WABCO Acquires Transics International, An Industry Leader In Fleet Management Solutions

- **WABCO expands into fast-growing fleet management solutions market**
- **Transics International's innovative telematics solutions help improve operational efficiency, lower cost for commercial vehicle fleet operators**
- **WABCO obtains 96.84 percent of Transics International shares by acquiring holding company Tavares NV for an implied purchase price per Transics International share of EUR 14.14**
- **Acquisition to be followed by a mandatory offer and squeeze out on all Transics International shares and warrants of Transics International not held by Tavares**

BRUSSELS, Belgium – February 13, 2014 – WABCO Holdings Inc. (NYSE: WBC), a global technology leader and tier-one supplier to the commercial vehicle industry, today announced that it has acquired through its Belgian subsidiary WABCO Europe BVBA 100 percent of the shares of Tavares NV, itself holding 96.84 percent of the shares of Transics International NV (NYSE Euronext Brussels: TRAN), a market leader in Europe of fleet management solutions headquartered in Ypres, Belgium from previous shareholders Creafund Transics Shares Stille Maatschap, Mr. Ludwig Lemenu, Mr. Walter Mastelinck, Cassel BVBA and Uniholding SA. The purchase price paid by WABCO for 100 percent of the shares issued by Tavares was EUR 111.1 million, which included the acquisition of EUR 15.3 million of net cash held by Transics International resulting in a net consideration of EUR 95.8 million. The purchase price is based on an implied purchase price of EUR 14.14 per share issued by Transics International.

Following its acquisition of 100 percent of the shares issued by Tavares, WABCO Europe BVBA will make a mandatory takeover bid and squeeze-out bid on the remaining shares and warrants issued by Transics International. This offer will be made at EUR 14.14 per Transics International share. The offer price per warrant will be based on this offer price. In accordance with applicable takeover rules, such offer will be unconditional. WABCO Europe BVBA has notified the FSMA of its intention to make such offer and will make all required filings shortly.

“WABCO is continuing to execute its strategy to expand its fleet management solutions to commercial vehicle operators globally. With the acquisition of Transics International, we can now leverage the powerful combination of WABCO’s commercial vehicle systems expertise and industry-leading safety and efficiency technologies with Transics’ world-class fleet management solutions,” said Jacques Esculier, WABCO Chairman and Chief Executive Officer. “The integration of comprehensive real-time data gathered from WABCO’s onboard advanced braking, stability control and efficiency systems with Transics’ innovative telematics services will offer fleet operators a rich source of data to enhance their fleet services, gain operational productivity and increase vehicle safety and efficiency.”

Transics International provides seamless fleet management solutions that help commercial vehicle fleet operators to effectively and more efficiently manage their trucks, trailers, drivers, cargo and orders in real-time. Transics International currently serves more than 1,300 road transport and logistics companies across Europe connecting over 85,000 vehicles. The company’s innovative suite of fleet management solutions helps improve operational efficiency, customer service and fleet productivity while lowering operating costs.

“We are delighted to join WABCO, a global leader in the commercial vehicle industry,” said Walter Mastelinck, Chief Executive Officer and Founder, Transics International NV. “Both WABCO and Transics International are recognized for pioneering leading technologies that enable safer and more efficient commercial vehicles. Moving forward, we will combine our excellent fleet management solutions with WABCO’s advanced development capabilities, global reach and systems integration expertise to better meet growing global customer needs.”

WABCO plans to combine Transics International's operations with its existing Trailer Systems, Aftermarket and Off-Highway business. Transics International will continue to operate under its own brand and, as part of WABCO, will offer its comprehensive range of market-leading products and services in key markets worldwide, including its TX-CONNECT platform and suite of related systems.

"We greatly value the world-class capabilities, technological knowhow and track record of Transics International's team of market-leading experts," said Nick Rens, WABCO Executive Officer and Vice President, Trailer Systems, Aftermarket and Off-Highway. "WABCO already offers a broad range of service solutions for truck and trailer manufacturers, distributors, workshops and fleet operators. With the acquisition of Transics International, we will significantly expand our innovative portfolio of products, services and solutions catering to the specific needs of our global customer base."

Transics International has approximately 280 employees. The company maintains offices in Belgium, France, Ireland, the Netherlands, Germany, Spain and Italy. It manages a sales network across Europe.

About WABCO

WABCO (NYSE: WBC) is a leading global supplier of technologies and control systems for the safety and efficiency of commercial vehicles.
