They will be represented by a permanent global note, deposited with BIL as common depository for Euroclear Bank S.A./N.V. (“**Euroclear**”) and Clearstream Banking, société anonyme (“**Clearstream Luxembourg**”) and will not be exchangeable for definitive notes, unless specified otherwise in the relevant Final Terms.

The Notes will not be physically delivered. They will be held in a securities account.

Article 3

The relevant Issuer appoints BIL as Principal Paying Agent and Fiscal Agent and BELFIUS BANK as Calculation Agent and Paying Agent (together referred to as the “**Agents**”) in respect of any Tranche of Notes issued under the Programme upon the terms and subject to the conditions herein set forth, unless otherwise specified in the relevant Final Terms.

Article 4

The relevant Issuer or the Guarantor, as the case may be, authorises and directs the Fiscal Agent, from the funds provided to it, to make payments of principal and interest on the Notes on the relevant due dates.

(1) The relevant Issuer will, before 10.00 a.m. (Central European Time), on each date on which any payment in respect of any Notes becomes due under the Conditions, transfer to an account specified by the Fiscal and Principal Paying Agent from time to time such amount in the relevant currency as shall be sufficient for the purposes of such payment in funds settled through such payment system as the Fiscal and Principal Paying Agent and the relevant Issuer may from time to time agree.

(2) Any funds paid by or by arrangement with the relevant Issuer to the Fiscal and Principal Paying Agent pursuant to subclause (1) shall be held by the relevant Agent for payment to the Noteholders, until any payments under the Notes become prescribed under the Conditions.

(3) The relevant Issuer will ensure that no later than 10.00 a.m. (Central European Time) on the second Business Day (as defined below) immediately preceding the date on which any payment is to be made to the relevant Agent pursuant to subclause (1), the Fiscal and Principal Paying Agent shall receive an irrevocable payment confirmation by authenticated SWIFT from the paying bank of the relevant Issuer. For the purposes of this subclause, “**Business Day**” means any day on which TARGET2 (the Trans-European Automated Real-time Gross settlement Express Transfer system) is open and any other day so specified in the relevant Final Terms.

(4) The Fiscal and Principal Paying Agent shall notify by facsimile or by e-mail the relevant Issuer forthwith:

(a) if it has not by the relevant date specified in subclause (1) received unconditionally the full amount in the Specified Currency required for the payment; and

(b) if it received unconditionally the full amount of any sum payable in respect of the Notes after such date.

(5) If for any reason the Fiscal and Principal Paying Agent considers in its sole discretion that the amounts to be received by it pursuant to subclause (1) will be, or the amounts actually received by it pursuant thereto are, insufficient to satisfy all claims in respect of all payments then falling due in respect of the Notes, the Agents shall not be obliged to pay any such claims until the Fiscal and Principal Paying Agent have received the full amount of all such payments.

(6) Without prejudice to subclause (5), if the Fiscal and Principal Paying Agent pays any amounts to the holders of Notes or to any other Paying Agent at a time when it has not received payment in full in respect of the relevant Notes in accordance with subclause (1) (the excess of the amounts so paid over the amount so received being the “**Shortfall**”), the relevant Issuer will, in addition to paying amounts due under subclause (1), pay to the Fiscal and Principal Paying Agent on demand interest (at a rate which represents the Fiscal and Principal Paying Agent’s cost of funding the Shortfall) on the Shortfall (or the unreimbursed portion thereof) until receipt in full by the Fiscal and Principal Paying Agent of the Shortfall.

(7) The Fiscal and Principal Paying Agent shall on demand promptly reimburse each other Paying Agent for payments in respect of Notes properly made by such Paying Agent in accordance with this Agreement and the Conditions unless the relevant Agent has notified the relevant Paying Agent that the Fiscal and Principal Paying Agent does not expect to receive on the due date of a payment in respect of the Notes sufficient funds to make payment of all amounts falling due in respect of such Notes.

(8) Whilst any Notes are represented by a Global Note, all payments due in respect of such Notes shall be made to, or to the order of, the holder of the Global Note, subject to and in accordance with the provisions of the Global Note. On the occasion of any such payment, the Paying Agent to which any Global Note was presented for the purpose of making such payment shall cause the appropriate Schedule to the relevant Global Note to be annotated in order to evidence the amounts and dates of such payments of principal and/or interest as applicable.

(9) If the amount or principal and/or interest then due for payment is not paid in full (otherwise than by reason of a deduction required by law to be made therefrom or a certification required by the terms of a Note not being received), the Paying Agent to which a Note is presented for the purpose of making such payment shall make a record of such shortfall on the relevant Note and such record shall, in the absence of manifest error, be *prima facie* evidence that the payment in question has not to that extent been made.

Article 5

The Calculation Agent shall in respect of the Notes:

- (a) obtain such quotes and rates and/or make such determinations, calculations, adjustments, notifications and publications as may be required to be made by it by the chapter Terms and Conditions of the Notes in the Prospectus (the “**Terms and Conditions**”) at the times and otherwise in accordance with the Terms and Conditions;
- (b) maintain a record of all quotations obtained by it and of all amounts, rates and other items determined or calculated by it and make such record available for inspection at all reasonable times by the relevant Issuer, the Guarantor and the Paying Agents;
- (c) promptly notify (and confirm in writing to) the relevant Issuer, the other Paying Agents of each Interest Amount, Interest Rate and Interest Payment Date and all other amounts, rates and dates which it is obliged to determine or calculate under the Conditions as soon as practicable after their determination and of any subsequent amendments to them under the Conditions; and
- (d) use its best endeavours to cause each Interest Amount, Interest Rate and Interest Payment Date and all other amounts, rates and dates which it is obliged to determine or calculate under the Conditions to be published as required in accordance with the Conditions as soon as possible after their determination or calculation.

Article 6

The relevant Issuer, or failing him, the Guarantor, but only in case of Belfius Funding Notes or Belfius Financing Notes, will indemnify the Fiscal Agent against any loss, liability and reasonable expenses which may be incurred by it by reason of, or in connection with the exercise of its duties as Fiscal Agent, except such as may result from the Fiscal Agent's own negligence or wilful misconduct. The Fiscal Agent shall not be liable to pay interest on any moneys deposited with it by the relevant Issuer and/or the Guarantor for the purpose of its functions as Fiscal Agent.

The indemnities contained in this Article 6 shall survive the termination or expiry of this Agreement.

Article 7

The relevant Issuer, failing whom the Guarantor, but only in case of BELFIUS FUNDING Notes or BELFIUS FINANCING COMPANY Notes, shall pay the fees and expenses in respect of the Agents’ services in relation to any Tranche of Notes to the Fiscal Agent as separately agreed with the Fiscal Agent.

The relevant Issuer will also reimburse the Fiscal Agent all reasonable out-of-pocket expenses (including, inter alia, publication, cable and telex costs and postage) incurred by it in connection with the services rendered hereunder, upon its written request.

The Fiscal Agent shall be responsible for the remuneration of the Agents and for the reimbursement of the expenses incurred by them.

Article 8

(1) Each Agent shall be entitled to deal with money paid to it by the relevant Issuer for the purpose of this Agreement in the same manner as other money paid to a banker by its customers except:

(a) that it shall not exercise any right of set-off, lien or similar claim in respect thereof except in the case of money due to the relevant Issuer, and any amounts that are due but unpaid or are to be reimbursed by the relevant Issuer under this Agreement; and

(b) that it shall not be liable to account to the relevant Issuer for any interest thereon.

No monies held by any Agent need be segregated except as required by law.

(2) In acting hereunder and in connection with the Notes, each Agent shall act solely as an agent of the relevant Issuer and will not thereby assume any obligations towards or relationship of agency or trust for or with any of the owners or holders of the Notes.

(3) Each Agent hereby undertakes to the relevant Issuer to perform such obligations and duties, and shall be obliged to perform such duties and only such duties, as are herein specified and in the Conditions, and no implied duties or obligations shall be read into any such document against any Agent, other than the duty to act honestly and in good faith and to exercise the diligence of a reasonably prudent agent in comparable circumstances.

(4) The Fiscal and Principal Paying Agent may consult with legal and other professional advisers and the opinion of such advisers shall be full and complete protection in respect of any action taken, omitted or suffered hereunder in good faith and in accordance with the opinion of such advisers.

(5) Each Agent may rely upon and shall be protected and shall incur no liability for or in respect of any action taken, omitted or suffered in reliance upon any instruction, request or order from the relevant Issuer or any notice, resolution, direction, consent, certificate, affidavit, statement, cable, facsimile, telex or other paper or document which it reasonably believes to be genuine and to have been delivered, signed or sent by the proper party or parties or upon written instructions from the relevant Issuer.

(6) Any Agent and its officers, directors and employees may become the owner of and/or acquire any interest in, any Notes with the same rights that it or they would have had if the Paying Agent concerned were not appointed hereunder, and may engage or be interested in any financial or other transaction with the relevant Issuer and may act on, or as depositary, trustee or agent for, any committee or body of holders of Notes or in connection with any other obligations of the relevant Issuer as freely as if the Agent were not appointed hereunder.

(7) The relevant Issuer shall provide the Fiscal and Principal Paying Agent with a certified copy of the list of persons authorised to execute documents and take action on its behalf in connection with this Agreement and shall notify the Fiscal and Principal Paying Agent immediately in writing if any of such persons ceases to be so authorised or if any additional person becomes so authorised together, in the case of any additional authorised person, with evidence satisfactory to the Agent that such person has been so authorised.

(8) Except as ordered by a court of competent jurisdiction or as required by law or applicable regulations, the relevant Issuer and each of the Agents shall be entitled to treat the bearer of any Note as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof).

Article 9

This Agreement may be amended by the parties hereto without the consent of the Noteholders, for the purpose of curing any ambiguity or in any manner which the parties may mutually deem necessary or desirable.

Article 10

The relevant Issuer agrees that there shall at all times be a Fiscal Agent, until all the Notes shall have been redeemed and/or purchased and cancelled or shall have become void under the provisions of the prescription clause in the Terms and Conditions.

Each of the Agents may be removed at any time by the filing with it of at least 90 days written notice to that effect signed by or on behalf of the relevant Issuer, specifying the date on which such removal shall become effective, and each of the Agents may at any time resign by giving at least 90 days written notice (unless the relevant Issuer agrees to accept less notice) to that effect to the relevant Issuer, specifying the date on which such resignation shall become effective, provided however that no such notice shall take effect less than 45 days prior to and 45 days after a payment date under the Notes in any year and that no such resignation or removal shall take effect until a new Fiscal Agent, Principal Paying Agent, Paying Agent or Calculation Agent has been appointed by the relevant Issuer and such appointment has been accepted by the relevant Issuer. Upon its removal or resignation becoming effective, the successor Fiscal Agent shall be entitled to receive all funds and documents on deposit with or held by its predecessor as Fiscal Agent.

Article 11

The relevant Issuer and the Guarantor undertake to deliver to the Principal Paying Agent during the term of the Notes, upon its request, copies of its annual report and interim report, if any.

Article 12

The relevant Issuer and the Guarantor may at any time convene a meeting of Noteholders. The provisions for convening a meeting of Noteholders are detailed in the Programme.
